ಸ್ನೇಹ ಪೂರ್ವಕ

ಪೂಜ್ಯ ನೇತಾಜಿಯವರ ಸನ್ನಿಧಾನದಲ್ಲಿ ಪ್ರಣಾಮಗಳು

ದಿನಾಂಕ 30-6-74 ರಂದು ತಮ್ಮ ವರ್ಧಂತಿಯನ್ನು ಹಾಗೂ ತಮ್ಮ ಅಮೃತವಾಣಿಯಿಂದ ನಾನು ನನ್ನ ಮಿತ್ರರೆಲ್ಲರೂ ಧನ್ಯರಾದೆವು. ಜೀವನದಲ್ಲಿ ಮರೆಯದ ಮಹಾ ದಿನ.

ತಾವು ಅಂದು ಉಪನ್ಯಾಸದಲ್ಲಿ ತಿಳಿಸಿದಂತೆ ತಮ್ಮ ಆಜ್ಞೆಯನ್ನು ಶಿರಸಾವಹಿಸಿ ಪಾಲಿಸುತ್ತೇವೆ ಹಾಗು. ಭಾರತ ಸೇವಾದಳದ ಬೆಳ್ಳವನಿಕೆಗಾಗಿ ನಂಬೂರ್ಣವಾಗಿ ತನು - ಮನ - ಧನದಿಂದ ನಮ್ಮ ದಳದ ಬಿಂದು ಇರುವತನಕ ಶ್ರಮಿಸುತ್ತೇವೆಂಬ ಸ್ಥಿರವನೆಯನ್ನು ತಮ್ಮ ಚರಣಾ ದಯದಲ್ಲಿ ಸಮರ್ಪಿಸುತ್ತಾ ಪ್ರಾರ್ಥಿಸ್ಥೈಯುತ್ತಿದ್ದೇವೆ. ತಮ್ಮ ಆಶೀರ್ವಾದದ ಶಕ್ತಿ ಪದಾತದಲ್ಲಿ ಸೇವಾದಳದ ವಿನಂತಿ ಹಾಗು ಚಿಂತನೆಗಳಂತೆ ಪ್ರಗತಿ ಪಥದಲ್ಲಿ ಬರುವುದು ಪ್ರಯತ್ನಿಸುತ್ತಿರುತ್ತೇವೆ

ನಾವು ಈಗಾಗಲೇ ತಮಗೆ ತಿಳಿಸಿರುವಂತೆ ತಾವು ಈ ಕೆಳಕಂಡ ಮಹನೀಯರಿಗೆ ಪತ್ರ ಬರೆಯಬೇಕಾಗಿ ವಿನಂತಿ. ಕೇಂದ್ರ, ರಾಜ್ಯದ ವಿದ್ಯಾ ಸಚಿವರಾದ ಶ್ರೀ ಎಂ ಮಲ್ಲಿಕಾರ್ಜುನ ಸ್ವಾಮಿ ಯವರಿಗೂ, ಮುಖ್ಯಮಂತ್ರಿ ಶ್ರೀ ಡಿ. ದೇವರಾಜ ಅರಸು ರವರಿಗೂ, ಪತ್ರ ಬರೆಯ ಬೇಕಾಗಿ ನಿಂದಿನ ಪರಿಸ್ಥಿತಿಯಲ್ಲಿ ಯುವಕರಿಗಾಗಿ ಶ್ರಮಿಸುತ್ತಿರುವ ಭಾರತ ಸೇವಾದಳಕ್ಕೆ ಧನ ಸಹಾಯ ನೀಡಿ ಪ್ರೋತ್ಸಾಹಿಸಬೇಕೆಂದು ತಾವು ಬರೆಯಲ್ಲಿ ಅದರಿಂದ ಸ್ವಲ್ಪ ಧನ ಸಹಾಯವು ಸೇವಾದಳಕ್ಕೆ ಲಭಿಸುವುದರಿಂದ ಭಾರತ ರಾಷ್ಟ್ರದಾನ್ಯಂತ ವಿನಿರಿಸಲು ಇತರೆ ಚಟುವಟಿಕೆಗಳನ್ನು ಕೈಗೊಳ್ಳಲು ಅನುಕೂಲವಾಗುವುದೆಂದು ಸೂಚಿಸುತ್ತೇವೆ. ಮತ್ತು ಮಂತ್ರಿ ಮಂಡಲದಲ್ಲಿ ಪ್ರಭಾವಶಾಲಿ ವ್ಯಕ್ತಿ ಯಾದ ಆಕಾಶ ನಿವಿಪ ಶ್ರೀ ಡಿ. ಜೆ. ಪಾಟೀಲರಿಗೂ ತಾವು ಪತ್ರ ಬರೆಯಲ್ಲಿ ಅನುಕೂಲ ವಾಗುವುದು. ನಮಗೆ ಪತ್ರಗಳನ್ನು ಬರೆದು ನಮಗೆ ದೊರಿನಿದಲ್ಲಿ ನಾನು ಇತರೆ ಸೇವಾದಳದ ಕಾರ್ಯಕರ್ತರು, ಶುಭದ ಬಂಧುಗಳು, ಉಪಾಧ್ಯಕ್ಷ ಮತ್ತು ಸದಸ್ಯರುಗಳಿಗೆ ನಾನಿವರುಗಳನ್ನು ಪಿನಯಿ ಯಾಗಿ ಸೂಚಿಸಿ ವಿವರಿಸಿ ಹೆಚ್ಚಿನ ಸಹಾಯ ಈಯಿಸುತ್ತೇವೆ.

ಆದ್ದರಿಂದ ತಾವು ಕೃಪೆಮಾಡಿ ನಾನಿವರುಗಳಿಗೆ ಪತ್ರಗಳನ್ನು ಬರೆದು ಇಲ್ಲಿನ ದಳಿಸಬೇಕಾಗಿ ವಿನಮ್ರವಿನಿಪೂರ್ವಕ ಕೋರುತ್ತೇವೆ.

ತಮ್ಮ ಆಶೀರ್ವಾದಗಳು ಸದಾ ನಮಗೆ ಸ್ಫೂರ್ತಿದಾಯ - ಸೇವಾದಳಕ್ಕೆ ಶ್ರೇಯಸ್ಸು ದಾಯಕವಾಗಿ ರಪ್ಪ ಕರುಣಾಕರವೆಂದು ಸಯಮಯನಲ್ಲಿ ಪ್ರಾರ್ಥಿಸುತ್ತೇವೆ.

ಇಂತಿ ತಮ್ಮವನೇ ಆದ, ಭಾರತ ಸೇವಾದಳದ ಸೇವೆಯಲ್ಲಿ

ಪ್ರಸ್ಥಾನ ಕಾರ್ಯದರ್ಶಿ

ಸೇವಾದಳ ಪರಿಷತ್ತಿನ ಸಭ್ಯ ಹುಡುಗರಿಗೆ ಜೇಯ ವರಿಗೆ -

ಪರಮ- ಹಾರೈಕೆ.

ಪ್ರಿಯ ಬಂಧುಗಳೆ,

ಇತ್ತೀಚೆಗೆ ಪತ್ರಿಕೆಯಲ್ಲಿ ತಮ್ಮ ಅನಾರೋಗ್ಯದ ಬಗ್ಗೆ ಬಂದ ವರದಿಯನ್ನು ನೋಡಿ ಮನಸ್ಸಿಗೆ ಬಹಳ ಬೇಸರವಾಯಿತು.

ಭಾರತ ಸೇವಾದಳದಲ್ಲಿ ತಮ್ಮ ಕಾರ್ಯದಕ್ಷತೆಯನ್ನು ಕಾಣುವಲ್ಲಿ ನಿಸ್ವಾರ್ಥತೆಯಿಂದ ಇಂದು ಮಾಡುತ್ತಿರುವ ಅಭಿವೃದ್ಧಿ ಕಾರ್ಯಗಳನ್ನು ಶ್ಲಾಘಿಸಿದ್ದೆವು. ಪ್ರಾಥಮಿಕ ಶಾಲೆಯಿಂದ ಪ್ರೌಢಶಾಲೆಯವರೆಗೆ ಸಂಘಟನೆ ಮಾಡಿ ಸಕ್ರಿಯ ಸದಸ್ಯರನ್ನಾಗಿ ಮಾಡಿಕೊಂಡು ಶಿಬಿರಗಳನ್ನು ಏರ್ಪಡಿಸಿ ಶಿಕ್ಷಣ ಕೊಡುವ ಕಾರ್ಯಕ್ರಮ ಇಂದು ತಮ್ಮ ಅನಾರೋಗ್ಯದಿಂದ ಸ್ಥಗಿತಗೊಂಡಿರುವುದು ನಮಗೆಲ್ಲರಿಗೂ ಬೇಸರ ತಂದಿದೆ.

ಭಾರತ ಸೇವಾದಳದ ಸಂಸ್ಥಾಪಕ ಸದಸ್ಯರಾಗಿ ಸಂಘಟನೆಯಲ್ಲಿ ಕಾರ್ಯದರ್ಶಿಯಾಗಿ ಇಂದು ಸಲ್ಲಿಸಿರುವ ಸೇವೆ, ಇಂದು ಕ್ಷಾಮ ಮತ್ತು ಪ್ರವಾಹ ಪರಿಹಾರ ಕಾರ್ಯದಲ್ಲಿ ಮಾಡಿರುವ ಸಾಧನೆ ಇವೆಲ್ಲವನ್ನು ಮನಗಂಡು ಕೇಂದ್ರ ಸರ್ಕಾರವು ತಮ್ಮನ್ನು ಪದ್ಮಭೂಷಣ ಪ್ರಶಸ್ತಿಯಿಂದ ಗೌರವಿಸಿರುವುದು ನಮಗೆಲ್ಲರಿಗೂ ಹೆಮ್ಮೆಯ ವಿಷಯವಾಗಿದೆ.

ಭಗವಂತನು ತಮಗೆ ಬೇಗ ಗುಣಮುಖರು ಮಾಡಲಿಂದು ಪ್ರಾರ್ಥಿಸುತ್ತೇವೆ.

ತಾವುಗಳು ಶೀಘ್ರವಾಗಿ ಗುಣಮುಖರಾಗುತ್ತೀರೆಂದು ನಂಬಿದ್ದೇವೆ.

ಇಂತಿ ಸೇವಾದಳದ ಸೇವೆಯಲ್ಲಿ

ಬಿ.ಕೆ. ಶಾಮಯ್ಯಗೌಡ್ರು

Collector,
D H A R W A R.

Dear Sir,

I beg to send you herewith for your information the series of my articles in English, the Canarese renderings of which I have so far published in the local daily " Tarun -- Karnatak ", regarding the management of the Hubli Municipality and its services to the Hubli public. The cuttings of the Canarese articles from the " Tarun Karnatak " are also herewith enclosed.

Before proceeding further with this letter I wish to make one point quite clear. I am a Congress-man and a Congress worker. As such it does not ordinarily come within my sphere of work to take notice of the short-comings of the local bodies such as the Municipalities and interest myself in setting them right. But the reasons and circumstances which compelled me to break the rule in the case of this particular Municipality have been described at length in the first and introductory article of the accompanying series. I have no desire to be a member of this Municipality nor take active part in its administration. I do not propose to take interest in its affairs for one minute longer than is necessary for seeing its management go into better and more capable hands.

I am stating this because I am anxious that there should not be any misunderstanding between myself and the --

Government regarding my present activities. It begins and ends purely as an attempt to raise the local civic life to a higher level. I do hope that you appreciate my particular anxiety in this connection.

Now let me return to the subject proper of the present communication. I have been for some time going round the town specially for the purpose of collecting first-hand information regarding the arrangements made and the services rendered by this Municipality for the comfort and convenience of the public. Some of my observations and conclusions have been embodied in the accompanying articles.

Under the provisions of the Municipal Act you possess supervisory powers and authority over the management of the Municipalities. I have sent my articles to you in the hope that they may be of some use to you in the conscientious discharge of those supervisory duties. I shall however be glad to know if they really be of any use by way of adding to the information which you may already possess about this Municipality. Should you be so inclined you may make such suggestions as you think advisable regarding the method or material of my articles and I shall gladly note them for guidance in my future attempts.

I have also sent copies of my articles for their information to (1) The President, Hubli Municipal Borough, Hubli, (2) The Commissioner of Public Health, Bombay Presidency, Poona (3) The Collector, Dharwar and

To,

The Commissioner of Public Health,
Bombay Presidency,
P O O N A.

Dear Sir,

I beg to send you herewith for your information the series of my English articles the Canarese renderings of which have so far been published in the local Daily " Tarun Karnatak ". I have not sent you the Canarese renderings as I do not consider that they will be of much use to you.

You are aware that the Hubli Municipality does not possess a Health Officer. The burden of supervising its sanitary arrangements from the point of public health lies all the more heavier on your shoulders. I have sent my articles to you in the hope that they may be of some use to you in a better and more conscious discharge of your duties towards the Hubli town and public. I shall be glad to know if they be of really of any use to you by way of adding to the information which you may already possess about this Municipality's management. Should you be so inclined you may make such suggestions as you think advisable regarding the method or material of my articles and I shall be glad to note them for guidance in my future attempts.

I have supplied copies of my articles for their --- information to (1) The President, Hubli Municipal Borough, Hubli, (2) The Collector, Dharwar, (3) The Commissioner, S.D, Belgaum and (4) The Honourable Minister, Local Self Government, Bombay.

Enclosures:-

7

Mahoobalikhan. M.L.C.
President,
Municipal Borough Hubli,
Dated 17th January 35.

Private.

Dear Sir,

The election of the Dharwar Municipal Borough was to take place at the end of this month. The preliminary measures as the publication of the election rolls and the receiving of the nomination papers have been taken. Objections --- the katcha voters list could have been taken within 15 (no objections of the roll of the type) after the publication of the same.

Instead of so doing the congress people with the intention of getting the postponement of the elections unnecessarily and with hatred have raised the objections at this stage to create troubles. If these objections had been raised in time it would have been considered as fairly made.

Looking to the objections raised after the publicatio of the electoral roll with regard to the entry of names which ought not to have appeared in the list it may easily be guesse that the names may have been got entered by the persons who now opposed to the same.---No such actions should be co sidere as they are brought about by the con--- It will be ruling the mischievous people.

Even if it is taken that there are some entries as complained it seems desirable that the period of elections be postponed and a fresh list be ordered to be made cancelling the present one. If the municipality be suspended by taking the allegations made to be true the congress people who have now taken the work of village improvement will interfere in the affairs of administration of local bodies by making false allegations and try their best to take into their hands the administration of local bodies.

I have put before you the humble views as the question is of great importance ----- es due con--- n.

Hubli is at a dist -- miles from Dharwar and the Munic -- is to take place in the month of June. The con--- people here may also attempt their best to make allegations against the municipality and try to have the same suspended.

I have therefore brought all the facts to your kind notice. You therefore requested to decide the Dharwar Municip election case with due consideratio . Hoping to be excused for the troubles given.

Yours sincerely

To

The Hon'ble Khan Bahadoor Sir Shah Nawazkhan Bhutoo

C.I.E.O. B.E.Kt.

Minister Of Local Self Government Bombay.

8

Hubli,
4-2-35

Dear Dr Hardikar

I have read your ~~out~~ articles and return them herewith. I agree with nearly all you say and I hope that your efforts will bear fruit

Yours faithfully

A. L. Bradbury

QUESTIONNAIRE

Please answer the following questions :-

(1) What is the total population of your town ?

Dear Sir,

You are aware that I am writing a series of articles in the local Daily " Tarun Karnatak" regarding the nature and extent of the services rendered by your Borough to the Hubli public. In the articles so far published I have described -- chiefly the existing arrangements regarding sanitation and -- public health. But I am not satisfied only with that. I wish to make a deeper study of the administration of your Borough before I form my opinions thereon and make specific suggestions for its improvement. I have no doubt that you appreciate my intention and welcome my efforts in this connection. I therefore request you to be good enough to supply me with the information as required in the accompanying questionare at an early date and oblige.

The Commissioner,
Southern Division,
B E L G A U M.

Sir,

I shall be obliged if you will please let me know at an early date as to what, in the case of the Hubli Municipal Borough constitution a -- qualifying Tax as it is described in Section 11 sub-section 2 a (ii) of the Bombay Municipal -- Borough's Act, 1925,

Please excuse troubles.

Hubli,
9/2/1935.

Yours truly,

12

Hubli,
~~23rd January 35.~~
24th February 1935

CONFIDENTIAL.

My dear Brother,

I do not know whether you have seen and read the articles that I am now publishing in Kannarese in the Local daily "Tarun Karnataka" on " The Affairs of the Hubli Municipality." These articles are first written in English and then translated into Kannarese. If you have not yet read them, I urge you to secure the copies of this local daily and go through them. If not, let me know and I will send you my copy for your perusal.

My idea in writing these articles is to draw the attention of the Municipal administrators to the defects and draw-backs in the practical application of the principles of sanitation and public health in so far as the Hubli citizens are concerned. While doing so, I also wish to awaken the people of this city to their own duties and responsibilities regarding the Municipal affairs. I do not or intend to go beyond that.

So far, the subjects that I have dealt with in my articles are :-

PART.I

(1) Local bodies and myself.
(2) Importance of Hubli.
(3) General sanitation.
(4) Negligence of authorities.

EXPLANATION.

PART II

(5) Duties of a Municipality.
(6) Public latrines
(7) Gutters, streams and nalas.
(8) Hell-like streams.
(9) Tanks and Ponds.

The articles that are yet to follow are on subjects like the following :-

(1) Water.
(2) Food.
(3) Lights.
(4) Urinals.
(5) General Up-keep.
(6) Administration [past and present]
(7) Life of the poor etc., etc.,

Thus, there will be at least ten more articles.

I do not want to write anything that is not true. I have tried to understand the subject clearly before I have put it on paper. Therefore, during the last 20 days I have visited every nook and corner of the city, studied the situation myself first-hand, compared the same with the notes of my friends, and then given publicity to them. If necessary, I will visit the various parts again, though I am not in a condition to move about, and get further facts that are necessary for my articles.

In this case I want your help. If you can give me any material along the lines that I am collecting for this series of articles, I will be highly obliged. I would like to get from you, or from your friends, any old reports of the Municipality or any other papers showing the condition of the Municipality affairs of Hubli. Just now, I do not want to approach the Municipal office for such reports or papers for my purpose. I will do so when the opportune time comes.

Therefore, I am appealing to you to help me in this task of mine. Any copies of reports or papers that you may give me will be duly returned to you as soon as my work is over; and I will not, if you do not want it, use your name anywhere, or at any time before anyone.

If you no care I would like to have a talk with you. please give me some time. If you wish you may come to me or else ask me to go to you. As I am not well it will, of course, be difficult for me to go to you.

Thanking you for everything that you will do for me in this particular undertaking.

I am,
your brother,
M. S. Hendricks

From

Dr. N. S. Harolkar,
Hubli.

To

The President,
Hubli Municipal Borough,
H U B L I.

Dear Sir,

This is to remind you that I sent you a questionair on 9-2-1936 and requested you to send me your replies thereto but that I have not received any communication from you uptil now. I have received replies from almost all the other Municipalities to whom also I had sent copies of the questionair. Please therefore send your replies at an early date and oblige.

Yours truly,

Hubli,
Date,
9/3/35

From,

Dr. N. S. Hardikar,

To,

The President,
Hubli Municipal Borough,
H U B L I.

II Reminder.

Dear Sir,

This is the second reminder which I am sending you in connection with the Questionarre which I sent to you on 9-2-1935 and requested you to send me your replies thereto. The information was required for a comparative study of the Municipal affairs with special reference to the administration of the Hubli Municipality. It is indeed a matter of refret to state that your Borough has not so far even acknowledged receipt of my letter and its first reminder. If the supply of replies to my Questionarre requires any fees to be paid for it please inform me accordingly and I shall arrange to pay the same. Or if it consists any copying work I am prepared to send one of my workers to do the same. Under any circumstances please inform me at an early date when I may expect to receive the replies from you.

Hubli,
29-3-1935.

Yours faithfully,

From

Dr. B.S.Hardiker,

To

The President,
Municipality,

Dear Brother,

About a month and a half ago I wrote to you a letter and requested you to be kind enough to answer the questionairewhich was enclosed along with it. I am sorry I have no reply from you.

For your information I quote the letter below and again send a copy of the questionaire herewith.

May I solicit an early reply from you?

Your Brother,

"The letter"

I am attempting to suggest improvements in the present unsatisfactory administration of the Mubli - Municipal Borough. For this purpose, I have personally gone round the town and acquainted myself with the actual facts of the existing arrangements. But before submitting my final conclusions and suggestions I wish to make a comparative study of the different Municipal Administrations in the Presidency. I have therefore to request you to help me in this undertaking. Will you please send me copies of the Administration Reports of your Municipality for the last five years? I shall also thank you if you will supply me with additional information by replying to the accompanying questionaire as far as possible.

Please Excuse troubles.

No. M.A.N.H. 1713 .

6-8-1935

There are several problems concerning the Hubli Municipality which require a thorough examination. Our annual audit and fault finding though it might check serious faults, cannot improve matters. I therefore propose that Mr. Dias on his return from Poona should study the financial position of the Municipality as a whole, examine carefully the sources of income and the heads of expenditure and also put down what are the most crying needs of the municipal area and suggest ways and means to carry out any schemes of improvement he might put up. I have felt that the municipal taxation is not at all well distributed and that there is a lot of leakage. The heads of expenditure can be scrutinised and possible economics suggested.

I would suggest that Mr. Dias should be supplied with the audit notes of the last five years, the annual administration reports of the Hubli Municipality for the last five years and a copy of the Municipal Borough's Act and the Rules of the Hubli Municipality. Mr. Dias might study these now and get the necessary founding that might help him in the study of this problem. Mr. Dias's report will be very helpful to the Municipality.

sd. M.J.Desai.

Collector.

Dharwar: 20-6-35:Bait..angalkar's report during last elections

----o-----

para 12. The enquiries made by me have ~~xxxxx~~ revealed that houses in Hubli have been greatly undervalued for the purposes of house tax assessment. If the revision of the rental value of the houses is properly made I have no doubt that the present house tax receipts would increase to 60 to 70 percent etc.

No. [illegible] 193 /-3 v.

Hubli, 23-10- 1937.

From,

Sardar Mahaboob Alikhan, M. L. A.

President Municipal Borough Hubli

To,

Dr. N.S.Hardikar,

Subject — H U B L I.

Sir,

With reference to your open letter addressed to me dated 17/10/37, I have the honour to reply as follows

The alleged open challenge given by you is not brought to my notice. It would have been better if a copy of it, had been sent to me earlier.

The Kalal's matter was brought to my notice after my return to Hubli from Poona. Mean while it had taken a serious turn. The proper course for the Kalals would have been to appeal to the General Body. Instead of this simple procedure, they resorted to extreme steps, such as holding a strike condemning the actions of the Municipality and making grave allegations against the administration. They had got every right to approach me for geting their grievances redressed and if I had rejected their appeal, then it was open for them to refer the matter to the Collector.

Atleast, as a well wisher of the Hubli Town, you ought to have informed me before helping the Kalals. I would have then admitted and even appreciated your helping, the Kalals. But instead you joined hands with them in making grave allegations against the Municipal administration. This shows clearly your [illegible]

towards the Hubli Municipality.

Cancellation of the Standing Committee Resolution does not mean that the original resolution is illegal. The General Body being the appellate body generally repeals many resolutions passed by the various committees. It only means that th General Body does not agree with the view taken by the Standing Committee. Difference of views does not amount to illegality. Similar difference of views and repealing of the orders may be seen in other bodies too, besides local bodies. The view taken by a subordinate officer may not be upheld by his higher officers. This does not mean that the subordinate officer is acting illegally. The Resolution of the Standing Committee need not be therefore held illegal and the Municipality is not guilt of upholding the same.

Besides, the revision of the Standing Committee does not be little the allegations on the Congress workers. The allegations against them stand true even today.

I have referred this matter to the Premier neither to poision his mind nor to prejudice him against any one but with the intention of presenting the facts as they stand. I have no ill will for the institution, for which you stand. But the means and ways used are some times objectionable. A perusal of the articles published in the local papers by you and other Congress people shows how you are creating obstacles in the smooth administration of the Municipality.

I have explained the whole matter frankly and placed before you all the facts. My position ought to be quite clear to you now. Further I request you to cooperate with the undersigned in maintaining prestige of the Town. Any suggestion offered by you will be welcomed. The personal discussion may be of more advantage to remove all misunderstanding between us.

Yours sincerely,

President
Hubli Municipality.

GSR.21/10.

To

The Honourable Mr.S.M.Patil,
Minister for Local Self Government,
Government of Bombay,
B o m b a y.

Sir,

The undersigned petitioner begs leave to pla before your honour the following few facts for your kind consideration and immediate action.

Your honour might be aware of the maladminis tration of the Hubli Municipal Borough. Those who are responsibl for such administration think that they can defy any law and the rules framed thereunder. The complaints of citizens were not heeded in the past. The petitioner does not desire to worry your honour with the history of this maladministration under which the citizens of Hubli are groaning for a number of years. He will content himself with pointing out a few hard facts which clearly show that some of the Councillors of the Hubli Municipality are utilising the services of men who are paid for by the Municipality. These men received their wages or s laries from the Municipality and they rendered service in the fields or houses of certain Councillors at their bidding.

Rao Saheb Dr.S.P.Kumbhakonam L.M.S. and Sardar Mahaboob Alikhan alias M.A.Savanur, President, Hubli Municipal Borough, are the two Councillors about whom details are as under;

<u>With respect to Dr.Kumbhakonam</u>

From 10-1-1937 to 10-2-37 three coolies and
from 11-2-37 to 26-2-37 two coolies laboured
in the field of Dr.Kumbhakonam;

Similarly on 6-3-37 one cooly
on 7-3-37 two coolies
on 8-3-37 one cooly
on 9-3-37 to 14-3-37 two coolies per day
15-3-37 to 24-4-37 one cooly per day
laboured in the house of the said Doctor.

There are likely to be other instances but the Municipal records are too sacred to be touched even by a

P.T.O.

ntepayers. The President has issued Standing orders ot to show the records to anybody without his express' rders. It is impossible to get permission from one who s fully conscious that such inspection would expose him. o I cannot give greater number of instances.

The President M.A.Savanur has caused loss to the municipality in the following instances by using the services of coolies on the days marked against them.

5	coolies	on 6-3-37	
4	"	" 7-3-37	
6	"	" 8-3-37	
4	"	" 9-3-37	
4	"	" 10-3-37	
3	"	" 11-3-37	
3	"	" 12-3-37	
1	cooly	" 14-3-37	
1	"	" 15-3-37	
1	"	from 30-3-37	to 1-4-37
1	"	" 15-4-37	to 22-4-37

These facts are noted in the Municipal Books given to the peons who supervise the work of gangs of coolies under them. The entries are in the handwriting of the peons and they are checked by Inspectors and signed by the latter. The facts stated above are culled from only two such books.

I am a lay man but all the same I think these facts constitute a criminal offence. These Councillors have fraudulently shown in the accounts of the Municipality that these coolies served the Municipality and dishonestly utilised their services for their own private use and gain. They have got the accounts falsely written in as much as their wages and salaries are credited to the Municipality in other words the coolies are paid by the Municipality though they rendered no service to it. The President and his honourable colleague have defrauded the Municipality.

The citizens of Hubli waited for months together for some inquiry to be made by the Congress Government which is above communalism. That belief, I am pained to note, is being slowly undermined and why?

(1) The President is a Mohomedan. So, for the sake of maintaining good relations with that powerful community no finger is to be raised against a prominent member of that community.

(2) The Chief Officer is a Lingayat, who is not to be removed because the Lingayats form/-ing the largest section of the non-Brahmins would be displeased.

(3) The Brahmins though small in number are an influential body, so, no Brahmin's hair is to be touched.

As days pass this impression is gaining ground. The petitioner prays that your honour will take such early action as to give a go-by to this impression.

The petitioner prays to be excused for being frank.

The petitioner prays that the work of investigation is to be entrusted to a highly paid, trustworthy and intelligent Police Officer. The books referred to are to be attached immediately and statements of person recorded without giving them opportunity of concocting a false explanation. The persons concerned are monied men and very influential persons. They have succeeded on the principle 'every man has his price'. So, much thought should be bestowed on the selection of the Police Officer and the Magistrate issuing search warrants. If the information leaks out the books are sure to disappear. On the substantiation of these facts it is for the prosecution to say exactly what offence is committed by ~~in~~ the persons named above. The petitioner's view is that more than one offence is committed by them. He hopes that the Congress Government will set an example by taking action against them and checking this kind of leakage of Municipal Funds.

In conclusion the petitioner prays that your honour would pass immediate orders for investigation by a competent Police Officer.

I have the honour to be,

Sir,

Your most obedient servant,

Multi.

His Excellency the Governor's reply to the address of the Hubli Municipality on January 20th.

Mr. President, Ladies and Gentlemen,

I am very glad to have this opportunity of meeting you and seeing the town of Hubli and I thank you very much for the kind terms in which you have welcomed Lady Lumley and myself. In particular I appreciate your expression of devoted loyalty to His Majesty the King Emperor.

I am very glad that you have laid before me your difficulties and your chief requirements. I must remind you that the provision of funds is a matter which rests with the Ministry and that where you have a reasonable claim you should approach Government through the Collector in the usual manner.

You have spoken with very proper pride of this as the premier city of the Karnatak which is in numbers one of the bigger cities of the Presidency, and it is commendable that you have as a rule kept your expenditure within your income. But from what you have told me I am left with the impression that Hubli has not the amenities which a city of its size ought to have. You rightly say that this a great industrial centre and for that reason it should not be difficult to find the money for these improvements. Your rate of taxation per head is low being under Rs.4 per head and less than half of this is derived from direct taxation. The rate in Sholapur is over Rs.6/- and in Poona it is Rs.8.

I draw attention to this because you have proposed that certain large schemes should be financed by Government grants or by raising a loan. It is very doubtful whether Government can afford to make such grants, but there is no reason why you should notraise a loan if your finances are sufficient to pay the interest and instalments of the capital. A loan of Rs.20 lakhs which you propose repayable in 20 years will involve the payment

of interest of over a lakh and a half a year. Your annual balance does not at present provide such a sum and to do so you will have to raise your rate of direct taxation. If you will work out detailed scheme and put your finances in the necessary condition and then make an application to Government, I am sure that it will receive careful consideration.

Your first need seems to be a proper and this should be combined with improvementsin the water supply. I am glad to hear that you have now appointed a health officer, a most necessary person in a town of this size, and I hope this will result in the serious undertaking of the necessary improvements

As regards lighting, it is high time that your streets were properly lighted with electricity. I understand that you have had an electric supply company for over 12 years, but you have not yet come to an agreement with them. I cannotbelieve that with the exercise of a little good will a satisfactory settlement could not be reached, and I hope that the informal action taken recently by the Collector will lead to this result. If you are unable to agree, it is open to you to get the question settled by arbitration under the Electricity Act. In any case the matter should be settled without delay and I would urge upon you not to allow the unfruitful wrangling which has gone on for so many years to continue any longer. The Board is responsible for providing the citizens wit amenities suitable to the size and importance of the town, and I hop you will place that consideration before all others.

With regard to the educational matters which you have mentioned, if you put forward your requirements to Government you may be sure that they will receive consideration. The Ministry have under review the question of opening industrial schools at suitable centres and I have no doubt that the claims of Hubli will be considered when the policy has been decided upon.

On the formation of a Karnatak Province I will only that it is not a municipal matter and as a provincial question

.t is not within the bounds of practical politics.

I sympathise with you in the loss of your market place by fire. In a commercial centre such as this a market would seem to be essential and I hope that you will be able to include this in the projects which you intend to carry out by loan.

In conclusion let me advise you not to rest content with the present condition of affairs, but to determine to bring your finances into such order that you may be able to provide this great town with the health, comfort and amenities which are expected in a flourishing commercial centre. Let it be a matter of pride to you to make this notonly the biggest but the best equipped town of the Karnatak.

I am glad to have had an opportunity of seeing something of your town and I shall follow its future development with interest.

I thank you for your address.

7-2-38

Municipal assessment appeal No. 3

In the court of the Resident Magistrate F.C.Hubli.

Order

In this the appellant 'Ramappa Parutappa Hubli has ~~ad~~ an appeal against the Municipal Tax regarding his residential house on Old Hubli for the year 1936-37.

The appellant Ex.1 argues that his house in question was taxed by the municipality on the rental value of Rs.100 for the previous 10 to 15 years and that the said value was for the first time raised to Rs.250/- in the year 1935-36 at revision and requests that the ~~said~~ tax be ordered to be levied on the rental value in vogue before 1936-37.

The Chief officer of the Municipality, Ex.2 admits that since he began to serve as Chief officer in 1931 the rental value of the house was Rs.100 and that it was raised for for the first time for the year 1935-36 at revision. He gives no particulars details of calculations as to how he arrived at the rental value of Rs.250/- as against the previous value of Rs.100 and cannot even say what market value he fixed for the house in assessing, the enhanced tax. He adds that that there were no changes effected in the house during the said four years of his regime and that he had no other special reasons to enhance the rental value. It is therefore clear that the enhancement has no justification whatever and is merely arbitrary, I have seen the house in person.

I therefore order that the tax should be assessed on the rental value of Rs.100 and the excess amount levied from the applicant refunded to him by the Municipality who should bear their own court cost and pay the costs of the appellant to him.

sd. M.M.Hyamannavar.
R.M.F.C.Hubli.

Revision No. dismissed
Court has been rejected

Municipal Assessment appeal No. 5. Ex. 4.

In the court of the Resident Magistrate F.C.Hubli.

Order

This is an appeal against the municipal tax for the year 1935-36 and 36-37 regarding municipal housese No. 7720 & 7721 in Old Hubli both of which constitute together one residential house of the appellant' Deekappa Mallappa Hubli.

On behalf of the appellant his sone Ex1 and his karkun Ex.3 has been examined while on behalf of the respondent 'Hubli Municipal Borough the Chief officer of the municipality Ex.2 who assessed the tax has been examined. I have also in company with both sides pleaders and the chief officer seen some houses, factories etc shown by them.

The residential house now in question has been taxed by the Chief officer on an annual rental value of Rs.300/-. The contention on behalf of the appellant is that the said rental value is too exaggerated and excessive and that it should be fixed at Rs.100/-. It is undisputed and admitted that the house in question is one situtate in Old Hubli and far from Durgadbail which is situate in new Hubli and which is the most important and trading centre of Hubli both new and old and that out of the houses shown to me the house of Govindnaik Kalaghatgi is ~~sixuksa~~ situate is Durgadbail and the houses of Gurappa Nili and Sardar Mahabaoobballikhan are situate in the vicinity of Durgadbail.The particulars regarding the said houses so far as are pertinent to this case are asunder:-

1.	House of the appellant now in question	1370 sq.yards.	Rs.300/-
2.	House of Sardar Mahabobbali khan	476	Rs.150/-
3.	The house of Gurappa Nili	920	Rs. 30/-
4.	The house of Govindnaik kalaghatgi	1020	Rs.300/-

Barring the house of the appellant now in question I have mentioned above only three other houses without quoting many others as instances to show How the taxes have been fixed by the Chief

at his own whim and pleasure. Of the said three houses the house of Govindnaik Kalaghatgi is the best, that of Gurappa Nili is somewhat inferior to Govindnaik and that of Sardar Mahabooballikhan is inferior to Gurappa Nili's. Such being the case it is not understood how Gurappa Nili's hous come to be assessed on a rental value of Rs.30/- while that of Sardar Mahabooballikhan was assessed on a rental value of Rs.150/-. This shows that the assessment made by the Chief officer are rather based upon his arbitrary capricies and sweet will and not on due and proper enquiries made. As regards the house in house in question the chief officer has no tippan or anything else, he says he has kept no such thing in the case of any building-to show how he arrived at the rental value of Rs.300/- fixed for the house in question. He says that while fixing the rental values of the buildings assessed by him he took into consideration the values of the building and when further questioned as to what value he took for the house now in question he says he can't tell it. His deposition read as a whole reveals that the assessment fixed at random at his whim and pleasure and also that there is friction between the Municipality and the appellant. When I took round in order to visit the various buildings shown to me by both the sides I cam to know that not a single building even in the Durgad bail which is the most important centre of Hubli has been assessed on the rental value and that the house of Kalaghatgi Govindnaik which is the best in that centre has been assessed to tax on the rental value of Rs. 300/-. If so what of Old Hubli which is far off from Durgad bail the most important centre of Hubli and from the Railwa station and which has in consequence not attracted any officers, pleaders, big merchants etc. for residing? It is thus quite apparent that Old Hubli is a part which cannot realise any appriciable rent as in new Hubli. Taking the decent houses in new Hubli and their municipal taxes and taking into consideration and also the amenities and surroundings affecting the question of assessment of a hou

I regard that the rental value of Rs.800/-for the house now in question to be quite exhorbitant arbitrarily fixed. I would therefore hold that the reasonable rental value for t house would be Rs.200/- and order that the tax should be fixed on that rental value the excess amount paid by the appellant being refunded to him by the Municipality.

The municipality should bear its own court costs and pay the appellant his costs.

7-2-38. M.M.Hyamannavar
R.M.F.C.Hubli

Revision to District Court has been rejected.

ex.7 (c

Municipal assessment appeal No. 7.

In the court of the Resident Magistrate F.C.Hubli.

Order.

This is an appeal against the municipal tax for the year 1935-36 regarding the Mallikarjun theatre at Hubl belonging to the appellant Dekappa Mallappa Hubli.

The tax has been fixed on the annual rental value of Rs.1100/- and the appellant contends that it should be fixed on the rental value of Rs.1000/-.

On behalf of the appellant his son Ex.1 has been examined. He deposes that for the past 8 to 1 years before 1935-36 now in question the assessment has been fixed on the yearly rental value of Rs.1000/- and that the very rental value was taken for the year 1936-37 the year following the year relating to the present appeal namely 1935-36.

The chief officer Ex.6 admits that from the beginning upto 1935-36 the theatre in question was assessed on the rental value of Rs.1000/- and that he for the first time raised the rental value to Rs.1100/- for the year 1935-36 now in question and that even for the subsequent year namely 1936-37 the municipal standing committee reduce the rental value from Rs.1100 to Rs.1000/- which rental value has been continued for the year 1937-38 also. These circumstances are self evident to show that the rental value of Rs.1100/- fixed is one which is not correct.

I therefore order that the assessment for the year in question i.e.1935-36 should be fixed on the rental value of Rs.1000/- and the excess tax recovered from the appellar should be refunded to him by the municipality the latter bearing its own cost and paying the appellant his costs.

To,

The Hon'ble Minister,

To the Government of Bombay.

Bombay.

Sir,

I,the undersigned, beg to approach you with the following for favourable consideration.

I was serving in the Hubli Municipal Borough as a Cattle-shed Superintendent for the last 12 years during which period my work has been found satisfactory.

In recent years things gave a different turn in the following circumstances and the consequence was, I was dismissed from the service by a resolution of the Standing Committee No. 384 of 10-8-~~1938~~ 1937. The resolution was communicated to me on 18-8-~~1938~~ 1937.

In the cattle-shed,there were two other watchmen besides me,one for the day and the other for the night watch. The kadbi was always being stolen by one of the watchmen by name Nagappa Basappa who was caught red handed by the coolies of the contractor. The matter was reported to me by them and I reported the matter to the Chief officer.The watchman was afterwards found guilty and was dismissed by the Chief offider. This man belonged to the majority party and Mr. Kankudti, the Sanitary Inspector was also interested. Naturally he was offended by action in getting his man dismissed who began to harrass me.

Some bullocks of one Hazaratsab wd. Gousabsab Girni were being fed and reared in the cattle-shed throughout the year. This fact was also brought to the notice of the Sanitary Inspector,Mr.Kankudti who did not take any notice.Afterwards in order,that I must be out suspecion,I reported the matter to the Chief officer and handed over the report to the Secretary. An enquiry was then made by Mr.S.H.Divate a member of the Majority in company of Messrs. Ghodke and Kulkarni -

also members of the Party in power. A report was then made by Mr.S.H.Divate to the Chief officer alleging about the conduct of this Sanitary Inspector,Mr. Kankudti.

On the strength of this report, the Chief officer suspended Mr. Kankudti pending enquiry on or about the 27-5 1937 and called upon Mr.S.H.Divate to adduce evidence in support of his allegations against the Sanitary Inspector. Here,Sir, I beg to mention,that this Sanitary Inspector is a Mohmadan to which caste our President belongs. He is also related to a member of the pary in power. Naturally every bodu wanted to save Mr.Kankudti and they kept back Mr.S.H. Divate and prevailed upon him not to adduce any evidence.In the result,the papers were submitted by the Chief officer to the General Body for disposal with his report. The General Body considered this question without going into the details as they wanted to white-wash it. In this meeting one member Rao Saheb B.P.Tambad proposed an amendment to form a sub-committee and make enquiries in this allegation but the President over ruled it out order saying that it needs no further enquiry.The Sanitary Inspector was then reinstated by the General Body.

Sir, In the meanwhile, the President and some members forced me to give a statement confessing that I am a drunkard threatneing me that If I do not acceede to their suggestion, I would be dismissed. I have given a statement conferring the above. Inspite of this, I was remover from my service. The statement is made under threat and not voluntary. So Sir, I request you will please institute an enquiry and redress the worng done to me. I also request you will please sanction me the grautity as allowed by the rules.

Thanking you in anticipation,

I beg to remain,
Sir,
Your most obedient servant.

Hubli: 27th June 38.

Dear Dr Hardicker

Since Mr.
Cummins is coming
over to my office
himself to inspection
tomorrow. 8.30 AM
again he has called me
a Saturday to discuss
a many matters

yours very much I shall
not be able to see you
till the 9th — i.e. 16th =.
I hope to see you the
following on 16th morning
but not before then so
long

yours
D. Hilbert

No. 630/38

[illegible], Hubli,

13th July, 1938.

Dear Sardarsaheb,

Your letter of 9th July'38. Thanks ever so much for the kind advice you have given. I have written to the General Secretary, U.P.C.C. and have requested him to send me the constitution, programme, etc., drafted by the U.P.C.C.

There is a team of honest and self-sacrificing workers here. But they are all poor people without any influence. They will work day and night sincerely. So far, it has been difficult for them to penetrate the influence of Sir Siddappa Kambli and Sardar Mahaboob Alli Khan both of whom wield power and are yet holding their official [illegible] to draw in moneyed classes is also difficult. Because, being moral cowards they have remained loyal for a number of years to the existing authorities. As they are not yet sure of the Congress remaining in power for a long time, they do not like to side with us. So, it is difficult for this team of self-sacrificing workers to get the desired results. I know that the only way left for us is to go on working and we are doing it to the best of our ability.

If a sufficient number of true Congressmen who are in the field for a number of months or years is not available then we will have to take those who will sign our pledge after becoming Congress members. But the experience of many committees in Karnatak is very bad. Many of the new-comers have deceived with the ultimate result that demoralisation has crept in our organization. Many of those who were loyalists yesterday are expressing

their

their desire to sign our pledge and join our Party to-day. Should we take a chance and accept some of them, if absolutely necessary, after seeing that they fulfil all our conditions? It is indeed a dangerous game. Should we play it ? I want your advice particularly on this point.

You did not say anything about your coming to this side. Will you please think about it and let me know ? Your presence here sometime in September or in the beginning of October is sure to electrify the electorate. At the nick of time it is sure to change the scales.

Your brother,

JNehru

Sardar Vallabhbhai Patel,
Purushottam Building,
Opposite Opera House,
Bombay 4.

Copy of letter dated 9th July/38 from Sardar Vallabhbhai Patel to Dr. N.S. Hardiker.

I have received your letter of the 1st July. I am glad to hear that you have decided to shoulder the burden of improving the administration of Hubli Municipality. If you can find a team of good honest and self-sacrificing band of workers it would not be difficult for you to destroy the influence of Sir Siddappa Kambli or Sir Abdul Ali Khan. I would advise you to draw up a programme of the work to be done in the Municipality and draw up a pledge and a constitution, which pledge could be signed by all who desire to join the Congress party and spend for the election. The programme should be placed before the electorate. If you can assure the electorate of your bona fides and sincerity, you can easily beat all other groups and get a majority in local boards. But it is very difficult to keep those who are in the party straight after they get into Municipality It will give you a moral experience and may change your whole outlook of public-life, if you undertake this job, I am sure, it is worth it. The first qualification of a leader is to improve his own town or city before he allows his ambition to spread a wider net. If you want a copy of the constitution programme and pledge you can write to the General Secretary, Gujarat Provincial Congress Committee.

Copy 48

Hubli, 10th August 1938.

On the 31st of the last month,, the Government sent the following order to the Hubli Municipality:-

"With reference to enquiry into the complaints against the two Councillors viz, the President and the Chairman of the Hubli Municipal Borough, I have the honour to state that I have just received from the Commissioner, S. D., the order

"2. I am directed to inform you that the Government are of opinion that the conduct of the President and the Chairman amounts to serious misconduct, and that this fact should be brought to the notice of the Municipality for taking action under Section 27 of the Bombay Municipal Borough Act. Further I have been ordered to comply with the direction of the Government immediately."

"The President is therefore requested to comply with the directions of the Government immediately by convening a meeting, and to communicate to me the decision within 10 days from the receipt of this letter.

Sd. D. S. Modak,
Collector, Dharwar.

As per this letter the General Body of the Hubli Municipal Borough met on the 8th at 5 P. M. and after sitting for 3 hours it voted against the following resolution tabled by Rao Saheb B. P. Tambad:

" As the Government is of opinion after enquiry that the conduct of the two Councillors amounts to serious misconduct and as the explanation given by the two Councillors on the various points referred to in the Collector's letters is not satisfactory nor acceptible and also as the Board did not find any reason to differ from the Government's decision, the meeting recommends to the Government to remove the two Councillors namely Sardar Mahaboob Ali Khan Savanur and Rao Saheb Dr. S. P. Kumbhakonum, under Section 27 of the Bombay Municipal Boroughs Act."

Thus the Government order was not only flouted but the

Government was made to look small in the eyes of the Public by those who are greedy of Municipal Power in this town. These people have gone further and have questioned the Government authority itself. The most insulting tone that was employed by the President of the Municipality Sardar Mahaboob Ali Khan who had the moral courage to preside ~~th~~ over the meeting of the Special General Body of the Hubli Municipal Borough, though his own conduct was in question, is astounding. A glance at the proceedings of the meeting, a copy of which is appended herewith will reveal the truth of the statement that I am making. I would like you very much to go through the proceedings and form your own opinion about the whole case. I am sending also a copy of the resolution that was adopted by the Hubli Public on the 8th night which will speak for itself.

Will you kindly move the Government in this matter and help us in improving the City ? A line in return from you will encourage me.

Your Brother,
M.S. Handikar

Dharwar
2nd August 1938.

Dear Sir,

Orders have been already issued to the President, Hubli Municipality. The Collector has asked me to request you to see him in the Bungalow this evening or tomorrow morning at the latest.

Yours Sincerely
D. K. Kaulpure
Deputy Chitnis to Collector, Dharwar

Dr. N. S. Hardikar,
~~Ta~~ Taluka Congress Committee Hubli

No. 683/38

Hubli, 8th August 1938.

From

Dr. N. S. Hardikar,
Hubli.

To

Sardar Mahaboob Ali Khan Savanur,
Hubli.

Dear Brother,

I am reliably informed that you have sent representations to high Government Officers that I am criticising your administration because I happen to be Mohammedan and that a Hindu lodged a complaint against you because the Hindu community cannot tolerate a Mohammedan to be the President of a premier Municipality such as that of Hubli in Karnatak. These allegations are baseless and unfounded.

I have been exposing the grave errors in the administration of the Municipal Borough of Hubli with the object of effecting improvements in it. The complainant who accused you has also accused a prominent Hindu along with you. This fact proves beyond doubt that this action was not prompted by ill-will towards Mohammedans. You are communicating those " precious " views of yours to your co-religionists and thereby creating prejudice against me and my colleagues in the Congress organization.

Your action is endangering public peace. You are promoting ill-will and hatred among the sister communities of Hindus and Mohammedans. The saner sections of both the communities may properly assess your actions and understand the motive behind them. But your irresponsible statements are sure to instigate communalists to take the law into their own hands. Such

statements of yours are undermining the good-will that exists between the two communities in the City. If you continue to make such ~~statements~~ attempts and thereby try to stir up class-hatred, I shall have to move the authorities to take action against you for causing disturbance of peace and tranquility in the City of Hubli.

Your rother,

Copies forwarded to.

1. The Collector and District Magistrate, [illegible]
2. The Hon. Mr. L. Patil, Minister for [illegible] Govt. Poona.
3. The Hon. Minister for [illegible] Poona.
4. The Hon. Mr. Morarji Desai, Minister for Revenue. Poona.

10-8-1938

From

The President

Hubli Municipal Borough,

To

The Collector,

Dharwar.

Hubli Municipal Borough

Enquiry into the complaint against the President and Chairman of the Sanitary Committee of the

Sir,

With reference to your letter No. Mun. H. 1822 of 8-8-1938 I have the honour to forward herewith triplicate copies of the proceedings of the special general meeting held on 8-8-1938 for information.

The letter is sent by special messenger to avoid any delay in the matter as to-day is a holiday.

I acknowledge the receipt of the registers, books and documents mentioned in list of your letter No. Mun. H. 1822 of 3rd August sent per our head clerk, which after being received in the office are kept under seal in treasury.

A special meeting to form a sub-committee as per resolution will be called at an early date.

In the proposition moved by R.S.Tambad it is stated that some explanation was given by myself and Mr.Kumbhakonum on the various points referred to in the Collector's letter and it is further stated that the explanation is not satisfactory and acceptable. This statement of fact is not correct. There were only some casual questions and casual answers. The meeting was not called to tender our explanation. Even in the answers which we gave to the casual questions we did complain that proper enquiry was not made and that proper opportunity was not given to us. This fact is mentioned in the amendment moved

In order to avoid misunderstanding regard the allegations in the proposition I have to bring this fact to your kind notice.

The Municipality feels doubt as regards the pertinent section under which the Municipality has to proceed as regards the President. You are therefore requested to obtain the opinion of the Remembrancer for Legal Affairs at an early date. The necessary fees if any will be paid by the Municipality.

I have etc.

Sd. [illegible].
President
[illegible] Municipal Borough.

Age

Residence. Hubli

I state on solemn affirmation

I submitted a petition to the Government on the 8th instant complaining of the conduct and action of certain Councillors of the Hubli Municipal Borough.

I complained to the Government on the information I got and which I believed to be true.

It is not possible for me to produce all the evidence in support of the allegations made in my petition as the Municipal records, though public documents, are not open to inspection. Still I produce evidence enough to make out a prima facie case. I have only prayed for an investigation by a competent courageous and honest and highly paid Police Officer.

My main charge is against two Councillors: (1) Mr.M.A.Savanur, popularly known as Sirdar Mahaboob Ali Khan. (2) Rao Saheb Dr.S.P.Kumbakonam. These two Councillors utilised the services of men who were paid for by the Municipality The coolies and peons received their wages and salaries from the Municipality and instead of serving the Municipality they served the two Councillors whose names I have just mentioned.

There is direct and conclusive evidence to show that these two councillors made the Municipality to pay the coolies and sepoys and got their services without paying for them.

I will just briefly disclose the evidence:

I have got in support of my statement made in the petition submitted to Government. The Municipality maintains a gang of about twenty coolies under a peon. In 1937 the peon who distributed the work to the coolies of this gang

and who supervised their work was one The coolies in this gang are meant to be sent to those parts where there is need for them. Besides this gang there are sweepers and gutter-cleaners appointed for different areas and their work is supervised by various municipal peons. There are emergency workers or coolies in waiting.

There are two small note books in which the peon-supervisor over this gang notes day after day the work given to and done by the coolies in the gang under him. The extracts from this note book I now produce. The original note book is written by the peon-supervisor in Kannadam and the Sanitary Inspectors have certified as to the correctness of the entries by signing them from time to time. The Sanitary Inspectors who have so signed are:

I learn from reliable information that the coolies in the gang are paid by the Municipality. An Officer order has been issued by the President not to show any record to anybody without his express order. So I cannot get an opportunity of verifying the information obtained by me by looking into the account books or pay sheets. I trust that these coolies and peons are paid by the Municipality and the payments so made are debited in the Account Books and are mentioned in the pay sheets. This is quite enough to prove that these two councillors have caused wrongful gain to themselves and wrongful loss to the Municipality. They have defrauded the Municipality.

The details given in my petition to the Government are taken from the note book mentioned above. The translation of relevant extracts I now produce.

From the extract it is evident that three coolies laboured in the field of Dr. Kumbakonam from 10-1-37 to to 10-2-37 and then again two coolies worked at the same place every day from

place every day from 11-2-37 to 26-2-37. I fail to see how this is not brought to the notice of theauthorities concerned by the Sanitary Inspectors. Why should they have allowed these coolies to be paid by the Municipality? The details of the work done by the coolies at the residence of Dr.Kumbakonam are given in my petition.

The President M.A.Savanur is a greater sinner. Besides the services of one peon whose services he is entitled to utilise as the President, he gets the services of two other peons for years together. One cooks in his house. His name is He goes to the Municipality on the pay day only. But in Municipal records he is shown as being posted at Cloth market (Javali peth). The area allotted to him to supervise is very small. He never goes there. This area is supervised by the peons who are posted to supervise the adjoiningparts. The object of giving so small an area to this particular peon is quite clear. It is because the peons of adjoining areas could easily supervise the work done in this small area allotted to the peon working at the residence of the President.

There is another man by name who tends the cattle of the President for months together and receives his pay from the Municipality. In the month of March 1937 the President celebrated the marriage of a near relative of his at his residence at Hubli. I have given the number of coolies and the dates on which they worked at his residence. The details are taken from the Note Books mentioned aboveand the contents of which I have supplied.

I produce six photographs. In photograph No.1 Basya Hanamappa Madar, one of thegang mentioned above is seen tending the cow of Dr.Kumbakonam. In photograph No.2 the same man is seen with the cow and buffalow of Dr.Kumbakonam. In photograph No.3 are two she buffaloes of Dr.Mundagannoor with two boys watching them and a calf of President's she buffalo looked after by Nanya, Gutterman ofward No.6. In No.4 Nanya Mariya is watching the she-buffalo and

and the calf. In No.5 Basya Hanmappa Madar is seen with the buffalo of the President. The other fellow is a milkman. In No.6 there are two calves; one is of Dr.Mundaganoor with two boys watching it and another calf with white spot on the forehead is of the President and the man standing near it Nanya Mariyappa, Gutterman of Ward VI.

I have made out a case for investigation. Delay is likely to result in the leakage of this enquiry. If it so leaks out and reaches the ears of those concerned, the whole object will be frustrated. The prosecution will lose valuable evidence of an unimpeachable character.

Extract from a Note Book in the handwriting of Municipal Peon Hajrasab Hasansab Mantoji.

To

The District Magistrate,
Dharwar District,
D H A R W A R.

Sir,

I, Namdewa Ramkrishna Malawade resident of Hubli beg to apply as under : =

In pursuance to my application to the Government of Bombay, an inquiry is being made and investigation carried on by your honour. I pray that the following persons should be examined by your honour.

1. Pradhani Shivappa,
2. Ningappa Anjanappa
3. Rewnayya Siddappa
4. Kudda Hanmya
5. Hanmya Muddappanawa

My information is that members of the gang of 20 (Twenty).

7. Hajratsah Hasansab Pantoji
8. Ibrahim

These persons along with others were warned not to speak the truth, not to say that they had gone to serve the Municipal Councillors. They were threatened with dismissal. So, they may be given assurance that they will not be harmed if they tell the truth.

I beg to remain,
Sir,
Your most obedient servant.

Hubli.
12th May 1938.

Hubli Town has a population of about 83,---

The City is divided into 11 Sanitary Wards and there are 3 Sanitary Inspectors with one peon to each of them.

Bhangis: There are 59 male and 32 female Bhangis.

Sweepers: Part time sweepers 150

Whole time " 34

Special Gang 20

Latrines: There are 2000 latrines and the total number of seats is 3000 for the whole City.

Total length of the streets in the City is 21 miles.

Human excreta remaining in the town per day is 10,000 Lbs., i.e. 50 cartload.

There are two motors for removing town waste one old and the other new; one new motor has been supplied for removing human excreta. The President, inspite of the protests from the Health Officer, is insisting upon arranging a pit reservoir for human excreta in Gowli Galli which is in the heart of the town and near the Robertson Market.

Drainage: Although the city possesses a good natural flow, almost all the guttars being kutchha without due slope and without timely repairs are causing numerous accumulations.

There are only 60 Guttar cleaners for the whole City.

Market Place : Robertson Market: This market is overgrown and on Bazar Days the thoroughfares are blocked causing inconvenience to the General Public and the Traffic. The vegetables are washed with unclean water. Not attempt is made in the matter of removing encroachments.

Beef and Mutton Market: Are very unclean and small. Mutton is sold in unclean houses in the City where control and -- inspection is very difficult.

Malaria: No routine measures of destroying mosquitoes are

adopted by the Municipality.

Vital statistics: This is most neglected.

Chloronome: The President is showing his unwillingness even to use perclonomer powder.

H. O.'s letter to the Preside nt
24-11-37.

Town Improvement scheme: Should be mapped out showing residential areas, area for upper classes, shops and market area and area for industrial and for the poorer classes The scheme pretended to have been prepared by the Municipality is not regular and not sanctioned. It is only supported by a G. B. Resolution. It will be illegal if these aquisitions are not made within one year of the resolution (above 1000/- Then a fresh resolution is essential.

H.O's letter 23-3-38 to President.
" " 21-3-38.

kx

o slums whatsoever have been removed to date ut only acquisition for the road-widening s made.

utcars are very hap-hazardly built.

Urinals are not furnished with proper cess pools and water storage. No arrangement for the removal of Urine is made.

To,

The Hon'ble Mr. K. M. Munshi,
Minister for Law and Order,
Government of Bombay,
P O O N A.

13-8-38

Sir,

I have the honour to make the following representation to you.

The President of the Hubli Municipal Borough has been making violent speeches to his co-religionists. It appears that he has written to the Hon'ble Mr. K. M. Munshi that it is likely to be breach of peace because some of the Mohammedan followers are fanatics. He exonerates himself and tries to inculpate others.

The conclusion of the Government that he is guilty of misconduct in as much as he has used the services of the Municipal servants for his private benefit naturally leads to the sack. He admits the guilt but pleads that from His Excellency the Governor down to an ordinary petty Government official all commit the same offence of using the services of menial servants for private purposes. This remonstrance was made from the Presidential Gadi of Hubli Municipality and is duly reported in the Press.

He appeals to the religious sentiments and feelings of Mohammedans and implores them to protect him from this Government which is "a magnified Congress Committee". I learn that the reports of these fulminations of this rank communalist have been sent to the Government by a private agency. I suppose the Government are in possession of the Official Report of these reckless utterances. Mr. V. M. Savanur is sowing the seeds of ill-will and of hatred and setting one community against another. He openly admitted two days back at a meeting of Mohammedans held in the Market place

that by setting one community against another he and the Mohammedans succeeded.

I do not desire to dilate upon other parts of his speech. I only pray that you will be pleased to ask the Police to faithfully report his speeches and ask the District Magistrate to read them carefully and forward to you directly his opinion on the contents of these reports if you think fit and more or you may take action against him. In the interest of justice, equity, amity between the two communities and of public tranquility, I pray that you will accede to this modest request.

I have the honour to be,

Sir,

Your most obedient servant,

Office of the Hon. Sec. Congress Committee, Bombay, & G.I.P. Railway Employees' Union Committee, Bombay.

Copy forwarded with compliments to the Hon'ble R. B. Mehta, Minister for Local Self Government, Government of Bombay, Poona.

13-8-38

From:

Dr. N. S. Hardikar,

Chairman,

Congress Parliamentary Board, HUBLI.

To

The Hon. Mr. L. M. Patil,

Minister for Local-Self Government,

BOMBAY.

Sir,

By this time, you must have received a complete report of the proceedings of the Special General Meeting of the Hubli Municipal Borough convened for the purpose of considering the question of the removal of two councillors under Sec. 27 of the Bombay Municipal Borough's Act, 1925 for serious misconduct. This is to acquaint you with what struck me most or rather what strikes every civilized citizen most. The meeting was a travesty of all salutary traditions, disregard of all notions of etiquette and gentlemanly behaviour and flouting of public opinion and contemptuous treatment of all legal provisions and legally constituted authorities. In a word, the proceedings of the meeting were such as every citizen should be ashamed of. In this letter I confine myself to those points in particular.

1. It is a fundamental principle of law that the judge and the accuser should not be the same person. This was set at nought by the President of the Hubli Municipal Borough. The Government, on enquiry, had found him guilty of serious misconduct of utilizing the services of the Municipal employees for his private purpose. The Municipality was to consider the question of his removal on the ground of this misconduct of his. If not with due deference to the fundamental principles of law, the salutary traditions observed in meetings and the dictates of conscience, at least as a gentleman to all outward appearance, the President ought not to have presided on the occasion. But the Hubli Municipal president not only did preside, but exercised every possible arbitrary, capricious and arrogated authority on the occasion. He over-ruled points of order, admitted most unprecedented kinds of amendment, most officiously interfered with

the speeches, tried to snub the speakers in a most ungentlemanly manner and banned admission to the public in the meeting hall. A point of order was specifically raised as to whether the President could preside on the occasion in view of his own conduct being the subject under consideration; but the oresident overruled it. The Bombay Mayor's instance of his having vacated the chair on the occasion of the consideration of a question in which he was alleged to be connected was pointed out, but most strangely the president distinguished it on a funny ground that it was a case of contract and the present case was one of conduct. In a word the president acted in such a way as to impress the most impartial audience that he was a veritable dictator. To a person who is familiar with inner working of the Municipality, who knows that the Municipality is a purely member ridden body; all this is nothing. To him, these proceedings strike a most ludicrous and absurd spectacle.

2. To the charges against him, the president, from his respective chair, defended himself in a rambling, irrelevent and sarcastical way. From the manner of his defence, the President seems to have of rather acted as the Municipal Commissioner that since no officers do a certain act, it is no offence; no one needs be ashamed of it and no body need raise his little finger in protest against it. To him, it is a thing done in the most ordinary course of business. The president was devilishly bold in trying to impress the councillors that he was guilty, if at all alone with no less personalities than their Excellencies the Governors, the Hon. Ministers, the Commissioners, the Collectors down to the village officials. As an instance, one sentence may be quoted. "The President said "Who can say, that even the collector who has sent the letters, is free from such conduct". The majority party to which the President belongs easily swallowed the file and the president came off with flying colours. I need not stop here to describe the foolhardiness of the president or the incompetency of the majority of councillors. I only bring to your notice, that grave charges were levelled against all officials howsoever high or low with as much light heartedness as a mad man or drunkard alone is capable of.

3. The way in which the President flouted the authority of the Government and Government officials was simply striking with hatred. It was a regular challenge to them under the mask of legal quibbles, and the explanation there of the president waxed eloquent in questioning the authority of the Collector, the Commissioner and the Government. The whole farce was premeditated and prepared. The enquiry officer viz. Mr. Dias, I.C.S. and his enquiry proceedings were very contemptuously and summarily ~~were~~ disposed of in his explanation. The whole of the so-called amendment is merely critical of the Collectors letters and this gave the president an ample opportunity to give vents to his feelin s of contempt and hatred of the officials.

[illegible] all these facts into consideration, the only way our to save 85 thousand souls from the clutches of the present municipal administration is supersession.

I, therefore request you to kindly [illegible] in this direction.

Yours truly

PUBLIC.
12-8-1933.

Chairman.

Hubli
13th August 1938

From

Dr.N.S.Hardiker,

Chairman, Congress Parliamentary Board,

H u b l i.

To

The Hon.Mr.L.M.Patil,

Minister for Local Self Government,

B O M B A Y

Sir,

this time, you must have received a complete report of the proceedings of the Special General Meeting of the Hubli Municipal Borough convened for the purpose of considering the question of the removal of two councillors under Sec. 57 of the Bombay Municipal Boroughs Act, 1925, for serious misconduct. This is to acquaint you with what struck me most or rather what strikes every civilized citizen most. The meeting was a travesty of all salutary traditions, disregard of all notions of etiquette and gentlemanly behaviour and flouting of public opinion and contemptuous treatment of all legal provisions and legally constituted authorities. In a word, the proceedings in the meeting were/as such every citizen should be ashamed of. In this letter I confine myself to three points in particular.

1. It is a fundamental principle of law that the judge and the accused should not be the same person. This was set at naught by the President of the Hubli Municipal Borough. The Government, on enquiry, had found him guilty of serious misconduct of utilising the services of the Municipal employees for his private purpose. The Municipality was to consider the question of his removal on the ground of this misconduct of his. If not with due deference to the fundamental principles of law, the salutary traditions observed in meetings and the dictates of conscience, at least as a gentleman to all outward appearance, the President ought not to have presided on the occasion. But the Hubli Municipal President not only did preside, but exercised

every possible arbitrary, capricious and arrogated authorit on the occasion. He overruled points of order, admitted a most unprecedented form of amendment, most officiously interfered with the speeches, tried to snub the speakers in a most ungentlemanly manner and refused admission to the public to the meeting hall. A point of order was specifically raised as to whether the President could preside on the occasion in view of his own conduct being the subject under consideration, but the President overruled it. The Bombay Mayor's instance of his having vacated the chair on the occasion of the consideration of a question in which he was alleged to be connected was pointed out, but most strangely the President dismisse it on a funny ground that it was a case of contract and the present one was one ofmisconduct. In a word the President acted as a veritable Dictator. To a person who is familiar with the inner working of the Municipality, all this is common. To laymen, these proceedings struck as most ludicrous and to a lawyer as null and void.

As to the charges against him, the President, from his presidential chair, defended himself in a rambling, irrelevent and shameful way. From the manner of his defence the President seemed to argue that since so many Officers do a certain act, it is no-offence; no body needs be ashamed of it and no body needs raise his little finger in protest against it. To him it is a thing done in the most ordinary course of business. The President was boldly in trying to impress the Councillors that he was guilty, if at all along with no less personalities than Their Excellencies the Governors, the Hon.Ministers, the Commissioners, the Collectors down to the village officials. As an instance, one sentence may be quoted. The President said "Who can say that even the Collector who has sent these letters, is free from such conduct".

The majority party to which the President belongs easily swallowed the President's defence and he came out with flying colours. I need not stop here to describe the foolhardiness of the President or the incompetency of the majority of the Councillors. I only bring to your notice that the President in his anxiety to save himself levelled grave charges against all officials, howsoever high or low, with the intention of bringing the Congress administration into contempt.

3. Taking shelter under Sec.21 the President has flouted the authority of the Government for having exposed his maladministration. It was quite obvious that the whole farce was premeditated and arranged. The enquiry proceedings were very contemptuously and summarily disposed of in his explanation. The whole of the so-called amendment is merely critical of the Collector's letter and this gave the President an ample opportunity to give vent to his feelings of contempt for the opinion expressed by the Government in its communication.

Taking all these facts into consideration the only way to purge the Municipality of its maladministration is supersession as desired by the citizens of Hubli.

I, therefore, on behalf of the Hubli citizens request you to take early measures in that direction.

Yours truly,

Chairman,
Congress Parliamentary Board
Hubli.

Hubli

H u b l i.

To

The Hon.Mr.S....Patil,

Minister for Local Self Government,

B o M B A Y

Sir,

By this time, you must have received [illegible] report of the proceedings of the [illegible] of the Hubli Municipal Borough convened for the purpose of considering the question of the removal [illegible] 325, for serious misconduct, [illegible] that strictly most or rather [illegible] gentleman must [illegible] traditions, observed in all other [illegible] only such violent [illegible] serious breaches of the [illegible] authorities. In a word, the proceedings in a meeting such as every citizen should be ashamed of. In this letter I confine myself to three points in particular.

1. It is a fundamental principle of law that the judge and the accused should not be the same person. This was set at naught by the President of the Hubli Municipal Borough. The Government, on enquiry, had found him guilty of serious misconduct of utilising the services of the municipal employees for his private purpose. The Municipality was to consider the question of his removal on the ground of this misconduct of his. If not with due deference to the fundamental principles of law, the salutary traditions observed in meetings and the dictates of conscience, at least as a gentleman to all outward appearance, the President ought not to have presided on the occasion. But the Hubli Municipal President not only did preside, but exercised

every possible arbitrary, capricious and arrogated authorit on the occasion. He overruled points of order, admitted a most unprecedented form of amendment, most officiously interfered with the speeches, tried to snub the speakers in a most ungentlemanly manner and refused admission to the public to the meeting hall. A point of order was specifically raised as to whether the President could preside on the occasion in view of his own conduct being the subject under consideration, but the President overruled it. The Bombay Mayor's instance of his having vacated the chair on the occasion of the consider io of a quest ip in which he was alleged to be connected was pointed out, but most strangely the President dismissed it on a funny ground that it was a case of contract and the present one was one of misconduct. In a word the President acted as a veritable Dictator. To a person ho is familiar with the inner working of t e Municipality, all this is common. To laymen, these proceedings struck as most ludicrous and to a lawyer as null and void.

2. To the charges against hi , the President, from his presidential chair, defended himself in a rambli g, irrelevent and shameful way. From the manner of his defenc the President seemed to argue that since so many Officers do certain act, it is no offence; no b dy needs be ashamed of it and nobody needs raise his little finger in protest against it. To him it is a thing done in the most ordinary course of business. The President was boldly in trying to impress the Councillors that he was guilty, if at all along with no less personalities than Their Excellencies the Governors, the Hon.Ministers, the Commissioners, the Collectors down to the village officials. As an instance, one sentence may be quoted. The President said "Who can say that even the Collector, who has sent these letters, is free from such conduct".

The majority party to which the President belongs easily swallowed the President's defence and he came out with flying colours. I need not stop here to describe the foolhardiness of the President or the incompetency of the majority of the Councillors. I only bring to your notice that the President in his anxiety to save himself levelled grave charges against all officials, however high or low, with the intention of bringing the Congress administration to contempt.

3. Taking shelter under Sec.21 the President has flouted the authority of the Government for having exposed his maladministration. It was quite obvious that the whole [illegible] proceedings were very cooly, calmly and dispassionately disposed of in his explanation. The whole of the so-called amendment is merely critical of the Collector's letters and this gave the President an ample opportunity to give vent to his feelings of contempt for the opinion expressed by the Government in its communication.

Taking all these facts into consideration the only way to purge the Municipality of its maladministration is supersession as desired by the citizens of Hubli.

I, therefore, on behalf of the Hubli citizens request you to take early measures in that direction.

Yours truly,

Chairman,
Congress Parliamentary Board
Hubli.

Sardar Manaboob Ali Khan Savanur, M.L.A. President, Hubli Municipal Borough, addressing a Muslim meeting at Hubli in the Fruit market on the nightof the 10th inst. said

" I have been a citizen of Hubli since 1903. I claim that it is myself who first sowed the seed of Swaraj in Hubli. That made me incur the displeasure of my co-religionists. Consequently they began to hate me. Without minding this unjust criticism of my co-religionists I founded the Anjuman at Hubli in 1903.

This Municipal membership was not sought by me. In 1920 the Govt. by nominating me thrust it upon me. There were two parties in this Municipal Council, the Brahmin and the Non-Brahmin. From 1920 to 1935 I had been a member of the Non-Brahmin party in this Municipal Council and I helped that party in various ways not only in this Municipal Council, butalso in the Bombay Legislature. But in 1935 the Non-Brahmin party at the time of the elections began to dislike me of its own accord.

The Govt. has levelled against me certain charges. They are not of my own making. These mistakes are committed by those whom I appointed from among the Non-Brahmin party. When Mr.Coen was President of this Municipality, he was taking out with him for hunting 10 to 15 servants of the Municipality and paying them wages from the Municipal treasury. Were the Hubli citizens mouths sealed then?

The Municipal subordinate servants conspired against me and gave room for these charges to be brought against me.

The Congressmen by convening meeting after meeting carry on a vendetta against me. They shout out that they would get this Municipality suspended. We are a united lot (10) in the Municipality, while the Hindus have no unity. I have not committed such a crime as to necessitate suspension of the Municipality. If only more than half the No. of members resign, the Municipalit can be suspended."

After thanking the members of the M.B. who supported him in the last general body meeting, he concluded his oration.

English translation of the resolutions in Kannarese passed by the representatives of the 48 local institutions who met in a Conference on the 14th August 1938, at Hubli.

" The administration of the Hubli Municipality having been subjected for a long time by its administrators to an extremely unjust, arbitrary and misguided policy has become rotten to the core. The Municipality received a communication from the Government of Bombay directing it to consider the removal of the two councillors namely the President Khan Bahadur Ali Asgar Nawaz and the Chairman of the Sanitary Committee and Municipal Councillor Rao Saheb Dr. [illegible] for their conduct at present. But the Municipality in its special meeting held on 4-8-38 adopted a policy by which it dared and defied the Government option. The representatives of the various local institutions have met and considered on the 14th August 1938 to consider the matter arising out of the above result and to condemn the maladministration of the Hubli Municipality, adopt the following resolution:

' As the Municipality is entrusted to administer the affairs of the people and not to indulge in corruption which is carried on arbitrarily on the present occasion by the councillors' majority without the least regard to the democratic principles of Public Service. This Conference therefore, earnestly prays the Government of Bombay to kindly take immediate steps for the suspension of the Hubli Municipality setting aside the tri-annual elections due to come off in October next. "

(Resolution No.2

"The Conference of the representatives authorises Dr.[illegible]Hardikar to carry on the work of securing suspension of the Municipality and to send the resolution passed in the Conference to the Government of Bombay".

Proposed by Mr.Siddappa Kunnalappa Supare
Seconded by Mr.G.B.Bhimapur.

List of local organizations which were represented at the Conference held on 14-8-38 under the presidency of Dr.N.S. Hardikar.

Copy of the letter addressed by Mr. Vyas to the Hon. Minister

89.

To

26-8-38

The Hon'ble Mr. L. M. Patil,
Minister for Local Self Government,
Poona.

Respected Sir,

A deputation consisting of 15 people from Hubli will wait upon you at 2 p. m. tomorrow, and impress the Government to supersede the Hubli Municipality for its mis-use of powers.

None of the 15 persons belong to influential class of people here, some of them have come there out of grudge toward present majority party. Some of them are the friends of Hardikar I may be permitted to mention here some of the facts relating to some of the members of the Deputation.

Mr. R. L. Amte has been a councillor since 1935. He tried his best by joining the majority party to force the Municipality to take up Electricity at his enhanced rates. When the Majority party did not yield, he joined the minority. He bears a special grudge against majority party.

Dr. C. J. Prabhakar was a nominated member in 1935. After about 6 months time, he left Hubli for Afghanistan where he remained for 2 years and returned to Hubli a month back. As Councillor he firstly ~~joined~~ belonged to the majority party and when he was refused the Chairmanship of the Sanitary Board, he joined minority party. Thus he is one of the discontented peopl in Hubli.

Mr. Bijjur is a young pleader of about 3 years standing and briefless one. He is a nominated member since he belongs to Kurab community. Since he isx the Chairman of the Standing Committee of Hubli Municipality. He has suddenly changed and joined the minority party very recently. During his Chairmanship of his 3 years, he has never complained against his own administration. There is a criminal case against him at present in the First Class Magistrate Counrt in Hubli as having been charged with tampering with Municipal documents. This is the reason why he has joined the minority party.

Mr. Katkar is a young briefless pleader of about a year or so standing. There is criminal case against him in th First Class Shiggao. His brother has been discharged from

Municipal service about 2 years back as per Commissioner's order. Thus he bears grudge against present majority party.

Mr. Mantagani is a retired primary teacher, tried to get himself nominated to the primary School Board through the Majority party but failed.. Hence he is discontented person.

Mr. Hublikar, was prosecuted by the Muncipality for refusing to construct Ufinals in his Cinema Theatre. Later the Collector compelled to him to construct the Urinals. Hence, the grudge against the majority party.

Mr. Bhusnawar young Ligayat pleader of no experience. Recently he has joined the Congress after the advent of Congress Ministry. Just to gain his aims. As a Lingayat he was a staunc follower of Sir S. . Kambli. Abdul Kareem is a petty shoe merchant. He is in deputation because they wanted some Mohammedans. No body knows him, in his own community, as he is a person of no status.

Messrs. Kempannawar, Gadesur, and Bagalkot are of unimportant personages, having no status in their own co munity.

From the above facts it will be seen none of the leading citizens such as merchants, pleaders and doctors are to be seen, in the list of persons that have come there to see your Honour.

I beg to remain,
Sir,
Your most obedient servant,

D./- 26-8-1938.)
)
)

(3)

1. Mr.Amte: Is Simpi by caste and manager of the Hubli Electric Co.,Ltd. He seems to be under the wrong impression that it was I who is in the way of the Municipality not taking electric lights for street lighting, the real cause being known to one and all that the rates he quoted are exorbitant and impracticable. This fact is known to Govt. also. He thinks that if the Municipality is superseded and Government nominees take over the administration it will be possible for him to achieve his object of making money by giving lights to the Municipality at exorbitant rates through the influence of Dr.Hardikar etc. I may mention here that it would have been sheer waste of people's money had I agreed to take lights for streets at the rates quoted by Mr.Amte. I have approached Government for sanctioning loan for starting electric installation of the Municipality which will supply very cheaply rates to the public also in course of a few years. So Mr.Amte is for supersession of the Municipality.

2. Mr.Bijjur Pleader Is Gurbar by caste. He was recommended by for Government nomination as belonging to a backward community and was made Chairman of the Standing Committee and he is still the Chairman. He cannot say anything now in support of the demand for supersession of the Municipality If he had found anything wrong with the municipality during his time, he should not have kept quiet but reported the facts to the Collector or Commissioner. He has not done so till now. If he had found that the administration was irregular or bad, he should at least have resigned his Chairmanship of the Standing Committee. Although a graduate of law, he is alleged to have done an illegal thing to favour his own caste man by granting him a mutton shop for Rs.50/-. I had told him this was not legal and had gone to the Bombay Legislature Assembly Sec. When I returned I learnt what he had done. The aggrieved butchers approached the Collector for redress and the shop was cancelled. Further A Criminal complaint was lodged against Mr. Bijjur alleging that he had tampered with the original application in this connection. This complaint is filed by a Corporation man and is still pending before the Magistrate. I hear that Dr. Hardikar has promised Mr.Bijjur to save him in this criminal case if he supported the supersession of the municipality.

3. Dr.Prabhakar. Is a Christian and was nominated by Govt. as member in 193 . He had made some false reports. He wanted to be Chairman of the Sanitary Committee but did not get it. He had applied for some land in road widening scheme for building a dispensary. This is not permissible by law and was refused, so he is disappointed. He went to Iran on medical service and had just returned to Hubli. If he had not proceeded to Iran resigning hismembership, he would have been dismembered for other reasons. I say without fear of contradiction that his Christian community peoplehave no confidence in this Dr.Prabhakar He is known to be a fighting spirit even with the clergy of his own caste. He should not be considered as representing the Christians of Hubli.

4. Mr.Katkar, Pleader: Is a Maratha by caste, but should not be considered as representative of the community. His caste people have no confidence in him. His brother was a teacher in the Municipal High School at Hubli. The Educational Inspector of Dharwar reported that he was unfit for thepost and was removed from service. So Mr.Katkar wants to supersede the Municipality.

5. Mr. Abdul Kareem Boot Merchant. Is a Mohammedan but has no confidence of the Muslims of Hubli. You need not give any weight to the fact of his being a director of the Urban Bank Hubli. The manager of this Bank Mr. Walwekar (Junior) and Mr. Kareem are thick friends. Rao Bahadur Walwekar Chairman of the Urban Bank has the knack of getting his own men elected as directors of the Bank not caring for the abilities or status. Mr. Kareem does deelings through the Urban Bank and is therefore at the back and call of the manager or chairman. Mr. Walwekar and Dr. Hardikar are close friends and so he has sent Mr. Kareem to form one of the deputation to pose as one of the representative of the Muslims. This person should not therefore be considered as representative of the Muslims.

6. Mr. Chittappa Bagalkoti. Is Komti by caste. This community is a small one and there is no possibility of a man of this caste coming out successful if he contests at the election. He has been out in this deputation to show that it is representative of all castes and communities. He should not be considered as the representative of his community.

7. Mr. Padesur. Is a Bogar (Jain) by caste. The population of this community is small andthere is no chance for a member of this caste to contest the election and come out successful. So he has thought fit to follow the Congress people thinking thereby that he may get a nomination as if the municipality is superseded. He should not be relied upon as representative of his community.

8. Mr. Kempannavar. Is Lingayat by caste but should not be considered as representative of the community. He had once been elected as member of the municipality in the year 1932. He did not deserve the continued support of the voters and so failed in the elections of 1935. He is a cloth merchant and tried for the reduction of tax on cloth contrary to rules. So he has made false applications to the Collector and Commissioner. Govt. ordered taxing cloth advalorem. Views of all concerned were called for and communicated to Govt. After a consideration of all this Govt. sanctiones the ad-valorem tax. He had tried to win the support of the other cloth merchants by making false representations but finding that he failed in it and being sure that he has no chance in the elections, he has come with Dr. Hardikar as they are thick friends and not as representative of the Lingayat community.

9. Mr. Bhusanavar Leader. Is a Shivasimni by caste. He is Congress member and should not be considered as representing his community. He has to follow Dr. Hardikar as he has accompanied him at his request.

10. Dr. Hardikar. Is a Congressman. He tried to interfere in the work of the Municipality and bring the congress power in its administration. He did not succeed. He is trying for the supersession of the municipality for a long time. Though he is rahmin, he should not be considered to represent that community. He is sure that he will not be successful in the lection even if he contests in it. So is bent upon getting the unicipality suspended.

11. Mrs. Umabai Kundapur. Should not be considered to be representative of ladies. She is congress party lady and is following Dr. Hardikar's advice in all matters. She has to say yes to whatever the congress people say.

12. Mr.Gurnathappa Deekappa Hubli: Though coming of rich family, has few chances of coming out successful in the elections. He is always wishing that His houses should be taxed low. He owns the Mallikarjun Cinema and Theatre. As per rules, both the theatres should have suitable latrines and privy arrangements He had not made this provision. Municipality issued notice and got the provision made after great trouble and delay. For this he thinks he has a grudge against the administration. He is a follower of Dr.Hardiker and may have been promised a nomination when the Municipality was superseded. So he has come one of the deputation.

13. Mr.Devpoor: Is the President of the Taluka Congress Committee and a goldsmith by caste. He has to fight his worst and get the Municipality superseded at any cost. He does not represent his community but is the nominee of Dr.Hardiker.

14. Mr.Fakirappa Ghodke: Belonging to a depressed class and has come at the instigation of the Congress people. He is not to be considered as representing his community.

15. Mr.Ramchandarsa Habib It is rumoured that he got the appointment of Bench Magistrate through the influence and recommendation of Dr.Hardiker. So it seems he has come to give support to Dr.Hardiker's Bay. He does not in any way represent his community.

16. Mr.[illegible]Kantgani: Is a retired school teacher. Is a Jain by caste. It is not possible for a member of his community to come out successful in election. So he wishes that the same should be superseded. Should not be considered to be a representative of his community.

I request that you will be pleased to give all the above your best and sympathetic consideration before taking any action on the representations of memorials of the deputationists, who as pointed out are nominees of Dr.Hardiker and not representatives of the citizens of Hubli and have some grudge or motive for coming for the purposes.

I beg to remain,
Sir,
Your most obedient servant,

Sd [illegible].Savanur

President, Municipal Borough,
Hubli.

STATEMENT SHOWING THE EXPENDITURE OF THE HUBLI MUNICIPALITY ON WORKS OF UTILITY SINCE 1930 TO 1938

97,128	Government loan for water works
150,000	Construction of school buildings
35,249	Boring wells
142,385	Drainage
122,396	Road widening (land acquisition)
122,213	Maintenance of roads
15,432	Purchase of new boiler
5,015	Purchase of venturi meter
18,000	Depreciation Fund
526,988	Contribution to P.E.Fund
184,722	Maintenance of High School
78,639	Laying of pipes
115,287	Fuel
82,692	Feeding charges to Municipal cattle
20,872	Construction of latrines
38,969	Maintenance of plague, cholera and other epidemics
36,053	Cost of medicines
29,391	Maintenance of lighting
3,21,431	Grand total

Explanatory Note

The above are some of the main features of the expenditure. A detailed account is given in a separate book form.

The Hon'ble Mr. L. . Patil,
Minister for Local Self-Government, Bombay.

Poona.

Respected Sir,

We, the undersigned deputationists respectfully beg to submit thefollowing for your kind consideration.

We make it clear that we are not approaching you as representatives of the present Municipal Board of Sholi either for the party in majority or party in minority; nor do we pretend to approach you as the representatives of all the ratepayers in Sholi. It would be too presumptuous to do so. We are approaching you only with a view to state certain facts and our view in connection with the present agitation carried on by two parties i.e. Dr. Pardikar on one side and the Municipal Board on the other in connectionwith the supersession or nonsupersession of the Sholi Municipality. Quiteapart from the question as to whether the present and past administration of the Municipality is good or bad, there is a large section in Sholi which anxiously observes the motives of the two parties behind this agitation, to represent that section.

We are to judge of this question from an independent and impartial view point. The Municipal elections are to take place within a month and half. The present Board say that they are very popular, that they have carried on the administration faithfully and efficiently and there is nothing wrong in their administration. The other side represents that the Municipal Board is the worst Board, most incompetent and is managing the Municipal affairs in the most inefficient way. It is represented to you Sir that mass meetings are meetings are held from time to time and resolutions are passed unanimously for superseding the Municipal. A very excited and intensive propaganda is carried on through the Local newspapers. We, for ourselves do not understand the propriety of all thesethings. If the present Board is so unpopular and inefficient as described, it is in the power of voters to drive out the members constituting the present Board by not voting

for them in the ensuing elections. There is no necessity of holding mass meetings and passing resolutions and carrying on newspaper propaganda work and approaching Government for supersession. The easiest way to do away with the present Board is in their own hands. Such being the case the question arises as to who are those that pass the resolution in the mass meetings and carry on the propaganda work. We submit that it is not the voters that are doing all these things. It is principally those that are nonvoters who are irresponsible, who have nothing at stake, who have no vested interests and who have extremely personal enemical feelings against some of the members of the present Board. This is obvious from the very fact that the are approaching the Govt. for supe session. If really the voters do not want the present Board they need not go to the Govt. for supersession nor is there any necessity for holding mass meetings passing resolutions and sending deputationists to the Govt. Instead of asking for supersession, they should on the other hand ask for immediate election, so that they mayelect competent persons to manage the affairs if they really think that the present Board is incompetent. This aspect will give a clear idea as to what this present agitation means. We therefore pray that in view of the ensuing election the Govt. should not even think of supersession. After the

the elections were first announced and the Govt. advised the voters' list to be prepared, we understand, that the present Board asked for six months' extension. At that time Dr.Pardiker and his people by holding meetings and conducting propaganda raised a hue and cry against the extension of time. Now when the elections are at hand, these very people are moving the Govt. and the Collector to post one the election and get the Municipali superseded. The Gov . may very well understand the motive behind this change of front. By now postponi & the elections all the expenditure that the rate payers incurred for the preparation of the Voters' lists will be a dead loss to the ratepayers and it is surprising to see how Dr.Pardiker who represents himself as interested in the ratepayers' welfare could suggest such a thing.

Whether the Municipal affairs are carried on properly or not, it is not within our province to express our opinion one way or the other. Much can be said on both sides. One party may say that several things should have been done and are not done. The other side may say that all things cannot be done at once, that they have been gradually doing the things in the best possible way and in the best interest of the town as the funds permit. The Govt. if it thinks that there are certain sections which are required to be explained by the Municipality, Govt. will call upon it do so and the Municipality will submit all the necessary explanations to the Govt. Whether the Govt. will be satisfied with this explanation or not, it is not for us to judge.

But from the general impressions we can say that the Municipal affairs are carried on in the ordinary and usual way or rather in the way in which Municipal affairs are carried in other Municipalities.

Brief summary of the matter contained in pages from 4 to 11 of the memorial presented to the Minister for Local Self Govt. by the anti-supersessionists.

The manifesto issued by the supersessionists does not make any specific charges on the Municipality for its maladministration but makes vague compliants that the Municipality committed faults in all matters. " We pray that the Government will not be let away by these outward appearances. The Govt. should make thorough enquiries into the matter if enquiries are necessary".

In placing the goodside of the municipal administration, the memrial on its page 4 says ' Roads are widened, slums are tried to be removed and sanitation is attended to in a fairly good way". " Fault finding is easy".

On page 5 it is said " We do not say that the Hubli municipality's administration is an ideal. But we say that there is not such an amount of the alleged mismanagement as should necessitate the Government to step in and supersede. Mr.Hardiker's party is exaggerating the real state of affairs'

"The deputationists who came to see you are not representatives of Hubli's ratepayers. They are self-elected representatives. Real representatives are those who are elected in elections. These have approached the Government because they cannot succeed in the elections.'

Further the memorial says that the deputationists taken by Mr. Hardiker are men of little standing having no status etc., in the city and gives information regarding the different members of the deputation almost in the same words as given by the Municipal President in his letter to the Minister dated 2/th Aug.38. Regarding Mr.Kempannavar the memorial on page 9 says ' When he (Mr.Kempannavar), was carrying on a chit-fund business a criminal complaint was filed against him for cheating. In the preliminary enquiry the Magistrate held that the matter was of civil nature and dismissed the complaint. Since then the chit-fund business is closed".

On page 10 the memrial says " Messrs. Raichur, Devpur, Bhusnur and Mrs. Umabai are under Mr.Hardiker's influence who has personal grudge against the President. They are not at all promi-

prominent people. Dr. Hardiker's grievance, before the Congress Government came into power, is that the present President, who was also the President then, has troubled him (Dr.Hardiker) in several ways because he xx (Dr.Hardiker) was a Congressman. There are several matters of differences between these two, so much so, that each regards the other as his bitterest foe. Dr.Hardiker, we should think, is sacrificing many of the Congress principles to gratify his feelings of revenge against the present President. The abovesaid Mr. Nijjur's incident is only a modest incident.

The meorial at the end again requests the minister not to xx supersede the Municipality as the elections are nearing in which the people may choose their own representatives to carry on the municipal administration.

~~94~~ 102

Copy of letter No. 3177 of 23-8-38, from the Assistant Director of Public Health, S. R. D., Belgaum.

Subject: Sanitation of Hubli Town

With reference to your letter No. Mun. H. 1922 of 15th August 1938, I have the honour to state that I visited Hubli town yesterday morning and went round the town with the Health Officer and Sanitary Inspector. There has not been much improvement in the Sanitary condition of Hubli since this Office report No. 3870 of 11th October 1935. I am noting below the chief Sanitary defects briefly:-

Water supply: This is not only adequate but also not pure enough to be drunk without boiling or chlorinating. It is only very recently that the water supply is being sent to the Public Health Laboratory for an alalysis.

Sanitary Staff: - Having been supervised by lay people for so many years, they are not only deficient in knowledge but are also incapable of noting even ordinary nuisances and remedying them. On questioning the Chief Sanitary Inspector, it was ascertained that no reports were made or action taken by himself unless somebody sent in a complaint. A case in point was a most insanitary latrine and house-extention noticed yesterday in Sofi Mohalla, of which no notice was taken. On questioning the Health Officer, it was found that it was not want of sufficient staff but slip-shodd methods which the staff had been adopting for years that was responsible for many of the Sanitary defects.

Disposal of night soil:- Only a very small proportion of the night soil of the city finds its way out to the depot which is situated too far away from the town to be either ~~ex~~ economic l or capable of being efficiently supervised. Flies bred here are too many for a well-run night soil depot. Also it was ascertained from the Health Officer that unless carefully watched cart-loads of night soils were liable to be deposited in private fields ~~by~~ by the sweepers for considerations of private gain.

Pit Privies :- Their existing number is over 2000 according to the information given by the Health ~~Officer~~ Staff. Their existence is ~~d~~ due to want of accessibility to back yards of of house. Also it was ascertained that their number instead of diminishing had increased , because no action was being taken by the Standing Committee when a pit latrine became filled up and another was dug by its side by the house-holder

Private owned properties :- A number of these exist in which insanitary house made of mud etc. are erected without any latrine or accomodation whatever. The result is the whole place is strewn with ~~soil~~ night soil. which no one cleans. There is no latrine accommodation either public or private for a large propotion of the population.

Slaughter houses and sale meat:- Animals are slaughtered in the open in dwelling houses in thickly populated ~~places~~ localities and the whole locality is in a very insanitary conditio hovered ~~by~~ over by vultures and crows. Meat exposed for sale is covered with flies and exposed to all contamination. No examination of animals is done to keep out deceased animals.

Vital Satics:- Registration of births and deaths is very defective, and no attemptes have been made to improve it as yet.

Malaria: Is endemic, but nothing is done in the way of anti-malarial measures.

Drainage: is extremely defective, and with the exception of a few drains the open drains are blocked with rubbish being

Subject: Sanitation of Hubli Town.

Copy of letter No. 3117 of 23-8-38, from the Assistant Director of Public Health, S. M. D., Belgaum.

With reference to your letter No. 1 dtd. H. 1922 of 15th August 1938, I have the honour to state that I visited Hubli town yesterday morning and went round the town with the Health Officer and Sanitary Inspector. There has not been much improvement in the sanitary condition of Hubli since this Office re ort No. 3\0 of 11th October 1938. I am noting below the chief sanitary defects briefly:-

Water supply: This is not only adequate, but also not pure enough to be drunk without boiling or chlorination. It is only very recently that the water supply is being sent to the Hubli Health Laboratory for analysis.

[illegible] - have been surprised by how people for a many years, they are not only deficient in knowledge but are [illegible] to drink even obviously impure and resulting them. On questioning the Chief Sanitary Inspector, it was also able of doing even ordinary sanitary measures and remedying self unless somebody sent in a complaint. A case in point was a cost insanitary lecture and noise exhibition noticed yesterday in both Mohalla, of which no notice [illegible] taken. On questioning the Health Officer, it was found that it was not of the duty of the City Municipality to [illegible] such matters.

Drainage: is extremely defective, and with the exception of a few drains the open drains are blocked with rubbish being [illegible] Jrainage or night soil. [illegible] of the sanitary defects.

[illegible] - [illegible] for many years that [illegible] which the Health Officer, it was found that it was not of the duty of the City Municipality to [illegible] such matters or [illegible] to be carried out by the Municipality. [illegible] Municipality to [illegible] Health Officer [illegible] Municipality [illegible] Health Officer [illegible] Municipality [illegible] Health Officer [illegible] Municipality

uncleaned for a long time.

Infectious disease:- Plague, Typhoid and small pox are always present annually. The rat-trapping is not properly done. It was found, for instance, that the catch was very small due to many traps being laid without any baits.

Enteric fever takes a large toll of life every year. Tuberculosis is prevalent to a very great extent.

From

Sardar Mahaboob Alikhan,
President Municipal Borough, Hubli.

29-8-38

The Hon'ble Mr.L.L.Patil,
Minister for Local Self-Government, Poona.

I am herewith enclosing a comparative statement showing the income and expenditure of the Hubli Municipality since 1930 to 1938, for your perusal. A careful study of the accompanying statement will show the nature of my administration since 1930. The administration has been conducted with utmost economy and every attempt is made to use the ratepayers' money very carefully and to the best of their advantage. A statement showing the expenditure over charges of establishment as well as income of the Municipality for the year 1936-37, is also sent herewith; same has been prepared on being demanded by the senior auditor, C.A.C. All these prove beyond doubt that the administration of the Municipality has been conducted not on party lines but with utmost scrupulousness. Such being the case I really wonder what grounds there are for the agitators and supporters of the supercession movement. The only plausible cause is that the personnel of the administration consists mostly of discontented Councillors, who have lost in the town having some grudge about some individual members of the Municipality not in power and lastly of Congressmen who are not in office since the beginning of my administration of the Municipality in 1930, because they do not belong to the Congress creed.

The percentage of Municipal establishment charges to the income of Municipality is 32.26, inclusive of the collection establishment it is 36 p.c. The excess over the standard limit works is 27 p.c.

I wonder what are the arguments of the supporters of the supercession movement. The accounts of the municipality are annually audited by Government auditors and beyond certain irregularities in payments contrary to law, they have not been able to point out any serious. Not a single case of defalcation or misappropriation has been reported so far. On the other hand they have pronounced that the financial condition of the Municipality has been quite satisfactory.

Your Excellency in his reply given to the address presented by the Hubli Municipality in 1938 remarked that it is commendable that the Municipality has kept its expenditure within their income. On the other hand he blamed the Municipality for not raising the taxes and thus increasing the income of the Municipality. The main object of the agitators seems to get the Municipality suspended and taken the administration of the Municipality into their own hands by getting all the nominations in their favour since there is the Congress Government, so that they may be free to do anything. Of course they have taken care to put on a decent appearance for this movement by pointing out at the alleged maladministration of the present party in power.

I have already acquainted you about the past history of the delegation in my previous letter. If the Municipality is going to be suspended at the instance of such people, then it may be said that gross injustice is being done.

During the present days or depression it is very difficult to recover the taxes due and hence year by year the income of the Municipality is not fully realised. Still utmost is done to utilise the funds towards works of public utility, and town improvement schemes

The present deputation therefore sent to impress upon you that the real state of the situation here. I hope you will give your most anxious and careful consideration, towards this vital question that affects the prestige of the town. The personnel of our deputation consists of gentlemen coming from noble and well to do families that have settled here since time immemorial, unlike those deputationists in favour of supercession, who have recently settled in Publi and are eager to secure power all at once.

Moreover the Municipality has invested 23508 in Govt. securities towards the depreciation fund. Also a Provident fund for the employees have been started since 1907-08 and a provision of 4665/- has been made and invested in total Cash Certificates. A loan of Rs 165000/- has been taken from Govt. long before for water work, out of which the Municipality has paid 101000/- in only 64000/- is remaining now. Yearly instalment of 12141/ is paid towards this loan in the 5 years the whole loan will be cleared off. Moreover the Municipal Office has been extended at a considerable cost. An amount of 15000/- has been spent until now on construction of Road by Municipality. Owing to this there has been a great increase in income for the Municipality.

Taking into consideration all these facts mentioned above, I think that there is hardly any ground for supercession of the Municipality, and on no ground the election should be postponed. They should be held in due course as settled at present.

I beg to remain,
Sir,
Your most obedient servant,

C. A. Varma.

President,
Municipal Borough, Publi.

Copy)

Mr. S. J. Billimoria, B. A., LL. B., Advocate, Hubli is said to have stated the facts about the Deputation consisting of 11 members headed by himself on 31-8-38

The facts he stated are as under:-

He himself read the memorial consisting of about 12 pages of which 4 pages contained the criticisms of the member of the first Deputation, and the next four pages contained the description and status of the members of the 2nd Deputation and the remaining 3 pages contained the substance of the memorial presented by the deputation. In that, is stated that the administration of the Hubli Municipality has efficiently managed as any other Municipality except Poona and that the members of the first Deputation did not represent the citizens of Hubli, but they had taken that chance for their own selfish ends. The Hon. Minister, Mr. Billimoria continued assured the members of the deputation that there shall never be postporement of elections to facilitate supersession. But if on enquiry, and on the report of the Collector the Government finds it necessary to postpone the elections it may do so. As regards supersession, the Hon. Minister assured them that, if there was no other remedy to improve the administration of the Municipality and if the Government finds that it is beyond any remedy to improve the administration except supersession, the Cabinet will not shirk its responsibility. But before doing so, the Government will enquire thoroughly and get the report from the Collector and the Commissioner and also call for an explanation from the Municipality for the same; and added that the Minister absolutely disliked the public meetings and the applications submitted by either of the parties and that the Minister shall be influenced by any such meetings and applications and know what value to be attached to such applications and meetings. Before taking any steps towards supersession apart from enquiry and report from the Collector and the Commissioner the Minister will personally come to Hubli and study the situation.

another member of the Deputation

As for Mr. P. I. Hiremath's sayings before the Hon. Minister, Mr. Billimoria stated that Mr. Hiremath opened the topic of the public meetings held in Hubli and said that Drl Hardikar and his party unnecessarily created rowdyism and broke the meetings. Police had come there for bandobast and there was likelihood of breach of peace, to which the Minister said that he was utterly against holding meetings of either side.

The President of the Municipality Sardar M. A. Savnur has sent the copy of the memorial, submitted to the Minister for Local Self Govt. by the Anti-supersessionists, to the Collector of Dharwar with the following endorsement dated 1-9-1938.

A deputation of prominent citizens of Hubli has waited upon the Minister Local Self Government Bombay on the 31st Aug. 1938. A copy of the memorial is sent herewith for your perusal

Sd/- M. A. Savnur.

From,

Sardar Mahaboob Allikhan, B.L.A.,
President Hubli Municipal Borough,

To

R. L. Amte, Esquire,
HUBLI.

Sir,

With reference to your letter without date received on 6-9-1938, I have the honour to state that in using the word "last election" I meant previous elections and anot the election of 1935. The words "last election" in my letter used in reference to any body should be taken as previous elections and not the election of 1935.

I have kept herewith a copy of my report made against you. You will know what I have written against you. Copy of the report made against others will be supplied to them if they want and there is no reason they should be supplied to you.

I have the honour to be,

Sir,

Your most obedient servant,

Sd/-

President,
Hubli Municipal Borough.

7-9-1938.

The enclosed correspondence is circulated amongst the members of the Deputation for information. In order to enable me to reply to the President that even his corrected version of "previous election" is false, I have to request my friends to state against their names whether they have ever stood as a candidate in any previous elections and failed in the same.

Yours sincerel

	Members of the Deputation.	Have you contested any elections. Yes or No.	If yes state result	Signature

to

Sardar Habeebullikhan, M.L.A.,
President Hubli Municipal Borough,
H u b l i.

Sir,

I understand that you have sent a letter to the Hon'ble Minister for Local Self Government, Poona on 27th August 1938 making wreckless allegations against all the 15 members of the deputation that waited on the Hon'ble Minister on the same day at Poona. I also understand that you have made the following statement amongst others viz. "some of them are persons who contested at the last election but miserably failed for want of support from the voters. I am really at a loss to know who were the persons that contested and failed in the last election, since I am the only person out of the said 15 members that contested and succeeded and none else have neither contested nor failed.

Will you kindly enlighten me the name or names of the persons so contested and failed miserably in the last election. If you, however, now find that you have had a false statement will you be good enough to tender an apology to the public and the Hon'ble Minister immediately and thus prove your sporting spirit of which you boast in the said letter.

Expecting an early reply,

Yours faithfully,

Sd/- R. L. Amte.

Confidential

LEGISLATIVE ASSEMBLY BOMBAY

Mid Council Hall, Poona

13/9/38

Dear Dr Hardikar,

Received your letter. I showed it to Hon. Mr. Lathe. You might be knowing by this time that the elections of the Public Municipality have been postponed to March 1939. I hope you will treat this confidential until official intimation is received

Yours sincerely

Sd/- S. Patil.

Interviewed by the Press after the walk-out as a protest against the President's refusal to read the draft reply proposed to be approved by the House, Mr.R.L.Amte, B.A.,LL.B., Municipal Councillor and Leader of the Deputation of the supercession, stated as under:

On account of the good amount of jumble in the proceedings at today's meeting, it is possible that the sequence of the events that happened have not been easily followed. In brief what happened is this:

(1) The proposition that had been placed by Mr.Divte before the House yesterday was withdrawn by him. (2) In its place, he moved another proposal to approve of the draft replies already prepared by the President. (3) Rao Saheb Tambad moved an amendment to the second proposal of Mr. Divte. (4) The President, while accepting the amendment of Rao Saheb Tambad, moved a second amendment to combine it with the first two paras of Mr.Divte's original proposition of yesterday as well as his new proposition of today.

The psotion with regard to the amendment moved by Rao Saheb Tambad is that the Municipality accepts in principle the faults and charges levelled against it by the Government, though it attempts to shove all the blame upon the present party in power. It further frankly prays for mercy at the hands of the Government while requesting only to dissolve this Municipality instead of superceding the same. The most important portion of it was the last para wherein regret is expressed for not obeying the Government's order for the removal of the President and another member from the Municipality and for the removal of the Chief Officer before the Government's order was actually received by the Municipality.

When this important amendment was accepted in toto by the President and when Mr.Pawar from the majority party actually got up to support the proposal of the President to accept the amendment and incorporate the same in Mr.Divte's original propo-

sition, Mr.Bendigeri ought not to have, in my opinion, raised any technical objection. The controversy over the technical objection gave an opportunity to other shrewd members of the majority party to reconsider the peculiar situation created by the acceptance ~~of~~ by their leader, the President, of this amendment. They discovered the anamoly that when the charges as framed by the Government were once admitted, there would be no earthly use for the voluminous explanations drafted by the President and proposed to be sent to the Government as per Mr. Divte's resolution incorporating the amendment of Rao Saheb Tambad, in-as-much-as the first part of the resolution would be quite contrary to the latter part and hence absolutely absurd.

At this stage, ~~in~~ I insisted upon the President to put on record his second amendment accepting Rao Saheb Tambad's amendment. As a rule, every proposition moved before the meeting must necessarily be put on record. Further the President had no right to say that he "stopped" his second amendment as he actually did today, without getting the formal permission of the House for withdrawing the same. The law is that once a proposition, however trivial it may be, is formally proposed by a member before the meeting, it becomes the property of the whole House and the mover is then debarred from withdrawing or "stopping" it, as our President did, without the consent of the House.

This high-handedness of the President in having refused to place on record his second amendment was quite illegal and could not be tolerated at all. To add to this, the President when requested by me to read at least the replies he had drafted and had been attempting to get passed, would not even budge an inch from his firm attitude towards his colleagues whom he has been in the habit of treating with utter contempt by relying on his majority to support in each and every absurd thing he thought of.

I appealed to him to read his explanations in the open meeting so that the councillors, the rate-payers and the public who had then assembled in the Municipal Hall so eagerly to listen to the proceedings and especially the explanations proposed to be given in reply, may also know the same as they had a

right to do so. In my opinion such an important matter could not be disposed off at the back of the councillors and the public as is now beang attempted by the party in power. It is no use trying to keep the public in the dark as to what is being done by their representatives. The public has a right either to condemn or express their approbation of the explanations proposed to be sent to the Government in respect of all the charges levelled by the Government and which have been widely made known to them thanks to the press. But the President without adopting the right and the only straight-forward method has been taken recourse to his usual back-door methods.

The public need not be in a puzzle at all to fathom the reasons of the President in readily agreeing today to withdraw the yesterday's main proposal as moved by Mr.Salvi. It had proposed to authorise the President - a veritable dictator as he is - to send a reply to the Government by way of explanations. This was attacked by one and all who to the utter dismay of our dictator his own henchman, Mr.Pujari, moved yesterday a resolution agreeing to place the draft before the house today for approval and this had been passed unanimously. This meant that the draft must now be placed before the house for approval. The President was deadly against such a procedure. So from his fertile brains, another scheme was evolved, as was acted upon today

To be brief, the President does not want the public as well as the opposition councillors to know what he is going to say to the Government. It is evident as was recalled by Rao Saheb Tambad yesterday at the Municipal meeting that the President has been trying to shove all the blame for the sins of the past on to the opposition members and has been trying to exonerate himself from each and every responsibility for the misdeeds enumerated by the Government in their charge sheet. The President has thus again won in his manouvres and what he lost at yesterday's meeting due to the short-sightedness of his colleague Mr.Pujari has been achieved today by a back-door method.

I must point out to the public why I had to walk out. I had written to the President beforehand on Monday the 17th inst. to provide me with a copy of his draft replies by way of expla-

nations which he had proposed to be placed f before the meeting on the 18th evening. He promptly replied to me stating that he was unable to accede to my request as he was still drafting them and were as such incomplete. He had suggested also to see him at the office. But when I learnt that Rao Saheb Tambad who being similarly invited was insulted by the President and was refused to be shown the replies, I did not consider it worth the while to risk an insult. Further, my private perusal of the draft would not much improve the situation because the draft is after all a draft only and is liable to several changes and altogether a new draft may be placed at the last minute before the meeting. Who can even now guarantee that the draft as has now been said to be ready prepared would be sent to the Government without additions or omissions, nobody having evidently anitialled the same for identification as laid on the table.

I therefore insisted on the same being read openly before the x full house and to be discussed point to point before approval. This was the only right and wise course for any impartial and straight-forward President to adopt. I even pointed out at the meeting that the members are kept completely in the dark even as to the nature of the replies and even the document was not shown to the members much less its contents. Some one pointed out to a bundle of papers lying on the President's table and I thereupon casually referred to the other books placed on the same table to be distinguished. All this had no effect on the President.

The very important point to which I wish to draw the attention of the Government and the public is that such kind of wholesale approval of a bundle of explanations is quite illegal and ultra vires. This amounts to list-voting by the councillors. Amongst the explanations, if laid before the house, some might have been approved of as being satisfactory to the whole house, while a few might have been rejected by some councillors. But as the whole is now placed before the meeting, the house was forced to declare its opinion on several matters both satisfactory and unsatisfactory. Thus the members' right of discriminate voting

was denied to them. This naturally meant a "zulum" by our President on the Councillors' right and a forcing of the members to act in a most irregular and illegal way. I had therefore no other course left except to walk out of the House as a protest against the illegal attitude of the President and to put on record the voice of the public against the persistent high-handedness of the President even at such a grave occasion as the consideration of death warrants on the Municipality.

Lastly I wish to emphasize that a resolution which attempt to approve of the draft explanations as a whole without being read and discussed in the open meeting is absolutely worthless and is quite illegal. It amount to blind voting and shall not therefore be construed by the Government as the opinion of the whole Municipality. This would at the most be taken as the opinion and explanations of the President alone; because if these were read and discussed, there was every probability of pursuading several of the majority party members not to approve of them. At least 3 or 4 members would have certainly been won over by arguments and thus many of the explanations would have been thrown out. As it is, only 10 members as against 5 and including myself 9 have voted for the President's explanations and the Government will assurely assure from this division that only 1/3 of the full House having practically approved of them, the remaining 2/3 have accepted the Government charge sheet as being true in all respects. Under the circumstances I can confidently foretell that this Dublin Municipality will be superceded by the Government within the course of the next few days.

Dublin 19/10/1918. M. L. Note.

No, 1433 of 1938-39
Municipal Office,
Hubli, 28th October 1938

From,

Sardar Mahaboob Alikhan Savanur, M.L.A.,
President, Municipal Borough, Hubli.

To,

The Hon'ble Mr.L.M.Patil,
Minister for Local Self Government, BOMBAY.

Subject : HUBLI MUNICIPALITY.
affairs of.....

Sir,

While respectfully submitting the explanations to the several allegations, beg leave to submit the following few and brief observations:-

1. From the nature of allegations, contained in the Charge sheet, I am led to believe that they are more in the nature of complaints ~~of a complaint~~. I do not think that I would be very much in the wrong, if I were to infer that the charges mentioned in the charge sheet are not the results of prima facia findings of the Government recorded after an enquiry into them. I am led to infer that way as I find, that some of the allegation are not only baseless but are without an iota of truth in them Many of them are extremely exaggerated. The matter of Mr. M.S. Patil is subjudice. I did not, expect the Government to express any opinion as regards matters which are subjudice. The manner in which the complaints are now made and the language in which they are expressed, indicate that the Government have simply forwarded the suostance in the Collector's report which is in substance the complaint of Dr. Hardikar and his associates.

2. The items of the charges are too general and too vague. They do not afford a reasonable and adequate scope to offer an explanation. Most of the items appear to cover a period of nearly 10 years or so. No specific instances in which the so-called illegalities, irregularities, disregard, disobedience have occured are mentioned. Many of them from the subject matter of audit notes, made every year to which replies and explanations are submitted year by year and which I presume are accepted as satisfactory, or at least found not to be such as to require a drastic action.

3. It would have been better both for the Government and for the Municipality if the charges had been specifically and categorically stated with some details and item by item and giving the particular instances in which the alleged defaults are found to have been committed. The Municipality would then have been certainly in a better position to expose the hollowness, the falsity and the trivial nature of the several allegations.

4. The time given for submitting our explanations was to say the least too short. I applied to the Collector for extension of time. The request was refused. Explanations had to be hurried up and placed before the general body which was called to meet on the 18th instant as there was peremptory direction that they must be submitted before the 22nd instant. Hence the Municipality had to keep its eye more on the date than on the explanations. As stated above the charges cover a period of 10 years. The present Board is working during the last three years. Consultations and discussions with the members of the old Board and inspection of old records were essential for a detailed explanation. But the time allotted was too short. The explanations had, therefore to be hurriedly pieced together and had to be submitted,

to the adjourned meeting of the general Body on the 19th instant. The General Body went through the explanations and passed the resolution adopting the same. After the resolution was passed the Municipality received the telegram on the 20th evening from the Government granting extension for a week. Unfortunately the grant of extension was too late. If specific charges quoting instances are put forward, and if sufficient time is given, I am confident that the Municipality will be able to give most satisfactory explanations in detail.

5. To be frank, what I suspect and suspect strongly is that Dr. Hardikar, who is pursuing this Board in a most rancourous and relentless manner and who is helped by some irresponsible malcontents, mischief-mongers, and time-servers, is at the root of the present crisis. As is natural, some irresponsible rumours are collected and is given credit to, and assumed to be correct by Dr. Hardikar and company and is forwarded to Collector by way of complaints. I should have expected the Collector before he sent his report to the Government to call upon me to offer explanations to the complaints made against the Municipality. He did not do so. I do not know what report he made and I also do not know on what bais and information he did so. Some of the items of charges are such that they did require a personal discussion or a personal explanation or a personal visit to some localities in Hubli. The fact that he had not done or cared to do any of these things, leads me to suspect that he simply embodied the allegations of Dr. Hardikar, and Company in his report and sent it to the Government. He should not have done so. The Government thinking that the Collector has done all that he should have done, has sent to the Municipality the long charge sheet for explanation giving the Municipality as short a period as possible to offer the necessary explanations. The hot haste in which these serious matters are being pushed through and keeping our eye on the 31st of October 1938, which is the date on which the term of the present councillors is notified to terminate, on is rightly inclined to infer that the demand for explanation are more formalities to be gone through for the purpose of technically confirming to the Provisions of the Act. I most respectfully and firmly submit that this is not just. All this above procedure vividly reminds me of the proverb, "Give a dog a bad name and hang it."

6. I should not be supposed to say that this Municipality is very ideal and perfect in its working. There may be irregularities and minor defaults here and there. But they are of the usual type which are found in almost every department, Government or Municipal.

7. Assuming that there are a few graver irregularities they are such as may be remedied or corrected. I humbly submit that the Government should not have all at once resolved to adopt such a drastic action as now appears to be contemplated. I feel extremely grieved to remark that many of the charges are not only unfounded but that some of them can be shown to be demonstrably false. A launching of the charges of this type is the result of a report which I have reason to doubt is based on wrong information and false and prejudiced rumours, without any attempt being made to verify and find out the truth.

8. Lastly I submit that on account of the vagueness and the sweeping nature of the charges, the Municipality has found itself extremely handicapped in all ways. The least that the Municipality expects is that a proper and sufficient opportunity should be given to explain and answer specific charges. If after this, the Government were to come to the conclusion that the irregularities and the conduct of the Municipality are of such types to call for nothing else but drastic action and are such as cannot be remedied in any other way, they are at liberty to adopt any course they think best. If not anything else, the present

board will have the satisfaction to say that sufficient scope and opportunity was given to offer explanations.

9. The present action of the Government, I am afraid will have also far reaching effects. Dr. Hardikar is tom-toming the decision of the Government about the contemplated action is a foregone conclusion and the present proeedure is too formal This tom-toming and the other circumstances together are enough for any one to infer that it is Dr. Hardikar's hand that is practically influencing the Government in this respect. Dr. Hardikar's retinue consists mainly of unscrupulous and self serving people.

10. It has become very easy and very cheap to become a Congressman. Wearing Gandhi cap and a Khadi shart are considered to give the man the halo of Martyr or the holiness of a saint. Many of his followers are such who till very lately hated the Congress with an extremely venomous heart. As soon as the Congress ~~xx~~ Government came into power, these people underwent a sudden metamorphosis and have reappeared in the garments and guise of a saint. It is by such people that Dr. Hardiker is surrounded and supppрted. It is on this account that respectable, learned and truly sincere and truthful people are afraid to take any active part in the Municipal affairs. I firmly say ~~kk~~ that the Government should not, even by appearances, show that a particular man has a particular influence and that he is by using his influence capable of doing and undoing things as he likes. This will be enough to shake the confidence of the people in the present Government. Go into any part of Hubli, and take a general sense of the opinion and you will find that there is a widespread criticism that Government is playing into the hands of Dr. hardiker.

11. Lastly and in all humility, I beg to be forgiven for any frank and plain and honest writing. Such a method of writing may not ~~fx~~ conform to rules of etiquette. However, keeping aside all forms and ceremonies, I feel it my duty that in the wider interests of the Municipal affairs and the Congress Government I should keep you informed of the real state of things.

I have the honour to be,
Sir,
Your most obedient servant,

Sd. M.A.Savanur.

President, Municipal Borough,
Hubli.

Submitted through the Collector of Dharwar, ~~xxx~~ with reference to his No. Mun. H. 1825 of 8-10-38.

Explanations to the Charge Sheet with General Body Resolutions of 18th and 19th October, 1938 accompany.

Dr.N.S.Hafdike
Hubli.

Hubli,
12th November, 1938.

To

The Educational Inspector,
Southern Division,
D H A R W A R.

Sir,

The following points with regard to this application may be considered and noted :-

1. The applicant is a person who has passed his Urdu Final Examination about six years ago. He was unemployed and was in great need of some service to maintain himself and his family.

2. Sadarbhai was his teacher in whom the applicant could repose confidence and look up for some help. Sadarbhai promised to help the applicant if he (Sadarbhai) can find some officer whom he can influence.

3. As Mr. Azad, A.O., is a person known to Sadarbhai and he accordingly promised to do something for the applicant if he was willing to give some nazarana to A.O.

4. The money was accordingly raised by leasing in advance for Rs 100/- which fact may be verified. Out of this Rs 40/- were paid as assessment and Rs 60/- remained with the applicant,

5. The appointment was made without any application by the present applicant.

6. The order of appointment was sent through Mr.Sadarbhai.

7. The applicant was appointed in a Kanarese School though he had passed Urdu Final Examination and though he complained of his inability to teach Kanarese.

8. The money was taken from the applicant on the assurance that he must join duty in whatever School he is posted at present but within a very short space of time he would be transferred to Urdu School and he must not bother about the same.

9. Accordingly the applicant joined the Kanarese School

and within a short space of ~~time~~ 20 days the post of one Assistant Teacher in Kanarese School was abolished and the applicant transferred to the Urdu School. But he was not relieved by the Head Master.

10. In the meanwhile, A.O.,was transferred and the applicant relieved from service ~~as~~ being incompetent to teach Kanarese.

Yours truly,

Hubli, 25th November, 1938.

PERSONAL.

Dear Sir,

I learn from the papers that you will be touring in the District during the month of December. Besides the other day when I was in Poona you were pleased to give us an interview. At that time I have requested you to kindly let me know exact date when you will be coming to Hubli so that I may make arrangements for the presentation of an address from our Municipality. I may once more mention here that our Municipality has presented addresses to all the Honourable Ministers when they paid a visit to Hubli and has put up a marble slab in the Hall of Remembrance in memory of the visits. These have been done when the Honourable Mr. M.T. Khaparde and the Honourable Mr. Abdul Kadir Saheb Bahadur Abdulla Sahib Bhutto paid a visit to Hubli. It is my desire to do accordingly when you pay a visit to our Municipality. Hitherto the addresses have been presented in Silver Caskets. The total cost of these occasions have been about Rs 300/- in all. I shall be glad to know if you are agreeable to accept the silver casket. It is my earnest prayer that there should be no occasion to spend this much amount for the address. Please therefore let me know your views about this.

Please also let me know whether you will be coming alone or whether Mrs. Kher will accompany you. The favour of a reply will oblige.

Yours sincerely.

(Sardar Anabob Allikhan)

To

The Hon. Mr. B. G. Kher,
Prime Minister. Govt. of Bombay.
BOMBAY.

Hubli, 26th November 1938.

To,

The Hon. Mr. L. M. Patil,
Minister for Local Self Government.
Government of Bombay,
BOMBAY.

Sir,

I wish to drw your attention to the false news that was transmitted by the Associated Press, Hubli, about the supersession of Hubli Municipality. I am forced to do so as I am bothered by hundred in our City regarding the truth of this message. The President of Hubli Municipality calls me a " TOM-TOMER " while people whom he helps and send such messages and spread such rumours.

The facts are these :-

On the 18th of this month the three Kannada Dail Papers of Bangalore published a message transmitted to them by the A. P. I. Hubli on the previous day. It was regarding supersession of the Hubli Municipality. The English rendering of the Kannada news as appeared in ' JANA WANI ' of -- Bangalore of the 18th instant is as follows:-

HUBLI MUNICIPAL ADMINISTRATION.

GOVERNMENT WILL TAKE CHARGE

(A. P. I. Wire) Hubli, 17th.

" IT IS LEARNT THAT THE GOVERNMENT OF BOMBAY WIL TAKE OVER CHARGE OF THE HUBLI MUNICIPALITY AS THE SAME IS IMPROPERLY ADMINISTERED. "

" IT IS ALSO UNDERSTOOD THAT MR. VENKATPATAYYA, I. C. S. ASSISTANT COLLECTOR OF KARWAR WILL TAKE OVER CHARGE OF THE SAME. "

" IT MAY BE RECALLED BY THE READERS OF 'JANA WAN THAT THE LEADERS HERE WERE CARRYING ON A CAMPAIGN FOR SUPER[-

SESSION AND A DEPUTATION ALSO HAD WAITED UPON THE ---- HONORABLE MINISTER.

On the same date (18th) Marathi Papers of Poona, ' SAKAL ', 'JNANA PRAKASH' and 'LOKA SHAKTI' published the same message which they received from Hubli. But they did not give the source of the same.

The above news was copied by two local Dailies of Hubli 'LOKA MAT' and 'TARUNA KARNATAKA' on the 20th.

The A. P. I. of Hubli is in the habit of sending such messages and requesting Editors not to publish the name of his Firm as it would harm him personally. I have proofs of this. Unfortunately for the A. P. I. agent here, Bangalore Papers published the source of their message

As I am convinced that my writing to either the A. P. I. agent here or their Head Office at Bombay will serve no purpose I am communicating the facts to you so that you may know how news is manufactured by the Hubli agent of the A. P. I. who, I have strong reasons to believe, is in league with the President of the Hubli Municipal Borough.

I have drawn your attention to the above in the hope that you will be good enough to warn the A. P. I. to be careful in future.

Your Brother,

M. S. Handikar

The President,
Hubli Municipal Borough,
HUBLI.

Sir,

I understand in your General Body's Meeting held on the 2?-th ultimo, the offer of Messrs. Manvi Brothers to supply electric current for street lights and the Municipal Water Works was put up for consideration. So far as I am aware, the Municipality has not called for such offers by a Public Notice. If the Municipality intends to make a Contract for the supply of electric current, there are local persons including myself who are willing to enter into such a contract provided its terms and conditions suit them. I have, therefore, to request you to provide me with your terms and conditions for the supply of the current at an early date and oblige.

Yours faithfully,

The President,
Hubli Municipal Borough,
HUBLI.

Dear Sir,

Supply of Electricity for Municipal Street Lighting :

I am in receipt of your letter No.PWD/153/1937 dated 26. 4. 1936. As intimated by you therein, I went to your office and saw there such of the "Relevent Papers" as were made available to me. They consisted mainly of a couple of correspondence between yourself and Messrs. Manvi Bros., of Gadag. But the information that I could gather therefrom is too meagre and insufficient to serve as a basis for my calculations. It is strange that a Contract of such magnitude and duration as the supply of electricity for your street lighting for a period of 25 years should have been handled by your Municipality in such an irregular, perfunctory ~~and unbusinesslike~~ manner.

I was surprised to be told that there was not even a tentative scheme specifying the demands of your Municipality in respect of the proposed Electric Lighting. There seemed to be nothing on record to show that your Municipality did seriously intend the electrification of its street lights and call for offers for that purpose. In your aforementioned letter you have stated that Messrs. Manvi Bros., "themselves offered to supply electricity at 0-3-6 per unit". But from the letter No.PWD/51936-37 dated 22.7.1936 addressed by you to Messrs. Manvi Bros., I find that after preliminary interview with them, it was your Municipality which took the initiative and called for their quotations. I do not know what additional facilities were offered to Messrs. Manvi Bros., to help their calculations. I need not mention here that the mere number of lights and their consumption is not enough for the calculation of the competitive rates in such undertakings. Additional information in respect of several important details is absolutely indispensible for the guidance and safety of the prospective Contractors. My contension is that all reasonable information in respect of your demands and requirements should be gathered together and made available to all who may feel interested about it.

7/70

G.551 contd. May 26, 37

I wanted to know the layout of the area which was proposed to be electrified, the length of the streets and the number and nature of the lights to be installed thereon. I asked for the Plan showing all these details but there was none. I was thus compelled to return from your Office without getting any reasonably useful information to help my calculations and make my offer.

I do not know why the system of calling for Tenders has not been considered advisable by your Municipality in the present case. I believe that under Section 60 of the Bombay Municipal Borough's Act, this system has been recommended in case of all Contracts exceeding Rs.1000/-. I am not, however, interested in your procedure. If I have mentioned it here, it is only because if you had adopted the tender system, you would not have persued the approved system of procedure in such cases but also you would have provided the Public with all the necessary information in the ordinary course of business. Both you and I would then have been saved the avoidable labour and trouble of this correspondence.

The supplying of Electricity for the Municipal Street Lighting is tempting enterprise and may be considered with advantage by several business people. I myself am prepared to think of the proposition and make an offer provided I am supplied with all the information on the following lines :

1) The determination of the Municipality to get its street lights electrified.

2) A Statement of Scheme specifing their Demands and exact requirements as also the terms and conditions of the Contract.

3) A Plan showing the Topography of the area, the length of the streets and the number and capacity of the lights to be installed thereon

After receiving the information on the above mentioned lines, I shall consider the matter and will again address you on the subject.

Yours faithfully,

The President,
Hubli Municipal Borough,
HUBLI.

Sir,

Supply of Electricity for Municipal Street Lighting :

I am in receipt of your letter No.PWD/301/1937-38 dated 3-rd June 1937.

I have no objection to see you personally as desired by you. But a personal interview at this stage is not likely to be of much use. I have to discuss a business proposition which I cannot do unless I am previously well posted with all the requirements of your Municipality in respect of that business. I have, therefore, to request you to provide me with the necessary information in all its particulars as described in my previous letter at an early date. You will no doubt agree with me when I say that with the plans and estimate ready in our hands, we shall be in a better position to discuss the proposition and come to a reasonable decision in respect of its contract. Any early compliance to my request will, therefore, very much oblige.

Yours faithfully,

Ref.No.LA 19/122.

29th May 1933.

Dear Sir,

Re: Street Lighting & Pumping by Electricity.

With reference to the interview of our representative had with you to-day in connection with your letter No.163 of 18th instant, asking us to quote our minimum rates for lighting and for motive power, we have pleasure to confirm the following provisional arrangements mutually approved of during the discussion. We beg to make a special mention here of our representative having agreed for a special reduced rate of annas 4/- (four) per unit for lighting in view of your having assured to substitute eletric lighting throughout the city so soon we have laid the necessary distribution Lines in any particular streets including lanes and bylanes.

1. As such, we are agreeable to charge you at the rate of annas 4/- (four) only per unit consumed for lighting and annas 2/- (two) only for power purposes including the Unkal Water Works.

2. The priod of the Contract shall be in the first instance for a period of 15 years.

3. The cost of laying the Distribution lines for lighting and for power purposes throughout the city and for Unkal Water Works, will be borne solely by the company.

4. The Municipality shall have at least one 40 Watts Lamp on the Alternate Poles of the Company within the Municipal Limits.

5. The total hours of lighting shall be at least 3,000 annually as per monthly lighting programme to be supplied by the Municipality.

6. The cost of providing proper electric light fittings shall be borne by the Municipality in the first instance.

7. Repairs, renewals and maintenance of all light fittings, lamps, wires etc., including the switching on and off of all the lights, shall be charged at the rate of anna one only per unit in addition to the aforesaid rate of As.4/- only per unit for energy consumed.

8. As desired by you, we are prepared to guarantee the supply of motive power for the Unkal Water Works from 1st April 1934 at the latest. We, however, expect to complete the work within six months from the date of the final agreement.

9. The bills will be submitted by us every month and the same shall become payable within a fortnight from the date of the presentation of the same.

We now await your final approval in order to enable us to proceed with the work at a very early date.

Thanking you,

Yours faithfully,
for The Hubli Electricity Co.Ltd.,

Sd/- AMTE & CO.

Managing Agents.

HUBLI MUNICIPAL STREET LIGHTING.

Present Offer of the President of the Municipality:-

About 300 lamps of 20 watts each on alternate poles:

These burning on an average @ 6 hours per day will consume 1080 units per month which @ -/3/6 per unit will give a revenue to the supply company of Rs. 237 8

The rate of -/3/6 per unit which is the maximum he is willing to allow is to include renewal of lamps, lighting fittings, repairs and putting on and off every day; which alone would cost the supply Co. about Rs.250/- per month.

D A T A:

Petromax Lamps - 204, Ordinary Lamps of 5 c.p. each - 510; Kerosine Oil consumption per month - 750 to 800 drums (@ Rs.2/4/6 per drum) during monsoon and about 400 drums generally per month; Breakage, accessories etc. Rs.600/- to Rs.800/- per month; 30 Lighters & Inspectors - Pay Rs.540/- per month; Roads, streets & by-lanes running length - 30 miles.

Offer of the Supply Company:

(A) At any rate suggested by the Electrical Inspector to Government, Bombay,

or

(B) Any rates and terms agreed to by the Major Municipalities like Surat, Karachi, Poona, Sholapur etc.,

or

(C) (a) At the rate of 4 annas per unit consumed,
(b) Period of contract in the first instance for 15 years
(c) Municipality to have at least one 40 watt lamp on every alternate pole of the company within the Municipal limits,
(d) Total hours of lighting to be at least 3000 annually as per monthly lighting programme to be supplied by the Municipalit
(e) Cost of providing proper electric lighting fittings to be borne by the Municipality in the first instance,
(f) Repairs, renewals and maintenance of all light fittings, lamps, wires etc. including the switching on and off of all the lights, shall be charged at the rate of One Annas per unit in addition to the rate of -/4/- per unit consumed.

The total number of poles throughout the 30 miles length would be 1200 approximately. On alternate poles the number of lamps will be 600. Out of these taking about 50 lamps as coming in the big squares requiring bright lights (say of 200 c.p. each) the total running cost per month will be as follows:-

550 Ordinary Lamps of about 25 c.p. burning for 250 hours per month,

&

50 Very bright Lamps of 200 c.p. each burning for 250 hours per month on an average, the total number of units consumed will be 5,375 and the cost of same @ -/5/- per unit (including maintenance) will be Rs.1,680/- per month or Rs.20,160/- per annum.

Alternative No.1

The same number of lamps of the same capacity as above but burning for only 180 hours per month or 6 hours per day as at present, will cost to the Municipality per month Rs.1,210/- or Rs.14,520/- annually.

Alternative No.2

500 Ordinary Lamps of 25 c.p. each and 100 very bright Lamps of 200 c.p. each will cost:

(a) when burning 6 hours per day or 180 hours per month - Rs.1406/4/- per month or Rs.16,875/- per annum and
(b) when burning 250 hours per month - Rs.1,953/2/- per month or Rs.23,437/8/- per annum.

Alternative No.3

If the Municipality like to keep up their present number of lamps i.e. 700, then the following would be the recurring expense:

)0 lamps of 25 c.p. each and 100 lamps of 200 c.p. each burning
r 180 hours per month would cost Rs.1,575/- per month or
18,900/- per annum

or

)0 lamps of 25 c.p. each and 200 lamps of 200 c.p. each burn-
g for 180 hours per month would cost Rs.1,968/12/- per month
Rs.23,625/- per annum.

The Municipality spends at present on kerosine lighting of streets a sum of nearly Rs.29,000/-, i.e., Rs.2,450/- per month.

Hubli: 17th Dec 37.

Sir,

I understand that your Municipality is rebuilding the gutter in Divategalli in front of the house(residence) of Mr. S.H.Divate, a Municipal councillor, and has accordingly a resolution has been passed in the Standing Committee to expend Rs.800/- on this construction. I have seen this gutter personally and any one can say that this gutter is in good condition and does not need reconstruction. I do not understand what necessiciates the Municipality to undertake this work. The only reason that can be attributed to this reconstruction may be perhaps the reason of Mr. Divate residing here.I also understand and suppose my information is true that this gutter is once being built.

You will please therefore visit this lane yourself personally and see the state of affairs. As for myself I think that the rebuilding of the gutter in this lane is no longer a necessicity. I therefore request you will please immediately stop this work if in case you desire to do so.

Another thing I am given to understand that Mr. S.H.Divate has given an applicationto the effect that the stones now extisting in the construction of this gutter are his and he will take them for his own. I hope you will please write to me if this is a fact. I am mentioning this on information and do not bind myself as to the truth of the application.

an early reply will oblige me,

Here I beg to mention that there is much hap hazard way of building these gutters but instead of so doing may I suggest you to please arrange to have a well - advised regular scheme of drainage and then to go on - building part by part. Such hap hazard way of building these gutters may mean a waste of public funds which - you will please note here.

A copy of this letter has this day been submitted to the Collector of Dharwar.

I beg to remain
Sir,
Your most obedient servant.

English Translation of Mr. Tarasa's Application to the Municipality in Kannad.....

Application to the Chief Officer to the Hubli Municipality from Tarasa Parashuramsa Habib:-

The plot of land situated on the Station Road near Ganesh Peth (Ward No.1) Revision City Survey No.2635) belongs to Mr. Chickwirayya Lingayya Chickwerayyannavar. Out of this plot the portion on the North-East is rented by me and I intend to have constructed a temporary shed of corrogated iron sheets on this portion of the plot, according to the map enclosed herewith. I therefore request you to please grant me permission for erecting the temporary shed on the said plot.

Enclosed are the map and a copy of the rent-deed.

25-5-1936 Sd/- Tarasa Parushuramsa Habib

Following is the order from the Municipal President with regard to the above application;-

"The applicant should be informed that no permission can be granted for erecting a temporary shed on the said plot. There is no objection to grant a permission if the applicant is willing to construct a pucca building after submitting a plan. Appended i a complaint from the Manager of the Sudershan Talkies"

19-6-1936. Sd/- M.A.Savnur,
President Hubli Municipalit

Reply to Mr. Chickwerayya from the Municipal Office:-

"With regard to your application for constructing a cutcha

21 II 95

building on the north-east of the plot at the corner of the coen road joining the Station road, you are hereby informed as under;-

You have shown in the map that there will be door Western side of the proposed building. But the portion to the wes is leased out. The question of these doors therefore will receive Municipality's consideration if written consent of the lessee is obtained by you and furnished to the Municipality. Moreover the Municipal plot to the east of your plot has been leased out to Mr. Shikhare and hence no permission can be granted for construction of doors on the East of your proposed building. You are being informed of this in accordance with the order of the President of the Municipality which may be noted.

19-10-1937. Sd/- x x x

The Extract of the remarks from the Report No. G/3838 dated 12th August 1938 of the Educational Inspector S.D. Dharwar regarding Lamingto High School, Hubli.

---oOo---

" This cannot be said to be a well managed and efficiently conducted Institution. The advice given by the Educational Department from time to time is not properly attended to, with the result that instruction, which is adequate in range, in only fair in quality and general tone and discipline are not satisfactory. The Matriculation results are also unsatisfactory, as they have been for a number of years. The pupils are keen, but are not responsive as they are not led to put in their best exertions, while the teachers do not appear to be well prepared for their work, nor do they seem to be inspired with the proper team work. In fact the large amount of the rate payers' money that is being spent on the school cannot be said to be well used. If there is to be good improvement, the whole administration will have to undergo a drastic change.

English teaching cannot be said to be satisfactory for various reasons. Some of the teachers who teach English are not careful about their own English and commit several mistakes themselves. Much less are they able to speak and correct the mistakes in the oral expression and written work of their pupils. Non-graduate teachers should not be entertained, as a rule, with the teaching of English in higher standards."

15. The notice given by Mr. N.N.Ari Pleader with regard to the Proceedings of the meeting held on 8/1/1935 and the expenses incurred for the same.

16. The Collector's letter NO.MUN(H) 750 of 8/12/1934 re: Levy of tax on Factories and Mills.

17. The Government Circular NO.542/33 dated 16/1/1935 with-regard to the Rules for the guidance of the Municipal -- servants.

18. The Collector's letter NO.MUN.1611 dated 8/3/1934 with-regard to the recommendation of the Re:Organization -- Committee.

19. The President's note dated 1st March 1935 with regard to the selection of a news paper for the publication of -- Municipal agendas during the year 1935/36.

20. The Collectors endorsement NO.MUN.(H)1653 of 10/2/1935 with regard to the use of C.T.S.NO.2316 by the Mahars free of rent.

Sd/- M. A. SAVANUR.

HUBLI,
2nd March 1935

President
Hubli Municipal Borough.

2-4

Agenda of a Special General Meeting of the Hubli Municipal Borough to be held on Tuesday the 19th March 1935 at 6/30 P.M. to consider :-

1. The School Board Chairman's Memo. No.433 of 14/3/35 re payment of annual grants to Libraries and New -- English School, Hubli for 1934/35.

2. Collector's letter No.MUN.(H) 1618 of 4/3/1935 re -- adoption of Uniform rates of road tolls.

3. The question of sanctioning the re-appropriation -- statement submitted by the Chief Officer.

4. The application of Dr.B.N.Nadgir requesting to help him to open an Aurvedic Dispensary at Hubli and the letter signed by Mr.G.V.Anegundi, Vice President, and 3 other Councillors for the same.

S of M. A. Sawanur

Hubli,

14th March 1935.

President
Hubli Municipal Borough.

To

The President,

The Hubli Municipal Borough, Hubli.

Sir,

I have the honour to draw your attention to the absence of Public Urinals and Latrines within easy reach of the M.S.M. Railway Station but outside its compound for the convenience of the passengers going to and from that station. I understand that owing to their absence passengers ease themselves by the road side and thereby expose themselves to the charge of committing public nuisance. The evil is more pronounced on market days and Jatra times when the number of passengers moving to and from the town is naturally very large. It was said that at the time of the recent Jatra of Shri Siddharudha Swami several villagers finding themselves unable to withstand nature's call eased themselves by the road side and thereby exposed to the vexatious attention of the law. It is really unjust and inequitous to expect obedience to law without providing reasonable conveniences for keeping oneself within it. I therefore request to enquire into the matter and arrange to erect sufficient number of public urinals and latrines somewhere within easy reach of the Railway station at an early date and oblige.

I have the honour to be,
Sir,
Your most obedient servant.

President.

To

The District Transportation Superintendent,
M. & S. M. Rly., (Traffic),
HUBLI.

Through: The Station Master,
HUBLI.

Respected Sir, -

We the Citizens of Hubli, respectfully beg to lay the following grievences of the ~~[illegible]~~ will be pleased to give the matter your sympathetic and early consideration. The travelling Public intending to attend the call of nature are put to much inconvenience as there are no latrines built outside the Station for the purpose, ~~more so~~ especially the female sex have greatly to suffer.

During a recent Festival, it seemed very essential to ~~have~~ one, as an absolute necessity of the Public. The Public are much thankful to you for having already made the Piping arrangement, and further request that you will also be pleased to call the attention of the authorities concerned, to have two separate latrines, one for Males and the other for Females, constructed at an early date, outside the Hubli Railway Station.

For which act of kindness your goodself's name will be always remembered by the travelling Public and the Public of Hubli in particular.

We beg to remain,
Sir,
Yours faithfully,

Hubli,
8th April 1936.

Case No. for supersession of
the Nubli Municipality fro
Audit Notes

The reasons placed before the Co
of Bombay for immediate supersession of
the Nubli Municipality are substantiated
by the Govt. Auditor's remarks from time
to time, which prove gross negligence in
several matters, waste of public money,
expenditures contrary to law, deficiency
or loss due to misconduct and the like
on the part of the Nubli Municipality.
In the following three articles published
in the Press last year, the Govt. Auditor's
remarks for the 5 years from 1932 to 1936
are referred to, a perusal of which is
sufficient to convince any one about the
maladministration of the institution and
this makes the case for supersession all
the stronger. The Municipality, which
did not care to put into effect even the
Govt. Auditor's remarks or suggestions and
rectify the errors pointed out by him, can
hardly be expected to heed to public opinion.
Some of the Audit notes show that the same
errors, even after they were pointed out
by the Govt. Auditor to the Municipality,
have been committed again and again succes
vely, which fact reveals disregard that the
Municipality exhibits for both the public
and Govt. opinion.

(True Copy)

No.LRM.11/4/5360
Bombay, 4th September 1930.

From

The Electrical Engineer to Government, 5th
Public Works Department,
Bombay.

To

The Managing Agents,
The Hubli Electricity Co. Ltd.,
Hubli.

Sir,

Re:Continuous supply.

With reference to your letter No.E.C.34/350 dated 28th August 1930, I have the honour to state that the rates and conditions offered by your Co. to the Hubli Municipality, are on the high side as compared with the rates charged by other Supply Cos. A rate of 3 annas per unit plus a standing charge of Rs.5/4/- per quarter per 60 or 40 watt lamp on standards primarily erected for supply to consumers would be more reasonable, the cost of the line, also all repairs and the switching on and off of the lights being borne by your Co. I shall, therefore, be glad if you could see your way to so revise your rates for street lighting that it would pay the Municipality to undertake the street lighting by electricity.

I have the honour to be,
Sirs,
Your most obedient servant,

Sd: .....

Ag. Electrical Engineer to Govt.

To,

The Educational Inspector,

Southern Division,

D H A R W A R.

Sir,

In contunation of my application, I learnt from the Lamington High School Hubli Head Master, that the application for the admittance should be made within 3months from the date of commencement of new classes. I was unawair of t is fact and left up to date for granting permission beforehand. Under the circumstances I humbly request you to kindly grant my son Mr. Babu, R, Amte to appear for the 5th Standard --- Examination to be held in the Lamingto High School Hubli in the current month.

I hope you will kindly grant permission to promote him for the Higher Standard if he duly passthe Examination.

I beg to remain,

Sir,

Your most obedient servant,

H U B L I,

Respectfully forwarded through the Head Master Lamington High School Hubli for favourable consideration and permission to appear for the Examination.

To,

The Educational Inspector,

Southern Division,

D H A R W A R.

Sir,

I the undersigned beg to submit the following for your kind consideration.

My son Mister Babu Amte was studying in the Lamington High School in the 4th Standered last year. I desired him to study in St. Mary High School. So he left and was admitted to the 5th Standered on reexamination. But after a few days he found it difficulty to follow with French as Second Language, there being no arrangements for Sancrit teaching. So he stays at home studying privately. Now under these circumstances I request you to permit him to appear for the Annual Examination of the 5th Standered in the Lamington High School Hubli to be held in the month of April 1936 and also to be promoted to the Higher Standered in case of his duly passing the examination.

I beg to remain,

Sir,

Your most obediant servant,

H U B L I.

Forwarded through the Head Master Lamington

High School Hubli,

Hubli
13th August 1938

From

Dr. N.S.Hardiker,
Chairman, Parliamentary Board,
Hubli.

To

The Collector,
Dharwar.

Sir,

I beg to make the following representation to you in the matter of voters' lists for the coming triennial Elections of the Hubli Municipal Borough.

The City of Hubli is divided into ten wards. The preliminary lists of voters for different wards have been already published. Despite the public notices specifying the qualifications of voters by the Returning Officer and by our Board nearly 10% of the names appearing in the provisional electoral roll are of tenants each of whom pays an annual rent less than rupees twelve to their land lords. The preliminary list was published within a fortnight after the appointment of the Returning Officer. It was the Municipal President who appointed the tax-collectors in different wards to prepare these lists in the office of the Returning Officer. These petty servants of the Municipality naturally thought it was their duty to guard the interests of the party in power. Even a cursory scrutiny of these lists shows that they were prepared to favour the party in power and with partisan spirit. Verification of these lists meant visits to houses in different localities in a big populous city. That could not be accomplished within a fortnight or so. This work of verification and of checking would require the labour of a few devoted workers for 2 or 3 months. There are about 20,000 tenements and it is not easy to check the names of the occupants of these properties. On account of want of proper verification and checking the lists are faulty and erraneous. If election is held with such lists (as contain a large number of the names of voters who are partisans of the party in power though they are not legally entitled to be

voters) what will be the result ? The Party in power will have undue and unfair advantage. Many of the sitting members and their henchmen will be returned on the strength of the votes of those who are not qualified to exercise their franchise. It is but natural for the tax-collectors to include the names of all those who are most likely to register votes in favour of the members of the majority party. This kind of party feeling is detrimental to the best interests of the City.

It is impossible for any returning officer to find out all these defects and errors in the Electoral Roll if within so short a period as a fortnight. House to house scrutiny within this very short period of 15 days is an impossibility. The Returning officer is to be congratulated on the herculean labour he has been engaged in the preparation of this Electoral Roll within such a short time and in accordance with the election programme.

If the Returning Officer had been allowed a longer period for this purpose of verification and checking certainly he would have been able to prepare a list quite free from all blemishes and errors. This list is erroneous, faulty, and defective because its preparation was entrusted to the tax-collectors completely under the control of the President and his party. The citizens will not be benefited by the work of a just and impartial Returning Officer like Mr. A. N. Sonnikar with his subordinates who are all Municipal servants actuated by the motives of favouring the majority party.

In these and other grounds I pray that

a. those municipal tax-collectors who are found to have prepared such erroneous Electoral Roll should be properly dealt with.

b. The names of those who are not duly qualified to be voters should be deleted from the Electoral Roll.

c. The Returning Officer be instructed to prepare a fresh Electoral Roll making the necessary additions or omissions or alterations as the case may be after due and proper enquiry.

(3)

Hoping to be favoured with an early compliance,

I remain,

Yours Truly,

Chairman,
Hubli Congress Parliamentary Bou

CONSERVANCY:-

(a) Public latrines - 26(288 seats)

(b) Number of private bhangy privies- 1262(1892 seats)

(c) Number of pit privies - 1261

(d) Number of cesspools - 13(public)187(in connection with private B.P.)

(e) Number of public Urinals- 5.

(f) Site for natural purposes - Nil

(g) Sites for storing manure - Nil

(h) Refuse depot - Gurushiddappan Honda (Filling of)

(i) Night-soil Depot - Situated at a distance of about 2½ miles from the city.

2. Two public latrines with 12 seats each have been added in Vittalpeth;.of them one is yet unfinshed . Also two more public latrines with 12 seats each have been recently constructed in the Fort area. The old ones in this area require repairs, the cesspools in connection therewith were found toge full. The public latrines behind Panji Ishwarappa's house were found, on inspection in a most unsatisfactory condition; they are/disrepair including paving of floors and partition walls; only outside walls are newly built; cesspool was found to be full; nightsoil was found deposited in open buckets and barrels without covers when inspected at 6.45 p.m.; a night-soil cart which was full was also there at the time. There are no enclousers provided for night-soil collecting casks, buckets and carts; the former were not even covered. Closely fitting covers are absolutely essential to prevent danger to public health caused the most abnoxious smell and troublesome fly nuisance and danger noticed at the time of inspection. The cesspools and drains in connection with all the old public latrines were found to be kutcha and overfull with ablution water and liquid filth. The cotton market latrine is old and in disrepair; the seats are not provided with doors for privacy. The cesspool of Gavaligalli latrine also was found to be full of liquid filth.

3. There are 5 urinals, which are provided with water tanks. These tanks are filled in the morning. The urine is allowed to run into roadside gutters, which causes a great nuisance to the public trading or residing near about, besides being a waste of useful manurial ingredients for night-soil poudrette. Apparently there are

pparently there are not enough arrangements for collecting urine in pucca cesspits to be frequently emptied by hand pumps in sullage carts. Such arrangements are absolutely necessary in the interest of public health.

4. Formerly the method of disposal of night-soil in Hubli city was by open pits and was highly unsatisfactory, causing a most horrible nuisance of abnoxious smell and flies. When this state of unsatisfactory condition of the night-soil depot then situated in close proximity to the Railway water works (water supply derived from Devargudihal tank) located near the Ahobalapur hill was discussed by Dr.Pinto in his note on the Hubli Municipal night-soil depot and the new Railway water supply scheme forwarded under this office No.2096 of 20-10-1926, the Municipality requested this office under their No. 704 of 2-11-1926 to suggest practical ways of working the pits with a view to adopt a satisfactory method of disposal of night-soil. Accordingly a note suggesting practical and efficient ways of disposing night-soil in trenches based on the Nasik system was sent to the President, Hubli Municipality, under his office No.2277 of 20-11-1926 forwarding a copy of the same to the Collector of Dharwar with reference to his No. M.U.N.H.983 of 13-11-1926. The necessity of a duly qualified Medical Officer of Health for constant and efficient supervision which is the secret of success in this as in other sanitary measures was also emphasized.

5. Again the Municipality was advised by the undersigned under this office No. 2137 of 30-8-1929 to adopt the Nasik system of disposal of night-soil with scrupulous attention to all the details of the scheme as given in the Manual of Vital Statistics and Public Health and to efficient supervision.

6. In January 1933 the depot was inspected by the undersigned with the Municipal Chief Officer and the Sanitary Inspectors. Little attention seems to have been paid to run the depot systematically; as a result night-soil was found to be thrown on the ground indiscreminately without treatment resulting in breeding of millions of flies- a veritable danger to public health. Consequently strong recommendation was made to the Municipality under this office No.344 of 30-1-1933 urging the necessity of taking immediate steps to run the night-soil depot on systemati

-- as pointed out in detail in this office No. 2277 of 20-11-1926 referred to in para 4 above.

7. After repeated reminders to the above referrence the -- Municipality at last replied under their their No. 379 of 12-7-33 that they did not intend to follow the Nasik System trenching as the pouerette did not yield as much income as the crude night-soil fetched. Thereupon, an exhaustive reply was given to the President of the Municipality under this office No.3481 of 31st Agust 1933, impressing upon him the fact that if there had been an approved Health Officer for the Municipality responsible for the public -- Health administration of the City, he would certainly have considered the question with the due weight it deserved and given the right advice to the Municipality from the beginning. Opportunity was also taken again to emphasize the urgent necessity of appointing an approved Medical Officer of Health at an early date. The following extracts from the letter are reproduced here-under- for ready reference.

" The disposal of night-soil by dumping it in pits or shallow trenches without treatment is most reprehensible and -- detrimental to the public health. There can be no two opinions about this. It is, therefore, an obligatory duty of a Municipality to see that it is carried out satisfactorily under efficient and strict supervision with least chances of causing harm to the health of the inhabitants. I again repeat that the key to success of the Nasik system lies in the constant and efficient supervision with scrupulous attention to all the required details thereof. Night-soil takes 6 months to one year to transform itself into well-ripened manure; and the well ripened night-soil looks extraordinarily like earth. Fertilising effect of the manure will be enhanced when it thoroughly matures. It is just likely that immature manure may not find favour with the agriculturists with - consequential depreciation in its sale price,. Whatever it may be after all, consideration of revenue from this source should be relegated to the secondary position only.

" The following are the remarks, among others, made by the Collector of the Bombay Sub.Urban District against the administration of the Kurla Municipality demanding explanation for the

same on pain of suspension. I hope they will induce your Municipality under your guidance to give serious consideration to the importance of the points raised therein and their obligation to carry them out.;-

" The administration of the Municipality from the sanitary point of view is extremely defective. One of the urgent and long standing needs is the proper disposal of night-soil. The present practice of throwing night-soil etc., in the cerrk is not only highly objectionable but is injurious to the general health of th the public in the neighbourhood. With a view to improve this state of affairs the authorities of the Public Health Department -- suggested to the Municipality, among other things., the adoption of the trenching system in vouge at Nasik, but the Municipality has hitherto neglected this question. The Municipality has also failed to appoint an experinced and independent Medical Officer of Health..The Milch cattle stables the every existance of is a -- nuisance to the public health and which will be a source of -- calamity if any epidemic were to breakout are scattered throughout the city and the Municipality has not taken steps to control them to one central locality inspite of repeated reminders."

This letter was forwarded to the President of the Municipality through the Director of Public Health for the Government of Bombay,Poona?, and the Collector of Dharwar. The former transmitted it to the Collector under his No.136-B of 15th September 3 and latter passed it on to the Municipal President under his No. M.E.D.529 of 22nd September 1933. After repeted reminders the Municipality replied that Dr.Mundaganur , who had passed the -- sanitary surveyor's examination, was appointed to look after epidemic and to supervise the trenching of the night-soil. He also -- remarked in the same letter that the question of deputation of the Doctor in question for training to qualify himself for the Health Officer's post was under consideration of the Municipality The Undersigned whenever he noticed the defects in the Night-soil depot, made suggestions on the spot to the Municipal sanitary staff for improve-ment of the same. But, everything seems to have been done half heartedly as revealed during -- inspection on 8-4-1935.

The whole area of night-soil depot measures 26 acres and 29 gunthas There are 372 trenches in all, each measuring 600 cubic feet -- (40' x 5' x 3' = 600). One such trench is said to be required every day. The trenches are not numbered. The road to the depot is neither good nor properly aligned. 19 carts of night-soil, each containing 200 gallons are said to be removed daily to the night-soil -- depot with a motor-truck-full of kutchara for spreading over the day's night-soil dumped in a trench. Kutchara was not found to -- have been stored at the depot. The depot is not provided with met. trough to facilitate emptying the carts into trenches with the result that night-soil was found scattered over the ground indiscriminately attracting flies. Frantic efforts were made to ~~xix~~ show at the time of my inspection that the trenches wre being -- covered with kutchara. The natural sequence of such careless disposal and treatment of night-soil is nothing but horrible nuisance of offensive smell and myriads of flies.

8. The Municipality looks after cleaning of public latrines only; and the private privies are got cleaned by the people themselves by private arrangements with Bhangies as regards payment. These bhangies are however allowed by the Municipality to deposit the night-soil collected by them from private privies in the Municipal night-soil carts kept at the night-soil collecting stations There is no Halalkor cess levied. The Municipality had submitted a proposal to Government for levy of this tax, but it is said that it was not sanctioned by Government. No papers on the subject have been received in this office.

9. Street and household refuse from the City is removed to Gurushiddappan Mond for filling it up, by the Municipal refuse carts drivers.

10. In compliance with the request from the Commissioner S.D. made in his letter No.1372 of 30th November 1917, Dr.Dalal, the then Deputy Sanitary Commissioner of this Division drew up a -- conservancy scheme with details as to the plant and establishment requisite for a City with a population of 10,000 souls, which was forwarded to him under this office No.154 of 16th January 1918, forwarded a copy of it to the Sanitary Commissioner for the -- Government of Bombay, Poona, under No.155 of the same date. It was

circulated by the Collector to Hubli along with other Municipalities early in 1918, Dr. Dalal in his sanitary inspection Report of 1918 suggested again that the conservancy arrangements should be revised according to the scheme under reference. But the suggestion does not seem to have been acted upon as seen from the details of the present conservancy plant and establishment and arrangements herein-before described.

Cow & Buffalow Stables:- There are milch cattle stables scattered over the City without any Municipal control over them as to their location-structure, lighting, ventilation etc., general conservancy, feeding and watering of the cattle, supervision of the milk sold, cleanliness of utensils, and general Health and cleanliness of persons in attendance of the animals. Besides these stables, collections of buffaloes are seen in central places i.e. open squares in the City, both morning and evening, ready to be milked for the sale of milk, and even milk already drawn is put on sale there.

Markets:- In Robertson market and area around it vegetable is sold on ground by the side of nightsoil chambers of private privies. There are two tanks in disrepair which were originally meant for storing water to be used in case of outbreak of fire in the market. There are many encroachments made by venders in and near the market.

2 Gardenpeth Mutton market requirs repairs to floor etc. equate water supply for cleaning purposes should be provided. The Municipality propose to cover up the open space between the roofs of the two wings of this mutton market with galvanised iro wire gauge and also to wire guage the doors, to prevent fly nuis nee. This should be carried out in consultation with the superintending Engineer, Public, Health, Poona, as regards type of mes suitability of the number of guage of wire netting etc.,

3. The Guneshpeth Mutton market is defective. There is only one water pipe without a tap. The court yard is open. The open ground by the side of the market is used as a fish market. Adjoining gutter was found full of filth at the time of inspection, and appeared to have not been cleaned for weeks.

4. The beef market near Cotton market in new Hubli was found to be quite insanitary at the time of inspection. All the five

All the five stalls therein are built privately by the owners, only the ground rent being paid to the Municipality. Slaughtering of animals is done on the nalla near by.

5. There is no vegetable market for old Hubli.

Slaughter Houses:-

There is one slaughter house for goats and sheep near -- Garden Peth. It was found in a most abominable condition in as much as it was full of Offal, blood, clots etc., with resultant horrible nuisance of flies,. The paving is in much disrepair. The cess-pool and gutter in connection therewith are Kutcha. The compound wall was constructed last year. 40 to 50 sheep and goats are slaughtered every day. The annual income derived from slaughtering of sheep and goats, at one anna per animal is about Rs.900 The establishment consists of one Bhangy to cleanse it and one clerk to collect fees.

2. There is one slaughter house for cattle constructed and maintained by the Municipality. Slaughtering of cattle is carried on on the ground close to Butchers' houses in Old Hubli. Offal, blood, bones etc., were found lying about, thus rendering the -- whole area most insanitary and injurious to the health of the -- butchers, their family members and the neighbouring residents.

Pure and adequate water supply and good dranage are two of the foundation stones which the structure of Public Health science is raised and their absence indicates a backwardness that cannot be caught up in an emergency.

Drainage :-

Want of efficient drainage system for the City, inspite of repeated suggestions for necessity of the same by all Government sanitary authorities whoever had the opportunity of -- inspecting the sanitary condition of Hubli city, has been mainly responsible for the most horrible insanitary and unhealthy condition of the city described in detail in the foregoing pages. The Nullas that run through the city are practically public latrines in many places. The Municipality have built pucca V shaped gutters in some parts of the city; but such haphazard construction does not efficiently serve the purpose intended. It is, therefore strongly recommended that the Municipality should adopt the ge

General surface drainage scheme drawn up by the Executive Engineer ~~for Government of Bombay in 1923~~ Southrn Sanitary District, in his preliminary report on the drainage scheme for Hubli city as advised by the Sanitary Engineer to Government of Bombay in 1923; and carry it out section by section, without further delay, attention being first paid to the construction of drain ~~age~~ in nallas as proposed in sub-para 2 of para 15 of the preliminary report referred to above-e.

Insanitary trades:-

Lime-kilns, pottery kilns, storage houses for putrescible hides in fresh state, tile kilns, brick making & tanning - business should not be allowed within the Municipal limits.

The slaughter house for goats near Garden peth is most horribly insanitary and the building is much in disrepair as regards its pavements, cess-pool, gutters etc., It is, therefore, condemned. A new slaughter house on sanitary principles should be constructed in consultation with the Superintending Engineer, Public Health.

There is no slaughter house for cattle in Hubli City. The cattle are slaughtered near the dwelling houses of butchers, and the whole area is very insanitary. Slaughtering of cattle should not be allowed at unauthorised places in the vicinity of human habitations. A slaughter house for cattle should also be constructed on sanitary principles in consultation with the Superintending Engineer, Public Health, Poona, and maintained by the Municipality.

Conservancy:-

(a) The conservancy arrangements should be revised in accordance with the conservancy scheme appended to this report.

(b) All the dust bins are placed on the ground without paved platforms. They should be kept at convenient centres on paved and cemented platforms to facilitate easy removal of the refuse. Worn-out and unserviceable dust-bins should be replaced by new ones. Refuse was found strewn over the ground round about almost all the dust-bins This is possibly due to failure on the part of the house holders to throw the house hold sweepings etc., directly into the dust-bins and also to carelessness on the part of the sweepers to deposit the street sweepings therein. Indiscriminate collections of such refuse round about the dust-bins and else where attract flies; and dust and

and lighter particles are blown about when the wind is high. Rats also will burrow in them is search of food. House-holders should be educated to throw the house hold sweepings etc, carefully directly into the dust-bins and the sweepers strictly w warned to dump the street sweepings into the same, care being tak taken to see that their cleaning regularly is scrupulously attended to by strict daily supervision of the Sanitary Inspectors.

(e) Majority of public latrines and the 5 public urinals were found to be very dirty; the smell was most obnoxious and fly nuisance most dangerous and troublesome as described in -- detail under the heading conservancy. The sides of streets are full of human excreta, being usually resorted to by children for natural purposes. In short the conservancy of the City has been quite unsatisfactory and unworthy of the City of the size and importance of Hubli which appears to be mainly due to the -- absence of close supervision by the supervising public health staff over the conservancy establishment. If the conditions of the public latrines and urinals are so disgraceful, it is but natural then for the public not to use them and to resort to places near the latrines. It is, therefore, incumbent on the Municipality to see that the public latrines and the urinals are kept in proper repairs and scrupulously clean to induce people to use them to prevent them from committing nuisance in unauthorised places round about them.

If this is the condition of public latrines which under direct control and managent of the Municipality, then what might be that of the private latrines, which are said to be got cleaned by private arrangements can better be imagined than -- described. Several of the private latrines were found to have no doors to night-soil chambers on the roadside to screne the -- receptacles etc,. which are full of solid excreta. It is advisible that attempt should be made again to levy Halalkhor cess the necessity of which is obvious. When the Halalkhor.cess is levied the Municipality will be able to take control of the management of cleaning both private and public latrines by increasing the conservancy staff with the increase in the Municipal revenue and to maintain them in better sanitary condition than at present.

The night-soil depot is most carelessly managed as hereinbefore described. A special attention should be paid to maintain it in sanitary condition with scrupulous regard to every detail of the trenching system as repeatedly advised personally and in writing from time to time. The Municipality should realise that disregard of even a minor detail is fraught with danger to public health.

Don'ts in Influenza.

In view of the prevalence of Influenza in the town, the attention of the inhabitamts is drawn to the following preventive measures :-

1. Don't go to dusty and overcrowded places such as shops, hotels, public meatings, cinemas, theaters and other places of public amusements.

2. Don't visit sick friends.

3. Don't expose yourselves to cold & chill.

4. Don't sleep in closed stuffy rooms.

5. Don't miss your daily mouth wash and nasal spray of potash permanganate.

6. Don't go to business or work if you feel un-well.

7. Don't fail to take to bed if you have fever, cold or cough.

8. Don't hasitate to call in a Docotor if you have fever, cold or cough.

9. Don't return to work or business until you are quite fit.

The Hon. Mr. L. M. Patil,

Minister for Local-Self Government,

B O M B A Y.

Sir,

By this time, you must have received a complete report of the proceedings of the Special General Meeting of the Hubli Municipal Borough convened for the purpose of considering the question of the removal of two councillors under Sec. 27 of the Bombay Municipal Borough's Act, 1925 for serious misconduct. This is to acquaint you with what struck me most or rather what strikes every civilized citizen most. The meeting was a travesty of all salutary traditions, disregard of all notions of etiquette and gentlemanly behaviour and flouting of public opinion and contemptuous treatment of all legal provisions and legally constituted authorities. In a word, the proceedings in the meeting were such as every citizen should be ashamed of. In this letter I confine myself to three points in particular.

1. It is a fundamental principle of law that the judge and the accused should not be the same person. This was set at nought by the President of the Hubli Municipal Borough. The Government, on enquiry, had found him guilty of serious misconduct of utilizing the services of the Municipal employees for his private purpose. The Municipality was to consider the question of his removal on the ground of this misconduct of his. If not with due deference to the fundamental principles of law, the salutary traditions observed in meetings and the dictates of conscience, at least as a gentleman to all outward appearance, the President ought not to have presided on the occasion. But the Hubli Municipal president not only did preside, but exercised every possible arbitrary, capricious and arrogated authority on the occasion. He over-ruled points of order, admitted most unprecedented kinds of amendment, most officiously interfered with

the speeches, tried to snub the speakers in a most ungentlemanly manner and banned admission to the public in the meeting hall. A point of order was specifically raised as to whether the President could preside on the occasion in view of his own conduct being the subject under consideration; but the president overruled it. The Bombay Mayor's instance of his having vacated the chair on the occasion of the consideration of a question in which he was alleged to be connected, was pointed out, but most strangely the president distinguished it on a funny ground that it was a case of contract and the present case was one of misconduct. In a word the president acted in such a way as to impress the most impartial audience that he was a veritable dictator. To a person who is familiar with inner working of the Municipality, who knows that the Municipality is a single member Municipality, all this is nothing. To laymen, these proceedings strike as most ludicrous and to a lawyer as null and void.

2. To the charges against him, the president, from his presidential chair, defended himself in a rambling, irrelevent and shameful way. From the manner of his defence, the president seems to argue or rather dictate to the municipal house, that since so many officers do a certain act, it is no offence; no body needs be ashamed of it and no body need raise his little ~~finger~~ finger in protest against it. To him, it is a thing done in the most ordinary course of business. The president was devilishly bold in trying to impress the councillors that he was guilty, if at all along with no less personalities than their Excellencies the Governors, the Hon. Ministers, the Commissioners, the Collectors down to the village officials. As an instance, one sentence may be quoted. "The President said "Who can say, that even the collector who has sent the letters, is free from such conduct". The majority party to which the President belongs easily swallowed the file, and president came off with flying colours. I need not stop here to describe the foolhardiness of the president or the incompetency of the majority of councillors. I only bring to your notice, that grave charges were levelled against all officials howsoever high or low with as much light-heartedness as a mad man or drunkard alone is capable of.

Extracts from the Annual Report on the working of the Local Audit department, Bombay, 1935-36

---oOo---

Page. 11: (n) Hubli Municipality:- The amended rules for the levy of licence fees were sanctioned in Government Resolution General department,No.S-91(103) dated 8th May 1934 and could have been brought into force from 1st October 1934;but the new scales of fees were actually introduced from January 1935,resulting in an avoidable loss of revenue to the extent of Rs.400/- for the quarter.

Page:18,(z) Hubli Municipality:- The Commissioner has directed the municipality to retrench 15 posts specified by him in grounds of extravagence bu t the municipality resolved on 2nd October 1935 to retrench only 7 posts. The position has been reported to the Commissioner for final orders.

To,

The Honourable Minister,

Local Self Government, Govt. of Bombay,

Bomaby.

Respected Sir,

We, the owners of the buildings situated on the Tabib Land which is under the Jurisdiction of the Hubli Municipal Borough, beg most humbly and respectfully to request as under.

Very often we drew the attention of the President, Hubli Municipal Borough, regarding the roughest possible condition of the roads in our streets, insufficient number of Gas lamps and Boaring Water Pipes. But so far all our efforts in requesting the Municipal Authorities, Hubli, are proved not at all to be fruitful but on the other hand our grievances are enhancing day by day.

There being no Pucca Guthars and as no sweepers are regularly cleaning the rough roads, we are put to unnecessary inconvenience and the sanitary condition of late has been proved to be quite unhealthy.

We, now therefore, request your Honour to please arrange to redress our ~~grievances~~ long standing grievances at an early date.

Correspondence, if required, may be addressed to one Mr.Yellappa Nagappa Pol, owner of House No.66 Tabib Land, New Hubli.

Thanking your Honour very much.

We beg to remain,

Respected Sir,

Your most obedient servants

Hubli,
October 1937

To,

The Honourable Minister,

Local Self Govt. & Miscellaneous,

Government of Bombay, B o m b a y.

Humble Representation of Sarafs of Hubli

Subject:- Encroachment of the open area infront of shops

Honoured Sir,

We beg most humbly and respectfully to place the following few lines for your Honour's kind and sympathetic consideration.

Due to the encroachment of the open space infront of our shops, we are put to unnecessary inconvenience as the encraoched area has been utilised by the Municipality as a Vegetable Market. In this connection, we beg to point out that there is already a Vegetable Market in the Robertson Market and the vegetable shops there are sold by auction openly and thus there is income from those shops. Whereas in the open area which is encroached and utilised as vegetable shops infront of our shops , has not at all been assessed by the Municipality.

Under the circumstances quoted above, it is not understood, how the Hubli Municipal Borough has been allowing people to encraoch the open area unauthorisedly and utilise the same as Vegetable Market. This was brought to the notice of the Municipal Authorities but all our efforts so far proved abortive.

We, therefore, request your Honour to kindly order an enquiry into this matter and arange to redress our grievances as early as possible.

Reference, if need be, should kindly be made to Mr.Hanamant Gundo Balaganoor, Saraf, Hubli.

Thanking your Honour very much.

We bg to remain,

Honoured Sir,

Your most obedient servants,

Hubli,

To

The Hon'ble Minister,

Local Self Government of Bombay,

B o m b a y.

Respected Sir,

We the residents of Valvekargalli and Bellary oni within the limits of Hubli Municipal Borough beg most - humbly and respectfully request you asunder:-

Our lanes are not at all metelled year by year and are not cleaned every day. They are in most ugly state having bigger pits here and there which will make one go with great difficulty during nights as the lighting arrangement is not sufficent.

The Bellary oni which has been widened for road widening a long time back has no pucca gutters uptil today. Hence during the rainy season all water will flow on the road itself making it rough and unlevel. We do not understand why the Municipality should go on acquiring other sites without supplying all the - needs on such roads which have been acquired for such purposes. In this connection, the Valvekargalli as it is today very narrow and congested has not been acquired for road widening. The Municiplaity is not all caring to give it its immediate attention. But whenever approached, they put it off sayigg that the matter is under consideration.

The water arrangement is also not sufficient .There are no public water posts just to supply the needs of these two gallies. The one existing does not serve our purpose.

The sanitary condition of our streets is still worse as the roads and gutters are not cleaned every day and every day's waste removed. Now the consequence is our town is suffering with Typhoid epidamic.

We therefore request your honour to please arrange to redress our grievances at an early date. P.T.O.

The correspondence if required may be addressed to M.B.Bellary, Bellary oni.

Thanking you in anticipation,

We beg to remain,

Sir,
Your most obedient servants

The Honourable Minister for Local Self Government,

Government of Bombay,

B o m b a y,

Sir,

STATION ROAD : GUTTERS : STREET LIGHTING

We, the residents of Hubli residing on Station Road, Hubli, do hereby beg to submit to your honour the following few facts for favour of your kind consideration.

This Road, though one of the main thorough fares of the City has no pucca gutters built till now. Consequently, rain water both of this road and the adjoining area come down with a heavy force and for want of proper channel, oozes out on the road itself and ultimately flows into the nearby timber depots of Sha Narpal Vasayya and Pralhadrao Chitguppi. All this rain water thus collected in the Timber Depots stagnates there and leads to Mosquito breeding which every sensible and responsible Municipality should try to avoid.

Further this Road which feeds the Railway Station, Goods Shed, Railway Staff Colony and the Keshwapur Suburb has really a heavy traffic and is, therefore, rightly considered to be one of the main thorough fares of this city. Taking into consideration of the petty accidents occurring on this road on many an occasion, we consider widening of the road is absolute necessary in the interest of the ever increasing traffic.

Again, though this is a thickly populated area, there are no public urinals nor latrines. Street lighting provided by the Municipality is also quite inadequate.

We submitted this matter to the Municipality time and again in the past but to no purpose. We, therefore, approach your honour this time in the sincere hope that you will kindly look into the matter and grant us relief as prayed for.

We have, the honour to be,

S i r,

Your most obedient servants,

B. B. Kulgaeri

Hubli.

Sir,

It is really a most regretting fact to note that I have still not had the complete information in connection with my application dated (acknowledgment of which I have already obtained from your office) pertaining to the transfer of Common Market from New Hubli to the open space near Tirakaram Tank.

The information I require is of a very urgent nature and with a view to obtain the same I I had to dance my attendance several time to your Secretary's Office, but all my efforts in have this complete information proved abortive.

When I asked officially to please let me know the working time table of your Borough Staff I am sorry that I got a most evasive reply and hence I am still under the complete darkness of the [redacted] time table of your Office.

I therefore, request you to please enlighten me with an early reply within 2 days with a view to take further action.

I have the honour to be,

Sir,

CSR.23/4.

72 Auction 29.4.25

From:—

L. A. Shinde Esqr.
Commissioner Municipal Borough Nasik

To, The Chief Officer
Nasik Municipal Borough
Nasik.

Dear Sir,

It is really a most regrettable fact to note the system prevailing in Municipal Auctions. In the first place you request the Commissioner to allow the Auction & then postponing the same for a week and so on the plea or on the pretext of "Urgent Affairs"

Such urgent affairs Warrant (can prescribe so as to avoid the fixed Auction, I know know not why you should not intimate the Commissioners not to attend (on the failure) & instruct the members on due time but really speaks the members into unnecessary expense & waste of time in general

My previous Visit I attended the Cattle Hause Body for Auction purpose was really like an "April fool" & nothing else.

Returned with compliments.

The question of assessing the Railway buildings was kept pending for a long time. Therefore the General Body had appointed a sub Committee of which I was made one of the member of the sub Committee. The Vice President who is the chairman of the sub Committee had asked the Railway Agent Madras to send the representatives. Accordingly the Agent had sent three Engineers today. As the matter involved the question of four lacs and odd rupees the Vice President asked me to postpone the auction sales and to be present for discussion in the meeting. As the Engineers had come from Madras specially for the purpose the meeting could not be postponed. Therefore I could not help but postponing the auction sales. I could not authorise anybody as the auction sales involved some hundreds of rupees.

The notice that I had sent is unfortu misunderstood. It was simply for information but not for calling for attendance of members. When I postponed the auction sale I had no time to inform the members.

Asst Chief Officer 29-4-35

Submitted with respects to the President.

It was a fact that I received the said letter of the Councillor on the 2nd instant. I would have given him my answer but as I found that he had stated the words which had not used and he had shown misguided impression of his powers over the Chief Officer I refrained from giving any answe in order to avoid dealings with the Councillors. I never called him in question the powers of the Councillor and I am sorry to see that the Councillor wish to boss over the Chief Officer.

As regards the 1st question:- The Vice President who was th Chairman of the Sub-Committee and who asked me to postpone the auction sale at the nick of time knows all about the circumstances practically. I had no time to inform all 30 councillors. I had taken care to inform those councillors who wanted to attend the auction sale. I never expected that this councillor would attend on that particular day when he is not attending auction sales. I doubt his attendance on that day also. If he had attended and if he was informed that the auction sale is postponed in time why he he should take it in this light, I do not understand. Moreover I knew the fact that the auction on that day would not have realised such a big amount as it did after 3 days as one of the important bidder was not present .

With regard to other questions I can boldly say that I am doing all the duties that I am required to do under the Municipal Act and Rules. But on account of the inefficient staff, want of a Health Officer and an Engineer too much responsibility is thrown on me and I am overworked.

The Office is invariably opened on every day up to late hours at night and sometimes even up to 11 P.M. on several days. The oil consumed is 2 drums per month in addition to the charges for the Electric current which may come to Rs.8/- or 9/- per month.

It is practically impossible to give a detailed report about* with regard to sanitory conditions. If the President wants that I can get it done through the Sanitory Department. Under the present circumstances it is not possible to minimise the complaints with regard to watering. Whenever any complaint was heard by me about lighting I have taken care to arrange to stop it. This Councillor has never complained abou light.

The tom tomming or mal-administration is a very serious question which I cannot explain frankly. This is going on in almost all Municipalities and the cause of it is found out by the Reorganisat Committee and they have suggested the means of minimising it. Moreove the Government also is trying to contract this mal-administration.

Other questions I have not explained as the Borough's Act and the Municipal Rules are quite definite with regard to those matters. When certain matters are left to the descretion of the Chief Officer he may do or he may not do according to the circumstance under which he is placed.

Further kindly allow me to say that all these facts are re open secrets and I wish that no councillor should be allowed to influence his vindictive nature in municipal affairs.

Kindly eaxcuse me for this long report and consider all points favourably. It is likely that there may be some misunderstan ing and therefore I request you to look into the matter impartially and with broad outllok

Hubli, 15-4- 1935

Sir,

In continuation of my application dated 24-th April 1935, in connection with the collection of funds for the celebration of Silver Jubilee Fund from the Merchants in the Market, it has been alleged that this fund is collected forcibly by the Hubli Municipality and as there are very ugly rumours, I have now intended to take further immediate action on this subject. Before I could approach the Collector, I would like to hear your views immediately. Please treat the matter as most urgent.

As the allegations have centered round the Municipality, I am, as in duty bound, compelled to take such steps as would be necessary.

I have the honour to be,

Sir,

Your most obedient servant,

L. A. Shindhe

Dear Brother

Thanks for your letter of today (3-12-37) which I received yesterday night. I fail to understand why you want to see me! What is the subject that you want to discuss with me. Personally I have nothing to talk with you. So please let me know the subject first.

If you still desire to have a personal talk with me then please make it convenient to come and meet me at my Shroff's residence either the afternoon at 4-30 or tomorrow morning at 7-30. In any case please write

Sand & Mineral Products Ltd
Hull.

Yours sincerely
(Sd) N. Mukherjee
MCA

Sardar Mahaboob Alikhan, M.L.A.,
President. Municipal Borough.Hubli.

To,

The Hon'ble Mr.B.G.Kher,
Chief Minister to the Government of
Bombay, Poona.

Subject:- Hoisting the National Flag on Municipal Building.

Honoured Sir,

I have the honour to state that the Local Taluka Congress Committee made a resolution on 20/9/1937 requesting the President Municipal~~ity~~ Borough Hubli to hoist the Congress national Flag on the municipal Office Building, on 2nd October 1937, i.e. Mahatma Gandhi's Jayanti day. As I was in Poona at that time the Chief Officer gave a formal reply to the President Congress Committee that the matter will be placed before the President after his return.

After my return on the 25th instant the President Hubli Taluka Congress Committee interviewed me about the matter. I told him that unless so advised by Government I could not accede to his request.

If the Municipality hoist the National Flag without the explicit orders from the Government it may go very difficult for us to explain afterwards. I also hear that attempts may be made to hoist the Flag by force in which case they will be responsible for the consequences. If you order us to hoist the National Flag that is a quite different matter.

I do not know why the local congress people are ~~ting~~ against the Municipality. They are always alert to ~~t~~ matters and present things before the public in a ~~m~~ prejudice public opinion and government's

against the Municipal Administration. Perhaps it may be with a view to win the public on their side in the forthcoming Municipal Elections. Having enjoyed certain amount of public confidence they may become successful to a certain degree. But it is not fair on their part to act like this. I hope you can do some thing in this respect by advising the local congress Committee not to play such part in local politics.

The other day these very people instigated the Kalals (Butchers) of this place to strike work on a very insignificant matter and go to the Collector making grave allegations against the Municipal administration. Let me frankly tell you that there is no fault of the Municipali-ty in this case. I have personally seen the Collector in this matter and explained every thing to him. Thus they are creating obstacles in the smooth administration of the Municipality. There is no wonder if tomorrow they instigate the public not to pay the taxes even.

It is very difficult for us to please every one. Today the Congress may ask to Hoist the National Flag, tomorrow the Lingayats may request to hoist their flag on Basava-Jayanti, another day the Marathas may approach us to hoist the Bhagava Jenda on Shiva X - Jayanti day, then the Muhomedans may come and ask us to hoist their flag on Prophet's day. Are we to dance - according to their tunes ? Please understand the awkward position we will be put in.

Hon'ble Sir, I have placed before you some of the local facts and indidence that have set me thinking deeply. I request you to pass the necessary orders in the matters which I am ever ready to carry out.

In conclusion I pray that in case any complain re brought to your Honour against the Municipality may please be consulted before hand and given proper

chance to explain things, so that you may not be pre-judiced against the Municipal administration.

Hoping to be excused for the troublee.

I have the honour to be,
Hon'ble Sir,
Your most obedient servant.
Sd/-
President,
Hubli Municpal Borough.

Rao-saheb Dr.S.P.Kumbhakonum
L.M.&.S.
Hubli.
D/- 15-8-1937.

Dear Dr.Hardikar,

I am in receipt of your letter dated yesterday.

I find that the nurse affair is already under investigation by the Dispensary Committee. I will let you know details after the investigation is over.

About Rs 180000/- . I enquired about it with the President. He said that Government Engineer wanted to condemn the present boiler etc. of Unakal Waterworks and has advised to purchase new Boilers since the present machine is giving satisfactory ser--vice, the Board is going to reply that there is no necessary to replace the old Boiler with new ones. So, you will find that there is no fresh expenditure of Rs 180,000/- to be incurred by the Municipality.

As regards Electricity. Please let me know when shall we meet ? If you want I will get all the papers to Co-op. Hospital when Dr.Gore, myself and yourself will go through them.

Yours sincerely,
S. P. Kumbhakonum

To
N. S. Hardikar Esq.
Hubli.

L.M.&.S.,
Honorary Secretary.

Hubli 19-8-37.

Dear Dr. Kumbhakonam,

As I do not want any misunderstanding amongst us I am forced to write this letter to you. Please excuse for the trouble that I am giving you.

I want you to know that it is at your personal request that I consented to see the correspondence relating to the Electrification of the city by the Municipality. I first told you, when you yourselves opened the topic refering to my ~~xxxx~~ article in the " SAMYUKTA KARNATAK " , that I neither cared to see the correspondence nor ~~xxxx~~ desire to interfere in the matter. I told you frankly that I was not a businessman and as such I did not know even the first principles of business. Later, as you were too much insistant, I consented to see the correspondence. But I emphatically told you that I would not do anything beyond that. I hope ~~xxxx~~ you have not forgotton that talk.

Do you remember how and in what unmistakeable words I pointed out to you your inability of influencing your next door neighbour ? Did I not say that " You were too optimistic ?" As an individual councillor, circumstanced as you are, it is not possible for you to mend matters nor will it be right on your part to ask me or any other person to act as an arbitrator between the Municipality and the Amte & Co. Without making sure of seeing his arbitration being binding on both the parties how can any one agree to act as an arbitrator ? A request for an arbitration will have to come officially from the responsible officers of the parties concerned. Is it not ? Knowing all this how can I say " Yes." to your offer ?

I write all this because Mr. Baburao Gore with whom you had a talk about our conversation seemed to be under the impression that I was going to see the correspondence because I had consented to act as an arbitrator. That was astounding to me. These things spread from mouth to mouth and are carried all over the city. I do not want such kind of misunderstanding between us.

I want to add one word more. Please note that I have no special interest in spending my time over that correspondence to-day. It is for you and because of you that I have given you the consent. I will be under no obligation either to you or any one for this. Nor will you be under my obligation for showing the same to me. Let us be quite clear.

Yours Brother,

MM

Copy

Dr.N.S.Hardikar,
Hubli (Karnatak)

Hubli,
August 14, 1957.

Dear Dr.Kumbhakonam,

My attention has been drawn to an incident that has taken place at the Chitguppi Hospital. I am reliably told that a nurse who was recently employed there has, due to some mis-behaviour of some member of the Hospital staff as also of some Municipal Councillor, resigned and is about to leave her job. This report, if true, is very painful and shall have to be taken note of seriously.

I am writing a series of articles on the administration of the Hubli Municipal borough and I want to get correct information before I deal with any such subjects. I have also to say that copies of these articles are being sent to the Government of Bombay for necessary action. Therefore, I am writing to you to let me know whether the above incident which has been reported to me has any basis and if so, what steps have been taken to punish those who are found guilty.

As I think that none but you from amongst the Councillors can supply me this information I am writing to you and troubling you. I hope you won't mind it. Will you please write to me soon ?

Your brother,

NSH

Dr.N.S.Hardiker,
Hubli (Karnatak)

Hubli,
16th August, 1937.

Dear Dr. Kumbhakonam,

Thank you for the prompt replies you have given. I know the "Nurse affair" is under investigation. I am glad you will let me know the details later.

I will write to you about the date and time of meeting you at the Co-operative Hospital. I would like you to invite Dr. V.V.Joshi, M.S., also to see the papers. He will be of much use to me.

Your brother,

Dr. S.P.Kumbhakonam,
L.M & S.,
Hubli.

PERSONAL

Hubli,
1.10. 1937.

From
Dr.M.S.Hardiker,
Hubli (M.S.M.nly)

Dear Balasaheb,

I am as I was before, neither better or worse.

A personal word. The President of the Hubli Municipal Borough, Sirdar Mahaboob Alikhan sent yesterday a copy of the letter he has addressed to you to the Hubli Taluka Congress Committee for their information. Therein I find that he has made very grave allegations against Congress Workers in Hubli. I have to assure you that these allegations have absolutely no basis. I have challenged him to prove them. The Hubli Taluka Congress Committee will answer these allegations point by point and will send the same to you in a day or two so that you may be in a position to answer him, if you so desire.

The Hubli Municipal Administration, being under the direct influence of reactionaries like Sir. S.A. Khambli for the last sixteen years or more, no trace of nationalism is seen anywhere in the Municipal affairs. Not only that but communalism has been rampant. The present President Sirdar Mahaboob Alikhan takes advantage of the communal bickerings and tries to retain his hold on the city and between themselves - Sir S.A.Khambli and Sardar Mahaboob Alikhan - they somehow manage to keep all nationalists and congressmen outside the Municipality. These have been in the habit of saying anything to anybody at any time in order to keep their sway over the populace. Hundreds of proofs can be cited in defence of the statements that I am now making.

However, it is not for me to say much just at this moment. The Taluka Congress Committee will deal with everything in their letter that will be sent to you by them.

P T O

How are you ? I do certainly desire to meet you and talk with you for sometime at least. Let us see when that day dawns.

Yours brother,

Sd. B.R.Ambedkar.

To

Hon. Mr. Balasaheb Kher,
27, Queens Garden,
POONA.

To

The Honourable Mr.L.M.Patil,
Minister for Local Self Government,
Government of Bombay,
B o m b a y.

Sir,

The undersigned petitioner begs leave to place before your honour the following few facts for your kind consideration and immediate action.

Your honour might be aware of the maladministration of the Hubli Municipal Borough. Those who are responsible for such administration think that they can defy any law and the rules framed thereunder. The complaints of citizens were not heeded in the past. The petitioner does not desire to worry your honour with the history of this maladministration under which the citizens of Hubli are groaning for a number of years. He will content himself with pointing out a few instances which clearly show that some of the Councillors of the Hubli Municipality are utilising the services of men who are paid for by the Municipality. Those men received their wages or salaries from the Municipality and they rendered service in the fields or houses of certain Councillors at their bidding.

Rao Saheb Dr.S.P.Kumbhakonam L.M.S. and Sardar Mahmboob Alikhan alias M.A.Savanur, President, Hubli Municipal Borough, are the two Councillors about whom details are as under:

With respect to Dr.Kumbhakonam

From 10-1-1937 to 10-2-37 three coolies and
from 11-2-37 to 26-2-37 two coolies laboured
in the field of Dr.Kumbhakonam;

Similarly on 6-3-37 one cooly
on 7-3-37 two coolies
on 8-3-37 one cooly
on 9-3-37 to 14-3-37 two coolies per day
15-3-37 to 24-4-37 one cooly per day
laboured in the house of the said Doctor.

There are likely to be other instances but the Municipal records are too sacred to be touched even by the

P.T.O.

ratepayers. The President has issued Standing orders not to show the records to anybody without his express orders. It is impossible to get permission from one who is fully conscious that such inspection would expose him. So I cannot give greater number of instances.

The President M.A.Sawanur has caused loss to the Municipality in the following instances by using the services of coolies on the days marked against them.

5	coolies	on 6-3-37	
4	"	" 7-3-37	
6	"	" 8-3-37	
4	"	" 9-3-37	
4	"	" 10-3-37	
3	"	" 11-3-37	
3	"	" 12-3-37	
1	cooly	" 14-3-37	
1	"	" 15-3-37	
1	"	from 30-3-37	to 1-4-37
1	"	" 15-4-37	to 22-4-37

These facts are noted in the Municipal Books given to the peons who supervise the work of gangs of coolies under them. The entries are in the handwriting of the peons and they are checked by Inspectors and signed by the latter. The facts stated above are culled from only two such books.

I am a lay man but all the same I think these facts constitute a criminal offence. These Councillors have fraudulently shown in the accounts of the Municipality that these coolies served the Municipality and dishonestly utilised their services for their own private use and gain. They have got the accounts falsely written in as much as their wages and salaries are debited to the Municipality in other words the coolies are paid by the Municipality though they rendered no service to it. The President and his honourable collegue have defrauded the Municipality.

The citizens of Hubli waited for months together for some inquiry to be made by the Congress Government, which is above communalism. That belief, I am pained to note, is being slowly undermined and why?

(1) The President is a Mohomedan. So, for the sake of maintaining good relations with that powerful community no finger is to be raised against a prominent member of that community.

(2) The Chief Officer is a Lingayat, who is not to be removed because the Lingayats form the largest section of the non-Brahmins would be displeased.

(3) The Brahmins though small in number are an influential body, so, no Brahmin's hair is to be touched.

As days pass this impression is gaining ground. The petitioner prays that your honour will take such early action as to give a go-by to this impression.

The petitioner prays to be excused for being frank.

The petitioner prays that the work of investigation is to be entrusted to a highly solid, trustworthy and intelligent Police Officer. The books referred to are to be attached immediately and statements of persons recorded without giving them opportunity of concocting a false explanation. The persons concerned are monied men and very influential persons. They have succeeded on the principle 'every man has his price'. So, much thought should be bestowed on the selection of the Police Officer and the Magistrate issuing search warrants. If the information leaks out the books are sure to disappear. On the substantiation of these facts it is for the prosecution to say exactly what offence is committed by the persons named above. The petitioner's view is that more than one offence is committed by them. He hopes that the Congress Government will set an example by taking action against them and checking this kind of leakage of Municipal Funds.

P.T.O.

In conclusion the petitioner prays that your honour would pass immediate orders for investigation by a competent Police Officer.

I have the honour to be,

Sir,

ur most obedient servant,

Rubli.

To,

The Health Officer,

Hubli Municipal Borough, Hubli.

Sir,

A public notice was issued under your signature that the water of Unkal water works have become bad due to absence of fresh rain water and the water be used for drinking purposes after ~~having~~ boiling.

Now, Sir, I presume sufficient rain water has now been received by the tank and should I consider that the water has now become fit for drinking purposes. If so will you kindly issue another notification to that effect.

By the bye will you kindly let me know if the water has been sent for chemical analysis and if so what are the results.

Thanking you for an immediate reply,

Hubli: 26-9-38. Yours Faithfully,

S.H.Raichur,

Hubli.

No. 1427 of 1938-39

Municipal Office,

Hubli, 25th October 1938.

Memo

Mr. S. H. Raichur of Hubli is informed that the [redacted] Mechanic-al Engineer of Dapuri has expressed his opinion that the chlorination plant should not be installed unless the Clear Water Tank Reservoirs are roofed. The work of levelling has been included in the works to be taken up next year. After th completion of the work the Chlorination plant will be installed.

This has reference to his letter Dated 26/9/193

D.B.D. Naik

Medical Officer of Health
H.M.B. Hubli.

To,

Mr. S. H. Raichur,

H U B L I

Some more remarks by the Govt. Auditor in his Note for 1935-36 published in the Report for the year 1936-37 (from pages 67-73).

Payments contrary to law.

Paragraph 5 shows how indiscriminately gratuities etc. are given to some of the Municipal servants though such gratuities are given only when any servant puts in a service of full 30 years or shows any extraordinarily good work in the interests of the Municipality. For instance, the payments made to Adamsab Chikkihari, I.B. Choudhari and the Assistant Engineer of the Unkal Water-works. Particularly the case of the Assistant Engineer of the Unkal Water-works is glaring.. He was granted a gratuity of Rs. 750/- by the Municipality, says the Govt. Auditor, though he was responsible for a heavy loss of Rs. nine thousand a year to the Municipality as pointed out by the Commissioner in his No. Adt. 12/3 dated 5th July 1935.

Under the subheading "Deficiency or loss due to negligence or misconduct", the Govt. Auditor in paragraph 6 points out how the Municipality from time to time made appointments of teachers in the Lamington High School on salaries fixed without due considerations and how the Educational Inspector of the Southern Division severely criticised this action of the Municipality but how the Municipality failed to consider the question of recovery of the amount paid in excess of the minimum of the sanctioned scale.

Paragraph 9 proves gross negligence on the part of those in charge of the Unkal Water-works. If there were proper supervision, a loss of Rs. 5110/ per year could have been avoided as proved by the Executive Mechanical Engineer and the Works Manager Dhapuri in letter No. G/49/5405 dated 13th and 14th August 1936. The Municiplity and incidentally the taxpayers were put to an annual loss of over five thousand rupees, know not for how many years.

Paragraph 10 strongly condemns the method of ascertaining rental values of houses and the Govt. Auditor substantiates his remarks by giving only a few instances such as of houses Nos. 1498 ward II A and 4641 (Ward V A). The Auditor concludes by saying that " as the Municipality must have been put to loss considerably such actions, matters must be scrutinised and the responsibility for the losses ascertained"

Paragraph 11 reflects lax supervision in so many cases and the Govt. Auditor remarks that amounts fixed by the anding Committee were incorrectly taken to the demand register housetax.

Further paragraphs from 14th to 27th, point out innumerable irregularities of questionable nature such as, incorrect alances of different articles (14), faulty payments (14 C), unlawful levies of taxes (1%), inordinate delays and irregular procedures 18), leasing out of plots without the Commissioner's sanction 3) etc. which are clear proofs of the maladministration of the Hui Municipality.

From:- ✱

L.A.Shimde,Esquire,

Ex: Municipal Councillor,

Hubli Municipal Borough, Hubli.

To,

D.S.Modak,Esquire,

Collector of Dharwar, Dharwar.

Subject:- Mal-administration of Hubli Municipal Borough.

Sir,

I beg most humbly and respectfully to place the following few lines for your Honour's kind consideration and further request that the matter I am now referring about should be enquired into in a most confidential manner.

Mr.Shirahatti, Octroi Assistant Inspector, Hubli Municipal Borough has been receiving Rs.7/8/0 as Cycle Allowance every month since a very long time though he cannot ride the cycle and make use of the same. If your Honour could send for him and try him in your presence, your Honour would be convinced beyond all reasonable doubt, this man is drawing the said allowance since very many years even though he is not actually using the cycle at all while performing his duties. I am in a position to adduce any number of evidences should so desired by your Honour.

Mr.Kenakudti, one of the Sanitary Inspectors of the Hubli Municipal Bourh also drawing Cycle allowance even he does not ride the cycle and make use of the same while performing his duties. I request your Honour that this man also should be tried in respect of cycle riding in your presence. Evidence, if need be, can be adduced to any extent

If I am informed in advance regarding the actual date of your enquiry, I shall be present with a view assist the enquiry.

Thanking your Honour very much.

I beg to remain,

Sir,

Your most obedient servant,

L.A. Shimde

Sir,

Sub: Construction of urinals & latrines.

With reference to your letter of the 22nd instant I have the honour to inform you that I was not know before that the Director would ask me to show your place. An application was made by some one complaining about the nuisance committed on road by the Muslim people attending your theatre. It is quite necessary to construct the urinals as per suggestions of the Municipality. The Municipality is not bound to supply water for the flushing system. The owner of the theatre is to make his own arrangement.

The owner of the Laxmi Talkies theatre has to construct a urinal. The Gandhipeth theatre has an urinal and the cinema theatre near Shirgaviakh is not in use now Laxmi Talkies, You are, therefore requested to construct the urinals and latrines as required by Municipal Rules in the places given & suggested. If you fail to put in an application for permission within 7 days of the receipt of this letter, serious steps will be taken in the matter

Have etc.

Hubli.

Sir,

I have the honour to inform you that it is quite necessary to construct urinals for the use of the visitors to the cinema theatre in order to abate the nuisance on the public road and the same fact was brought to your notice previously. But, unfortunately you have not yet taken any action.

Therefore, you are requested to construct early sufficient number of urinals on your site just near the municipal gutter in front of the gates of the theatre. Moreover, the urinals constructed in the compound of the dramatic theatre cannot be used by the public as they are in a corner and at the backside. So they also should be shifted to the front side.

If the urinals are not constructed within one month the action will be taken in such a way as to stop the performances.

An early reply is awaited.

I have etc.

Sd. I.A.Kavandr.

President.

No. M.U.N.H.1823.

Dharwar 19-9-1938.

The Voters' list already prepared and published having been found to be materially defective and as such not a proper Electoral Roll contemplated by Sec.13(1) of the Bombay Boroughs Act (Bom. XVIII of 1925) the Collector hereby directs in exercise of the authority conferred by Rule 5(1) of the Election Rules of the Municipality that Mr. L.N.Achalkar who was appointed in this office Memo H.1813 of 11-5-1938, to be Returning Officer under Rule 2(b) of the said Rules, shall continue to be the Returning officer. Mr. Achalkar should take up the work of the preparation of a fresh Voters' list without delay.

2. The Collector further appoints under Rule 10(2) Mr. A.L.Dias I.C.S. III division to be appellate authority to hear and decide objections received under sub rule (1) of the said rules and references received from the Returning officer under sub rule (3) of the said rules.

Reference asking to send to be published 22-4-1919

Reply on 30-4-1919

Finally 15-10-1919

To,

The Collector of Dharwar,

Dharwar,

Subject: Appointment of a pleader by the Hubli Hubli Municipal Borough in C.C.No.5/1938 and payment of fees and expenses from Municipal funds.

---oOo---

Sir,

I beg to inform you that the Hubli Municipal Borough has engaged a pleader to defend ~~xxx~~ all the four accused Viz. Messrs. Bijjur, Harshi, Jadhva and Umachagi in the above case and has resolved to pay the fees of the pleader from the Municipal funds and also the miscellaneous expenses in connection therewith.

Now, Sir, How is the Municipality justified in spending this amount when the case is agirst the four individual members and not ~~xxx~~ against the whole Municipal Borough. Moreover, the accused have engaged independently other pleaders Viz. Messrs. Billiyoris and . .Gokhale to defen them. The action complained of by the complainant is for the substitution of the application which is alleged to have been done by these accused in their indvidual capacity and not as members of the Municipality and is purported to have not been done while in the discharge of their duties as municipal councillors. Hence there is no reason why the Municipality should defend these accused from its funds. If such illegal actions of the members done in their private capacity are to be defended by the Municipality, then the way is open for all members to do any illegal actions as because they consider that the Municipality will spend for their defence.

Sir, the complainant is spending his own private money and the accused are being defended by the Municipality it means that the rate payers should spend both for themselves and for the accused.

I therefore request you will be kind enough as to stop the payment of the fees and direct the Municipality not

spend any ~~monies~~ money towards the expenses of the case.

I also undertsand that an amount of Rs.150/- has been paid to the pleader as advance against his fees : the full payment has been sanctioned in the General Body meeting held on 12-9-38 or in the subsequent adjourned General Body meetings.

A copy of the complaint is herewith attached for your ready reference.

I beg to remain,
Sir,

Your most obedient servant.

Memo

It has come to the notice of the undersigned that the standing committee has sanctioned the construction of a sump near kerosene cliff godown in Paddeyan Hakkal and that the lease of the site now given is cancelled. It is hereby ordered that the corstruction of the sump is with held and the lease of the site should not be cancelled untill further oiders

The chirf officer should carry out the above order.

Sd. M A Sayanur.
27-8-38. President.

The Presider

Sir

It has been brought to my notice that the Health officer has submitted his security bond yesterday i.e. 2-9-38 to the chief officer

I beg to point out that the health officer should have furnished security for his service within one month from the date he was called on to do so vide Rule 171 of municipal Rules.

The G.B Resolution passed on 16-C-1938 in this connection was brought to his (H.O.'s) notice which was acknowledged by him 21-C-1938.

Thus when he did not furnish secuirty within the due period i.e. one month his is liable to forefeit his appointment vide Rule 179.

According to the papers I find that he has submitted his security bond after about 2 months which is clearly illegal

The rule 179 is quite clear to say that he cannot remain in service when he has failed to furnish security bond within the prescribed period.

The explanation of the chief officer should be called for in this matter and the Naddi be ordered not to make any payment to H.O. pending the final decsion of the Municipality.

S P Kuchhakorim

Chairman, Sanitary Committee.

The Chairman,

Standing committee, H.M.B.Hubli

through the Health officer,

Re: Proposed night soil sump arrangement

Sir,

We the following councillors beg to state that th the above sump proposed at Gawligalli will be a great nuisance t to the locality. Hence we request that this proposal be dropped and similar arrangement be sanctioned within the same estimate at the site selected by us viz.between the kerosene oil godowns C.T. S.Nos. 2948 and 3010 on the municipal land.

We beg etc.

S.H.Divate,
M.Y.Pawar.C. Hanmantrao Jadhav, Sapale

Seen.
D.B.Parakh.
H.O. 25-7-38.

Note by the President.

The undersigned learns that the Standing committee held on 22-7-38 passed a resolution in con

connection with the construction of a sump near the kerosene oil godown by cancelling the construction of a sump at Gawligall The resolution of the Standing committee seems to have been made on a suppoisition that only sump is to be constructed for the storage of the night soil of all thelatrines in the city but the undersigned is of opinion that every public latrine should have a sump.

The proposal of the standing committee to have a sump so near the kerosene oil godown is most objectionable from the sanitary point of view as the sheep slaughter house is where quite close by.

The Sterling committee is therefore requested to reconsider the resolution already passed.

sd. M.S.Sa...

27-7-30.

H.O.

27-7-30. sd. M.D/Wale.

C.O.

F.W.C. The site selected was first suggested by the Chairman Sanitary committee and approved by all the members after due consideration of the following points.

1. The sump at Gawligalli will be a storage sump The one at the site selected ~~xxxxxxxxxxxxxxxxxxxx~~ is only as an arrangement to transfer night soil from carts into the motor.

2. The sump at Gawligalli will contain night soil at all times That at the site selected will be used only when the motor comes for filling.

3. The washing from the Gawligalli sump must go through town drains causing much nuisance. The washing at the selected site will be led into the natural drains Viz. nalla and cause no nuisance.

4. The slaught house is at the sufficient distance from the proposed site for sump.

5. There is no habitation within the closed distance of th proposed site which is also sufficiently out of way of main

Hubli town has a population of about 83000.

The city is devided into 11 sanitary Wards with three Sanitary Inspectors with one peon to each.

Bhangis: 59 Males and 32 Females.

Sweepers: Part time sweepers 150.

Whole time " 34

Special Gang 20

Latrines: 2000 with 3000 seats.

Total area of the city is 41 miles.

Human excreta remaining in the town 10000 i.e. 50 cart load

There are two Motors for removing town waste one old and the other new and one new motor has been furnished for removing human excreta. The president is inisting for arrnging a pit reservior for human excreta in Gowligalli which is in te heart of the town and near to the Robertson market inspite of the resistance from the Health officer .

Drainage Although the city possesses a good natural flow, almost all the gutters being Katcha and without due slop causing numerous accumulations.

There are only 60 gutter cleaners for the whole city.

Market Place: Robertson Market: This is market is over grown and on Bazar days the thoroughfares are bloc ed causing inconvenience to the general public. The vegetables are washed in unclean waters.

Beeft and mutton Market. Are very unclean and small Mutton is sft sold in unclean houses in the city where control and inspection is very difficult

Male ria: No routine measures of mosquitoes are adopted by the Municipality.

Vital statastics This is most neglected.

Cloronome: The president is showing his unwilling ness even to use perclonomer powder.

H.O.'s letter to president 24-11-37.

Town improvement scheme: Should be mapped out showing residential area, area for the upper classes, shops and market area, area for industrial and for the poorer classes. The scheme pretended to have been prepared by the Municipality is not a regular and sanctioned scheme. It is only supported by a G.B. Resolution . It will be illegal if these acquisitions are not made within one year of the resolution. (above 1000/-) Then a fresh resolution is essential. H.O.'s letter 23-3-28.to President.

" 21-3-38

1. No slums whatsover have been removed todate but only acquisitions for the road widening is made.
2. Gutters are very hap-hazardly built.
3. Urinals are not furnished with proper cess pools & water storage. No arrangement for the removal of urine.
5. No sufficient conservancy staff is furnished.

To,

The President, H.M.B. Hubli.

Sir,

The matter of Mr. B.V.Patil is pending before the Committee and hence this matter is not liable to be dropped as per your ~~xxix~~ views. Final decision will be communicated to ~~xxx~~ in due course.

ADMINISTRATION REPORT OF THE HEALTH DEPARTMENT

FOR THE YEAR 1937-38.

Vital Statistics:- The Hubli city comprises 11 villages. Its population as per 1931 census was 83494 of which 44042 were males and 39452 were females. The total area of the town is approximately 3.106 Sq.miles. There were in the year 2330 births and 1369 deaths giving a birth rate of 27.90 and a death rate of 16.39 as compared to the birth rate of 29.78 and death rate of 17.89 during 1936-37. There were 17 still-births recorded during the year as against 9 in the previous year.

The birth and death statements (Table 1) for the years 1933-34 to 1937-38 are given below:-

Table.1.

Year	Births.	Birth rate.	Deaths.	Death rate.
1933-34.	2267.	27.15.	1206.	14.44.
1934-35.	2235.	26.76.	1453	17.40.
1935-36.	2342.	28.04.	1253.	15
1936-37.	2487.	29.78.	1494.	17.89.
1937-38.	2330.	27.90.	1369.	16.39.

1937-38.	1456	1395	2851	629	354	983	3834

Plague:- There were no attacks or deaths from plague during the under report. Anti-rat campaign was carried out daily throughout the year by the 2 Rat-trap Mukadams and 20 coolies under supervision of the Rat-trap Supervisior.

No. of traps daily given out.---------- 350.

No. of rats trapped and destroyed.---------- 93340.

No. of rats dissected.---------- 617.

No. of rats found infected with plague.----- Nil.

No Anti-plague inoculation was performed during the year.

Cholera:- There were 10 attacks and 6 deaths from Cholera during the year within Municipal limits.

No. of Anti-cholera inoculations performed during the year:- 2219.

No. of houses disinfected with phenyle.------- 260.

Malaria:- 6263 cases with 3 deaths were treated at the Chitgup Hospital and Old Hubli Municipal Dispensary during the year as compared 6083 cases with 6 deaths during 1936-37 giving a mortality of .05%

Anti-malarial measures consisted of destruction of mosquitoes and larvae, filling in of pools,ditches and disused wells, regular cleaning and oiling of drains etc,. New drainage construction at an expense of about Rs.18,327/-was undertaken during the year and quinine destributed.

nteric, Diarrhoea, and Dysentary etc. from local enquiries, from Medical practioners during Sanitary inspectioners, it is gathered that these diseasesare greatly on the increase. The No. of cases of these diseases treated at the Chitgupi Hospital and Old Hubli Dispensary amounted to 1539 with 39 deaths amongst them giving a mortality rate of 2.5 %.

Respiratory Diseases:- 3871 persons were treated at the Municipal Hospital for Influenza, Pneumonia, Phthisis and other diseases with 56 deaths amongst them which gives the mortality of 1.5%.

Preventive measures adopted included opening out of congested areas, at an expense of 29,712/-, enforcement of improved housing conditions. For example lighting, ventilation, freedom from dampness, provision of open spaces. Cases of --- Phthisis were visited at their houses and advice as to prophylaxis was offered by the Sanitary Inspectors. During Influenza season pamphlets were destribute advising people about the --- prevention of Influenza..

Food supply:- There were almost 400 places of --- refreshments such as hotels, tea-shops, sweetmeat-shops, Khanavalies etc. Most of these are situated in insanitary premises and are managed in most un-satisfactory way and required to be be closed. By-laws as regards hotels, tea-shops etc. have been brought into force from 1st April 1937.

The following statement gives the No. of animals slaughtered in Municipal Slaughter house during 1937-38.:-

1. Sheep.----------15005.
2. She-goats.---------- 6070.
3. He-goats.---------- 5300.
4. Cows.---------- 1005.
5. Oxen.---------- 996.
6. She-buffaloes.---- 894.
7. He-buffaloes.------- 223.
8. Cow-calves. -------- 231.
9. Buffaloecalves.----- 52.

Apart from these a large No. of animals are slaughtered and their meat sold privately. This is due to inadequate market

market arrangements.

Water supply:- The water supply was derived from Unakal-tank and filtered through Jewel Filters. The supply is intermetemt for 2 to 3 hours daily. The supply is about 8 gallons per head. This is supplemented by 63 bore-wells and 50 ordinary wells in different --- localities of the town, and the water is not being chlorinated and the destribution system requires over-houling. To test the purity of the water-supply, Municipality resolved to send regular samples for water analyses to the Public Health Laboratory, Poona.

Housing Condition:- Total No. of houses in the city are about 18,000. These are mostly of the poorer type. In the latter part of the year a number of deacent houses have sprung up on the extension of the city. In order to enforce proper construction of these houses as regards, lighting, ventilation, drainage and latrine arrangements the Municipality resolved to appoint a building Surveyor.

The cleansing of latrines attached to private houses was undertaken by the Municipality. Complaints are frequently received against a high rate of Special Sanitary Cess, otherwise municipal arrangements for cleansing private latrines is working satisfacterily.

A staff of ~~xxxxx~~ 30 male and 20 female bhangies was added to the establishment for cleansing of the private latrines witj 2200 seats in them.

Conservancy work:- Refuse was collected by means of 22 bullock-carts and one motor lorry. About 90 cart loads of refuse was obtained from the town. This was used for dumping the Gurushiddappan Hond, Khajibhavi, Old Hubli ditch near Asar Hond and for covering night-soil trenches.

About 20 carts of night-soil was daily removed from the Municipal limits to the Trenching ground 3 miles away. Municipality resolved to re-place the country carts by motor busses being more chief and efficient method of transport. Some of 2 bullock ~~xxxx~~ refuse carts, for use in smaller by-lanes were converted into Pneumatic single bullock carts.

Sanitary Inspections:- 3 Sanitary Inspectors and 1 Sanitary-Supervisor daily inspected the several areas in the town. During th latter part of the year the Medical Officer of Health was appointed

by the Municipality for the first time.

No. of premises inspected on complaint:----------

No. of premises inspected for infectious diseases:---- 61.

No. of premises inspected for building permissions:--- 146.

No. of premises inspected for completion certificate:-- 32.

No. of premises inspected for un-sound food:---------- 45.

The following table 8. shows the Acts or By-laws under which action was taken:-

To The Collector of Dharwar

Sir

I have the honour to report that the following irregularities are noticed in Wards Nos. IV VII & VIII while recording the names of voters for preparation of the voters' List.

(1) Many instances of deceased owners are found who are dead long ago but still the names of the present heirs are not entered in the Municipal records. The period varies from one to twelve years & also in the case of properties which are either sold or transferred by partition etc.

(2) Many houses are found to have been occupied by one single family but have been given separate Nos. in the names of different relations viz brothers, wives, sisters, mothers etc to create more votes.

(3) There are also instances where a single house has been so numbered that both front and back doors are separately numbered viz. 8375 & 8378

(4) Some instances of fallen houses are found which are found are neither rebuilt nor occupied but still the assessment is recovered viz 7583, 7583C, 7781, 7826A, 8014, 8034, 8046, 8113, 8168 and 8196

I have now given some instances and a detailed report will be submitted soon

I have etc

though removal of sullage can be
effected, the towns can never be free
from nuisance. Only an underground
sewerage system with eliminate such
nuisance & the water supply
improvement scheme & the drainage scheme
upon the success of the
above schemes.

Calls for immediate attention
[illegible] scheme

Inspection Note No.65.

Hubli water supply and drainage.
Date of Inspection 18th Oct.1938

Inspected the water supply and drainage works in company with the Chief officer.

Sincethe last inspection of the Consulting Public Health Engineer in 1935, the old boilers appeared to have been scrapped and the old unit replaced by a new boiler and the new engine.

The efficiency or otherwise of working the machinery is a matter for the Executive Mechanical Engineer to look into. I observed that there were leaks of all kinds in steam and water pipes, and the lubrication was defective. The purification plant as at present worked is simply an apology for a plant of that kind, and that too the poorest. The stock of alum was exhausted. Filtered water looked only slightly better than muddy raw water. There was no evidence of any chlorination. The few analysis reports available pointed out that the water is highly contaminated. There are about 70 bores in the town used for the supply; the water is mostly surface water soaked into the ground and slightly purified owing to natural filteration. The analysis reports of water from these also disclosed that it is highly contaminated.. During my inspection, I came across an example of public supply being given through 1" service connection about 10 to 15 feet long across the road taking off from the service main to deliver into a ditch in katcha road side gutter for the people to fill in their ghadas. No tap ~~xxxxxxxxxxxx~~ was fixed on the service pipe and the water was allowed to run freely. This was in Ganesh pet. I was told that there are about 24 of such supplies.

Drainage: The surface drains and the nala chanalization of the Ype. as shown below already ~~xxxxx~~ constructed and other works of the kind in progress was inspected. As for construction is concerned it was fairly satisfactory. The of the Hubli town is very favourable for a comprehensive scheme of surface or underground drainage. To undertake any work of drainage in the town area without first ascertaining how it fits in with the comprehensive scheme and how it will not be a waste is extremely

short sighted. The rainfall conditions at Hubli to take out sullage from Nalas the underground pipes drains, to regrade the beds to uniform slope and to maintain them properly in dry weather, would perhaps be cheap and would go a long way towards providing complete drainage from sewings instead of by completely chanizing the Nalas, as isbeing done only a completely designed scheme for being executed progressively will bring this out. Due to my interview with the Collector on the subject, I have gone some waht at length in dealing with the public Health works at Hubli. Hubli is a rich commercial centre. It's incidence of is Rs. 3-95-9 and rather low but even for this the service rendered is comparatively poor. The local body should not grudge to provide better amenities to stimulate better sanitary life to the bulk of the so backward inhabitants.

It must augment its present supply by undertaking the scheme for supplimenting the supply investigates along with the investigations carried out for the Devargood storage already constructed and worked by the Railway. This would give a rate of supply of at least 15 gallons per head and a decent harm alumnating pressure of 5 to 10 feet in the highest locality. A comprehensive drainage scheme can then be undertaken. Under the hot weather conditions of Hubli, putrifaction is rapid and with surface drains though removal of sullage can be effected, the town can never be free from meladors. Only an underground drainage system can eliminate such nuisance. Both the water supply improvment scheme and the drainage scheme cannot be far beyond the means of the local body and are long overdue.

The prospects of supply from the future Malaprabha stoarge reservoir are too distant. When that scheme materializes ample supply will be available by gravity provided the cannel happens to be perenial upto say 90th to 100th mile from start.

The Ag Chief officer Mr. Wale has apparently been doing his best and has even succeeded in some measure in improving the town sanitation.

Cosulting Public Health
Engineer to Governmen

ANOTHER JUDGMENT AGAINST THE HUBLI MUNICIPALITY

---oOo---

L.C.Suit No. 360/1935.

In the court of the Joint Second class Subodinate Judge, at Hubli.

Vasant Narayanrao &ki minor by his guardian father Rao Saheb Narayanrao Chitguppi of Hubli. Plff

Vs.

The Hubli Municipal Borough, Hubli.

Suit for injunction against demolition of his buildings Makkeri lane Hubli.

Plff brought a suit against Hubli Municipality restraining it from demolishing his buildings under section 184 of the Municipal Borough's Act of 1925. The deft Municipality wanted to acquire some tenements belonging to plff under the special powers conferred under sec. 184. Plff alleged that the deft Municipality had no powers under sec.184 to acquire any property. The deft Municipality contended that it had powers under that section, having been conferred upon it by the Govet.& that it could exercise those powers. Plff replied that those powers were Ultra vires and illegal on the ground that the Government itself could not confer those powers on the Municipality inconsistently with the provisions of sec. 184 and that the powers alleged to have been so conferred could not be exercised by the Municipality being illegal and Ultra vires and actions so taken by Municipality in the proposed acquisition is also illegal and Ultra vires. Plff also contended that the defects alleged by the Municipality to have been existing in the locality did not really exist, and that its intention was merely to extend the streets in that locality.

Order

Ordered that the injunction restraining the Municipality from demolishing the said buildings is granted., as claimed by the plff. Deft Municipality to pay the costs of the plff and bear its own.

Plff represented by Mr. R.A.Deshpande, pleader and the Municipality was represented by Mr. B.V.Apte, pleader.

Judgment delivered today
i.e. 14-2-1938.

Damodhar Vithoba Shinde 2003; 2008

Municipality Vs. Halarya Engineers.

A sum of Rs 780/- were paid as gratuity to the Engineer but now the Municipality sues him to refund the said amount.

To

The Collector of Dharwar,

Dharwar,

Subject: Retrenchment of superfluous staff of H.M.B

Sir,

In continuation of my reminder dated 5th June 1938, I beg to state as under:-

The following posts have been found superfluous as per letter of the Commissioner No. 123 of 17-8-1936 which has been forwarded to the Borough under your No. 37 of 18-9-1936 :

1. English clerk.
2. Assistant store clekr
3. Barnishi ~~clk~~ clerk.
4. Asst.Tax Inspector
5. Market rent clerk
6. Encroachment clerk
7. Asst. B.D.Clerk
8. Assistant Lighting Inspector.
9. Octri Inspector
10. Sub Overseer.
11. P.W.D.Clerk
12. Fitter
13. Rat trap Muster clerk
14. Rat trap supervisor.
15. Slaughter house fees clerk.

Out of the above, the five posts Viz. Octrai Inspector, Lighting Inspector,P.W.D.Clerk and Barnishi were reduced but after wards the Barnishi and p.w.d were again filled in making the total reduction to 3. The president it is learnt has explained his difficulty in retnching the staff on the ground that if the staff is reduced it will be hard to go on smoothly with the administration. I am at a loss to know how is thus handicapped if the staff is reduced. It is not the reduction in staff that makes the smooth administration impossible but the present extravagent and superfluous and incompetent staff. The staff is found to be most incompetent both by the auditors and the Commissioner. The president does not say his grounds in support of his contention in making the retrenchment

But when he was pressed for retrenching the staff . he managed to have a sub committee appointed and

included in the committee such of his favourites to whom he could dectate his own saying. Accordingly, Messrs. Hanshi, Pawar, Divate, Rao saheb S.P.Kumbhakonam were made to serve on the committee. I also understand that there was a fifth member in the committee in the person of Mr. R.M.John. I am given to understand that he was never intimated of the dates of the meeting and he was not at all been shown any papers concerning this committee. He gives to understand that on the 14th August 1937, a report typewritten was sent to him for his signature and since he was not at all consulted and had not taken part in the proceedings, he refused to sign the report. But nowhere in the report this refusal to sign the papers or he was one of the members of the sub committee has been mentioned. This should please be enquired into. The work of this sub committee if I am correctly informed has been finished in a signle day and no considerations were given to their finding that if the staff is reduced it will not be possible to cope with the work of each department. Then it means that either the mention of the auditors or of the Commissioner is wrong. They ought to have given strong reasons for their finding.

It is a matter of great consideration to know that the members of this committee are men of no educational qualifiactions of administration experience. The President could have very well managed to get good people from his own party with University degrees of experienced if he feared men from the opposition to include in the committee but he wanted his own words supreme and hence the selection as mentioned above. The report of the committee is not worth of any consideration.

The committee has come to the conclusion that by reducing the pay the will save some Rs. 800/- but this revision, I understand will not affect the present staff but it is made applicable to future incumbants. Then there remains no meaning is say that the Municipality will save so much. I therefore ask you, Sir, whether the Municipality

be compelled to carry out your orders of reducing the superfluous staff as suggested.

It is no use and does not serve any purpose if the matter is kept pending. The President will be never willing to effect the necessary retrenchment. The whole staff must be overhauled completely and replaced by more efficient and better hand engaged. Unless this is done, the administration cannot be improved.

The sub committee throws all the blame on the Chief Officer, Mr. A.S.Patil and denies the staff being inefficient but I beg you to refer to the President and get copies of the letters from the Health officer who has often reported against Mr. Fattepur. The letters are dated 3-1938; -4-38 and 19-2-1938 which will throw light.

I therefore request you will please enquire into this matter immediately. One more thing, I beg to bring to your notice that the General elections will be over by next October 1938 when a new body will come in. I there request your honour to place this matter in their hands. for consideration. I think some better men will find their in the new body. Till then the matter should be kpet pending.

Thanking you in aniticipation,

I beg to remain,
Sir,
Your most obedient servant.

ಕಲಾಲರ ಕರ್ತವ್ಯಗಳು ಮತ್ತು ಜವಾಬ್ದಾರಿಕೆಗಳು

ಕಲಾಲರು ಸಾರಾಯಿ ಮಾರಾಟ ಮಾಡುವಾಗ ಸಾರಾಯಿ ಕುಡಿಯುವವರಿಗೆ ಅನುಕೂಲವಾಗುವಂತೆ ಕೆಲವು ನಿಯಮಗಳನ್ನು ಅನುಸರಿಸಬೇಕಾಗಿರುತ್ತದೆ. ಅವುಗಳನ್ನು ಕೆಳಗಿನಂತೆ ಪಟ್ಟಿ ಮಾಡಲಾಗಿದೆ.

(1) ಕಲಾಲರ ಕರ್ತವ್ಯಗಳು:- ಕಲಾಲರು ಪ್ರತಿದಿನ ಬೆಳಿಗ್ಗೆ ಮತ್ತು ಸಂಜೆ ಸಮಯದಲ್ಲಿ ಮಾತ್ರ ಅಂಗಡಿಯನ್ನು ತೆರೆಯಬೇಕು. ಮಧ್ಯಾಹ್ನ ಅಂಗಡಿಯನ್ನು ಮುಚ್ಚಿರಬೇಕು. ಅಂಗಡಿಯ ಮುಂದೆ ಸಾರಾಯಿ ಕುಡಿಯುವವರಿಗೆ ಅನುಕೂಲವಾಗುವಂತೆ ಕುಡಿಯಲು ಕುಳಿತುಕೊಳ್ಳಲು ಜಾಗವನ್ನು ಮಾಡಿರಬೇಕು. ಅಂಗಡಿಯ ಮುಂದೆ ಕುಡಿಯಲು ಕುಳಿತುಕೊಳ್ಳಲು ಜಾಗವನ್ನು ಮಾಡಿರಬೇಕು.

(2) ಕಲಾಲ ಮತ್ತು ಗ್ರಾಹಕರ ಸಂಬಂಧ:- ಕಲಾಲ ಮತ್ತು ಗ್ರಾಹಕರ ಸಂಬಂಧವು ಸೌಹಾರ್ದಯುತವಾಗಿರಬೇಕು. ಕಲಾಲರು ಗ್ರಾಹಕರನ್ನು ಗೌರವದಿಂದ ಕಾಣಬೇಕು. ಗ್ರಾಹಕರು ಕುಡಿಯಲು ಕುಳಿತಾಗ ಅವರಿಗೆ ಬೇಕಾದ ಸಾರಾಯಿಯನ್ನು ಕೊಡಬೇಕು. ಗ್ರಾಹಕರು ಕುಡಿಯುವಾಗ ಅವರಿಗೆ ಯಾವುದೇ ತೊಂದರೆ ಕೊಡಬಾರದು. ಗ್ರಾಹಕರು ಕುಡಿಯುವಾಗ ಅವರಿಗೆ ಬೇಕಾದ ಸಹಾಯವನ್ನು ಮಾಡಬೇಕು. ಗ್ರಾಹಕರು ಕುಡಿದು ಮುಗಿಸಿದ ನಂತರ ಅವರಿಂದ ಹಣವನ್ನು ಪಡೆಯಬೇಕು. ಗ್ರಾಹಕರು ಕುಡಿಯುವಾಗ ಅವರಿಗೆ ಬೇಕಾದ ಸಹಾಯವನ್ನು ಮಾಡಬೇಕು. ಗ್ರಾಹಕರು ಕುಡಿದು ಮುಗಿಸಿದ ನಂತರ ಅವರಿಂದ ಹಣವನ್ನು ಪಡೆಯಬೇಕು.

(3) ಹಣ:- ಕಲಾಲರಿಂದ ಸಗಟು ವ್ಯಾಪಾರಿಗಳು ಸಾರಾಯಿಯನ್ನು ಕೊಂಡು ಸಾರಾಯಿಯನ್ನು ಕೊಂಡು ಕಲಾಲರು ಸಗಟು ವ್ಯಾಪಾರಿಗಳಿಗೆ ಹಣವನ್ನು ಕೊಡಬೇಕಾಗಿರುತ್ತದೆ. ಕಲಾಲರು ಸಗಟು ವ್ಯಾಪಾರಿಗಳಿಗೆ ಹಣವನ್ನು ಕೊಡಬೇಕಾಗಿರುತ್ತದೆ.

(4) ಕಲಾಲರ ಸಹಾಯಕರು:- ಕಲಾಲರು ತಮ್ಮ ಅಂಗಡಿಯಲ್ಲಿ ಸಹಾಯಕರನ್ನು ಇಟ್ಟುಕೊಳ್ಳಬಹುದು. ಸಹಾಯಕರು ಕಲಾಲರಿಗೆ ಸಹಾಯ ಮಾಡಬೇಕು. ಸಹಾಯಕರು ಕಲಾಲರಿಗೆ ಸಹಾಯ ಮಾಡಬೇಕು.

(5) ಕಲಾಲರ ಸ್ಥಾನಾಂತರ:- ಕಲಾಲರು ತಮ್ಮ ಅಂಗಡಿಯನ್ನು ಬೇರೆ ಸ್ಥಳಕ್ಕೆ ಸ್ಥಳಾಂತರಿಸಬಹುದು. ಸ್ಥಳಾಂತರಿಸಿದಾಗ ಅವರು ಹೊಸ ಸ್ಥಳದಲ್ಲಿ ಅಂಗಡಿಯನ್ನು ತೆರೆಯಲು ಅನುಮತಿ ಪಡೆಯಬೇಕು. ಸ್ಥಳಾಂತರಿಸಿದಾಗ ಅವರು ಹೊಸ ಸ್ಥಳದಲ್ಲಿ ಅಂಗಡಿಯನ್ನು ತೆರೆಯಲು ಅನುಮತಿ ಪಡೆಯಬೇಕು.

ಇಲ್ಲಿ ಇಲ್ಲಿಯವರೆಗೆ ಬರೆದಿದ್ದೇನೆ ಕಾಗದ ಬರೆಯಲು ಸಮಯ ಸಿಕ್ಕಿರಲಿಲ್ಲ. ಇಲ್ಲಿ ಸಾಕಷ್ಟು ಚಳಿ ಇದೆ. ಬೆಳಿಗ್ಗೆ ಬೆಚ್ಚಗೆ ಹೊದ್ದು ಮಲಗಿರಲು ಅನಿಸುತ್ತದೆ. ಆದರೆ ಕೆಲಸಕ್ಕೆ ಹೋಗಲೇಬೇಕಲ್ಲ.

ಮನೆಯಲ್ಲಿ ಎಲ್ಲರೂ ಚೆನ್ನಾಗಿದ್ದಾರೆ ಎಂದು ತಿಳಿಯುತ್ತೇನೆ. ಅಲ್ಲಿ ಎಲ್ಲರಿಗೂ ನನ್ನ ನಮಸ್ಕಾರಗಳನ್ನು ತಿಳಿಸಿ. ಅಮ್ಮನಿಗೆ ಹೇಳಿ ಕಳುಹಿಸಿದ್ದ ಸಾಮಾನುಗಳು ಸಿಕ್ಕಿದವು
